### Form 51-102F2 Management's Discussion & Analysis (MD & A)

## **Forward-Looking Information**

This MD&A contains "forward-looking information" that is based on management's expectations, estimates and projections as of the date of this MD&A. Forward looking information in this MD&A can frequently be identified as incorporating such words as "plans", "becomes", "expects", "estimates", "forecasts", "intends", "anticipates", "believes", "may", "could", "would", "might" or "will". This forward looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the company to be materially different from any future results, performance or achievements expressed or implied by the forward looking information in this MD&A. Actual results may vary materially from the forward looking information contained in this MD&A.

The forward-looking information contained in this MD&A is based on the information available as of the date of this MD&A and we have no intention of updating them except as required by applicable securities law. Numerous events and circumstances could occur subsequent to the date of this MD&A that could cause the actual results, performance or achievements that may be expressed or implied by the forward-looking information.

Forward-looking statements are included in sections 1.2, 1.4, 1.5, 1.6, and 1.11. Examples of such forward looking information included in this MD&A include, but are not limited to, trends in the marketplace favoring both Quizam's products; the demand for Corporate Computer training being fueled by the increased reliance on computers in the workplace; growing use of the internet helping to improve the awareness and consequent demand for the Quizam product; demand for Quizam's products increasing; the large global increase in the use of cell phones and internet, together with an increased appreciation for education and training giving the company excellent strategic positioning; all future global License sales will be in Canadian dollars; there can be no assurance that the company will be able to obtain adequate financing in the future or that the terms of such financing will be favorable; the company will continue to improve its cash positions by focusing on increasing sales, improving profitability and equity financings; broadening of On-TrackTV; increasing our On-TrackTV sales team; significant parental/family demand for study tools; inventory increasing in value; anticipating receiving deferred purchases; management anticipates more Country Licenses coming on board and increased website visits in the coming quarters. In addition, Quizam Media has opened up a "Movie" division. We are producing our own feature length movies.

All of the above forward looking statements are subject to significant risks and uncertainties. Certain material risk factors, that could cause actual results to differ materially from the forward-looking information contained in this MD&A include, but is not limited to, changes in the actions of competitors; fluctuations of exchange rates; the trading level of the company's stock; the continued availability of financing on appropriate terms for future projects; the continued increase of commercial run rates; a decline in market liquidity, and the volatility of global markets. Events and circumstances that occurred during the year ended May 31, 2018, which are reasonably likely

to cause actual results to differ materially are the volatility of the global economy and increased competition which could prevent the company from improving its cash position, improving profitability, increasing Country Licenses or completing necessary financings; decreased usage of the internet, cell phones, and PDA's which could decrease demand for Academic Quizzing software and Quizam's products; the inability to hire appropriate staff and the results of product development activities could prevent further revisions to the software and the development of new products. Changes in the Entertainment industry could also affect results. Currently the movie business is going through major changes as the Internet and On-Demand usage increases.

The current economy increases the uncertainty of forward looking statements and information included in the MD&A.

### 1.1 Date of Information

#### 1.2 Overall Performance

We are pleased with development of On-Track TV as it's library of current software topics has become very comprehensive. More recently, we have entered into several discussions with top industry players who are interested in using On-Track TV to train their teams. In addition, we have many individual users that use On-Track TV for learning. In June 2018 we sold the USA and Malaysian rights of On -Track TV for USD\$150,000 but this could blossom to over USD\$330,000 based on activations. The business model is based on self-service through a website with residual subscriptions. People are going to the On-Track TV site and using the training. Our continued increase in On-Track TV Web-Hits supports this.

We continue to enhance On-Track TV. Our two main areas of On-Track TV development include the LMS (learning management system) and content. More recently we have invested much time and effort to ensure our content is of the highest quality. As software companies continue to release new versions we continue to develop On-Track TV content for these new versions.

The company competes in the global marketplace and the continued devalued Canadian Dollar is helping to make our product more competitive globally.

