(Expressed in Canadian Dollars, except per share amounts)

1. Nature and Continuance of Operations

Britannia Life Sciences Inc. ("BLS" or "Britannia") (together with its subsidiaries, the "Company") is a company domiciled and incorporated in Canada under the laws of the Province of Ontario. The address of the Company's registered office is 120 Adelaide Street West, Suite 2400, Toronto, Ontario M5H 1T1. The Company's common shares are publicly traded on the Canadian Securities Exchange (BLAB: CSE). The Company provides product testing, safety assessment and compliance services to the cosmetic, consumer packaged goods and nutraceutical industries in the United Kingdom and globally.

2. Basis of Preparation

(a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations Committee ("IFRIC").

The accounting policies adopted in the preparation of the condensed interim consolidated financial statements are based on IFRS, which have been applied consistently to all periods presented. These condensed interim consolidated financial statements were approved and authorized for issuance by the Board of Directors on November 29, 2023.

(b) Basis of consolidation

The condensed interim consolidated financial statements comprise the financial statements of the Company, its wholly owned subsidiaries BBCH, Britannia Bud Company Limited ("BBCL"), Jamaica-Blu Ltd., Rise Research Inc., Scout Assessment Corp., Rise Life Science (Colorado), LLC, Brand Max, Inc. dba Cultivate Kind, Life Bloom Organics, LLC, Advanced Development and Safety Laboratories Ltd. ("ADSL") of which Company owns 70% and Cosmetic Labs Limited (CosLab) of which the Company owns 51% (the "Group"). BBCL, ADSL and CosLab operate in the United Kingdom and have a functional currency of UK pounds sterling. Life Bloom Organics, Brand Max Inc. dba Cultivate Kind, and Rise Life Science (Colorado), LLC are domiciled in the United States of America and have a functional currency of US dollars.

The Company's subsidiaries are as follows:

		4	4	
_	п	ш	•	v

•	Jurisdiction of Incorporation	Ownership
Britannia Bud Canada Holdings Inc.	Ontario, Canada	100%
Britannia Bud Company Limited	United Kingdom	100%
Jamaica-Blu Ltd.	Ontario, Canada	100%
Rise Research Inc.	British Columbia, Canada	100%
Scout Assessment Corp.	Ontario, Canada	100%
Rise Life Science (Colorado), LLC	Colorado, United States	100%
Brand Max, Inc. dba Cultivate Kind	California, United States	100%
Life Bloom Organics, LLC	Delaware, United States	100%
Advanced Development & Safety Laboratories Ltd.	United Kingdom	70%
Cosmetic Labs Limited	United Kingdom	51%

All intercompany transactions and balances between and among BLS and its subsidiaries have been eliminated on consolidation. Where necessary, adjustments are made to assets, liabilities, and results of subsidiaries and associates to bring their accounting policies into line with those used by the Company.

Subsidiaries are entities controlled by BLS. The financial statements of subsidiaries are included in the condensed interim consolidated financial statements from the date that control commences until the date that control ceases. BLS controls an entity if it has power to direct the activities of the entity that significantly affects its returns ("the relevant activities"), has exposure or rights to variable returns from its involvement with the entity and has the ability to use its power to affect those returns.

Changes in the BLS's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the BLS's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the noncontrolling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's

(Expressed in Canadian Dollars, except per share amounts)

accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between BLS and its subsidiaries are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

(c) Basis of measurement

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value.

(d) Functional and presentation currency

The condensed interim consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency and the overall presentation currency. The Company's U.K. operations have a functional currency of UK pounds sterling. The Company's US operations have a functional currency of USD. All financial information presented has been rounded to the nearest dollar except where indicated otherwise.

(e) Use of significant estimates and judgements

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

These condensed interim consolidated financial statements have been prepared on a going concern basis in accordance with IFRS. The going concern basis of presentation assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. Management carefully manages its cash flows and, as necessary, will undertake efforts to raise additional capital. These condensed interim consolidated statements do not reflect the adjustments or reclassifications of assets and liabilities which would be necessary if the Company were unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in the normal course of business operations and at amounts different from those in the accompany condensed interim consolidated financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The determination of fair values to the net identifiable assets acquired in business acquisitions often require management to make assumptions or estimates about future events. Changes in any of the assumptions or estimates used in determining fair value of acquired assets and liabilities could impact the amount assigned to assets, liabilities and goodwill in the purchase price allocation.

Goodwill is tested for impairment annually or more frequently if there is an indication of impairment. The assessment of fair values includes estimates and assumptions, discount rates, future operating performance and capital requirements. These estimates and assumptions are based on industry and historical practices as well as future expectations. Changes to these estimates or assumptions could impact the impairment analysis of goodwill.