The page hits and Video view/downloads from the On-Track TV website continues to increase quarter by quarter. It appears that trends in the marketplace are favoring Quizam's On-Track TV product. The demand for corporate computer training is being fueled by the increased reliance on computers in the workplace coupled with the continued releases of new products from software producers like Microsoft.

Our usage and page hits worldwide for the each of the last eight quarters are as follows

	Page	Video

We continue to transition from face to face training to online training. Our online division is growing faster than the face to face training division and the ontracktv.com website is growing much faster than the On-Track face to face training website.

Quizam has altered its "Exclusivity" agreement with Central Media in the UK. The agreement is now non-exclusive and permits Quizam to work with other partners in the UK for the sale and distribution of ontrackTV.com into the UK market under the name ontrackTV.co.uk. The ontrackTV.co.uk library of online learning videos is sold via annual subscriptions to those seeking to learn about common software packages, Human Resource (HR) training, and Management Leadership Training.

On-TrackTV continues to diversify its offering to include far more than just software training.

Our UK partner is continuing to forge new clients for us in the UK market. Sales have been down this year in Europe, but we are currently working on some significant deals that are taking longer than expected. Management feels European sales will increase this year.

Until now On-TrackTV has focused on information technology computer training, however, due to client demands and custom training requests we are now expanding the curriculum to include soft skill training for corporations. We have added new soft skill courses such as Conflict Resolution in the Workplace, Brain Storming and Increasing Workplace Assertiveness. We have also added 500 new on-line courses in trades including apprentice programs for plumbing, electrical, pipe fitting and carpentry.

In addition to the training services described above, our global strategy with On-TrackTV has been to place our tags on partner's websites; however, revenue from this source has been minimal so far.

The Company has two teams familiar with both markets working in Canada and the United Kingdom. Increased demand for On-TrackTV has resulted in reassigning some of the Quizam Software team and as a result, Quizam Software development and sales efforts have become secondary to On-TrackTV. However, we are still working to develop a free shared online Quizam community. More recently we have developed some Quizzing tools for National Companies to test their employees. We see this market as having large and complimentary potential to On-Track TV.

We are also adding administrative components to On-TrackTV which will broaden our corporate appeal. We are looking at broadening On-TrackTV to include other broadcasts such as CEO messages, compliance issues, and other customized corporate communication requirements for clients. We plan to increase our On-TrackTV corporate sales team and to sell the product to Fortune 500 companies.

Management feels that the growing use of the internet will help to improve the awareness and consequently demand for the Quizam product.

Management sees the demand for Quizam's products increasing. The global increased use of cell phones and internet, together with an increased appreciation for education and training will give the company excellent strategic positioning. We are currently developing products for handheld devices such as iPhones and Android phones.

The Company is continuing to add quizzes to its internet library. Many of the topics are classic and timeless. As this library continues to grow it becomes a valuable asset to the Company. The Company is exploring ways of accelerating the growth of this library either through corporate purchases of content or perhaps a "community" sharing model where quizzes can be added by global users. In either case management sees this inventory increasing in value as time goes on.

The Company has the equipment and experience in producing non-fiction learning vignettes. Management decided to expand its content to include some "Fiction" based filming such as Movies for Entertainment. In October, 2014, the Company announced the opening of a new Entertainment Division. The Company has been a producer/aggregator of family entertainment. In October, 2014 the Company also announced the appointment of Lewis Schoenburn, Jacquie Wechselberger and Uwe Boll as members of the Company's Advisory Board.

In January 2015 the Company signed a deal with Event Film for film distribution and management believes that overall performance is improving. The Company is working toward producing content both for education and for entertainment. Thus far Event Film has introduced our films to new markets and we are making sales.

In February 2015, the Company signed a deal with Extreme Video in Italy to produce a horror thriller movie entitled "The Blind King". The movie was completed in February 2016 and has made some modest sales. We have earned some revenues and we expect sales and royalties to continue for this film.

In March 2015, the Company signed a deal with Clarius Entertainment in Los Angeles whereby the Company will guarantee loans of up to US\$6.25Million to assist with theatrical releases in the North American market. In May 2015 both parties agreed to have the deal expire and work on new improved deal whereby Quizam could have equity position (see below). We signed the new improved deal in October 2015 whereby for shares and warrants we acquired a 10% non-dilutive share of Aviron Pictures and a US\$1million promissory note payable to Quizam Media (see below).