Information about key assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year are included in the following notes to the condensed interim consolidated financial statements:

- The measurement and period of use of intangible assets including patents and trademarks.
- The measurement and period of use of property and equipment
- The assumptions used to value the right-of-use asset and associated lease obligation upon the adoption of the lease standard under IFRS 16, Leases.
- The assumptions used to determine the incremental borrowing rate.
- The assumptions used to fair value the debt component, the conversion feature and associated warrants on initial recognition.
- The assumptions used to value options and warrants issued.
- The assessment of a cash-generating unit to which goodwill is allocated.
- The assumptions used to estimate the carrying value of goodwill and intangible assets.

3. Material Accounting Policy Information

Except for the addition of the inventory policy below, these condensed interim consolidated financial statements have been prepared using the same accounting policies and methods as those used in the Company's annual consolidated financial statements as at and for the year ended March 31, 2023.

Inventory

Inventory is measured at the lower of cost and net realizable value. The cost of inventories is determined on a first-in first-out basis, and includes expenditures incurred in acquiring the inventory, production or conversion costs and other costs incurred in bringing inventory to its existing location and condition. In the case of manufactured inventory and work-in process, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expense.

For inventory acquired in a business acquisition, the fair value is determined based on the estimated selling price in the common course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventory.

6. Business Developments

a) Advanced Development & Safety Laboratories Ltd.

Mark Richard Bowes-Cavanagh, Claire Suzanne Bowes-Cavanagh, Jonathan Bird Sumner and Robert Sumner (the "Sellers") and BBCH entered into a share purchase agreement dated March 10, 2020, wherein the Company acquired 60% of the issued share capital of ADSL (the "ADSL Acquisition"). Completion payments in relation to the ADSL Acquisition were made on February 9, 2021 (the "Completion Date"). The ADSL Acquisition consideration included a cash payment of \$5,278,445 (GBP 3,008,819), a loan payable to the Sellers of \$7,819,478 (GBP 4,456,813), and a loan payable to ADSL of \$6,551,624 (GBP 3,734,183).

Pursuant to the terms of the ADSL Acquisition, on the first three anniversaries of the Completion Date, the Company has the right to acquire from the Sellers up to an additional 40% of the share capital for an additional consideration. In circumstances where on expiry of the third anniversary of the Completion Date the Company has not acquired all the ADSL shares, the Sellers have the right to require the Company to purchase all of the ADSL shares it does not yet own (the "Put Liability"). The total consideration payable for the additional shares ("Put Shares") upon exercise of the Put Liability and the closing of the Company's acquisition of the Put Shares would be equal to the total equity value of the Put Shares, which would be based upon the applicable percentage acquired by the Company of the total enterprise value for ADSL.

At the close of the ADSL Acquisition, the value of the Put Liability was determined to be \$2,464,315 (GBP 1,404,568), representing the difference between the market price and the contract value of the Put Liability, discounted at a rate of 0.23% per annum and assuming the transaction would take place on February 9, 2024. As at March 31, 2022, the fair value of the put liability was remeasured to \$4,495,033 (GBP 2,738,035), generating a loss on the change in fair value of the put liability for the year ended March 31, 2022 of \$2,059,933.

On April 7, 2022, the Company acquired an additional 10% of the outstanding issued share capital of ADSL (the "Subsequent ADSL Acquisition"). A cash payment of GBP 1,813,358 was paid as consideration for the Subsequent ADSL Acquisition (CAD: \$2,982,066).

The net proceeds of the loan are being accreted to the amount payable on maturity over the term. As security the Company pledged the share capital it holds in ADSL and a debenture has been issued between GLL and each of BBCL and ADSL. Interest is payable monthly in advance from inception of the loan and is calculated monthly based on the capital outstanding at the higher of 9.5% per annum and 8.5% per annum plus the SONIA (Sterling Over Night Indexed Average). Principal repayments began in April 2023 with equal monthly instalments of principal and interest from then until April 2027. Fair values of financial assets and financial liabilities

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. Fair value estimates are made at the statement of financial position date, based on relevant market information and other information about financial instruments.

The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

There were no transfers between level levels 1 and 2 for recurring fair value measurements for the period ended September 30, 2023. Further there was no transfer out of level 3 measurements.

The Company does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company is exposed to liquidity risk with respect to its contractual obligations and financial liabilities. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to fair value risk with respect to the GLL loan payable, which bears interest at the higher of 9.5% per annum and 8.5% per annum plus SONIA (Sterling Over Night Indexed Average).