In May 2015, the Company through Event Film entered into a licensing agreement with Koch Media whereby Koch will purchase 4 feature films from Event Film for the Italian speaking European market. The films are titled "Gifted", "Gifted 2", "Primal Shift" and "The Blind King". Koch paid US\$20,000 for "The Blind King" owned by the Company and

is to pay US\$15,000 for the other three movies distributed by Quizam Media as an agent for a 15% distribution commission, plus 50% of all gross receipts from the exploitation of the film. A 20% commission is to be paid by Quizam Media to Event Film (waived for "The Blind King"). These deals will continue to earn royalty revenue for the company.

In June 2015, the Company entered into a letter of intent to acquire a 10% non-dilutable equity interest in William Sadleir's new motion picture distribution company, Aviron Group, LLC, ("Aviron") headquartered in Beverly Hills, California.

The Company subsequently entered into a Share Exchange Agreement which closed on November 5, 2015 (the "Agreement"). Under the terms of the Agreement, the Company issued 100,000 common shares and 1,225,000 share purchase warrants to acquire 1,000 Class A units of Aviron, representing a 10% non-dilutable equity interest. Each warrant entitles the holder to acquire one common share at a price of \$0.08 for a period of 60 months following closing. Aviron granted the Company a Net Earnings Participation interest consisting of (i) US\$50,000 per year for five years, paid quarterly (US\$24,500 received in fiscal 2016) (ii) the issuance of a non-interest bearing promissory note of US\$1,000,000 due and payable on or before October 30, 2020 (iii) 10% of Aviron's net annual revenues (no payments were received as of May 31, 2016 and this clause is under dispute) (iv) and 10% of all proceeds or value received at the time of a liquidity event, including a public or private sale of Aviron, or winding up of the company. In January 2017 after determining that Aviron was not performing as expected Quizam terminated its relationship with Aviron. All terms of the transaction were reversed and Aviron paid a \$66,000 fee to Quizam.

Effective October 5, 2016, the Company completed a 1-for-10 share consolidation. All share and per share amounts have been retroactively restated to reflect the share consolidation.

In April 2018 we partnered with AC3 to market On-Track TV in the Crypto Currency marketplace. Under the terms of the agreement all revenues derived from sales of On-Track TV subscriptions go to On-Track TV in AC3 cryptocurrency.

In June 2018 we sold the exclusive USA and Malaysian rights to On-Track TV to Superior Online Training for USD\$330,000. Under the terms of the agreement Superior is paying USD\$150,000 plus a per country activation fee of USD\$20,000 fee for each Southeast Asian country including Singapore, Malaysia, Indonesia, Thailand, Philippines, Vietnam, Cambodia, Laos and Burma (an additional USD\$180,000). On-Track TV and Superior will share subscription revenue generated from sales of On-Track TV. Superior and On-Track TV have agreed to escalating yearly minimum targets to retain their exclusivity.

The Company plans to continue to focus on growth and profitability. The main strategies in the process include:

- a) Strict focus on increasing gross sales in each month compared to the same month in previous year;
- b) Increase of pricing in all areas;
- Huge expansion of course offerings beyond IT and computer training. Some of the new course offerings include customer service, conflict resolution, minute note-taking, and project management;

- d) Special marketing team devoted to gaining Fortune 500 companies as clients for On-Track TV;
- e) Continue to develop On-Track TV markets in the UK, North America, and Bahrain (Middle East);
- f) Add quizzing component to On-Track TV where users are quizzed after viewing content;
- g) Offering web development services under the name On-Track Web Development. This enables us to leverage our in house team and increase revenue;
- h) Continue to enhance the LMS (learning management system) of the On-Track TV website;
- i)Further development of the UK market;
- j)Full scale animation and film productions in the areas of non-fiction and education;
- k) Production of 1-2 Independent films per year;
- 1)Develop and offer courses in common accounting software such as Simply Accounting, Quick Books and Caseware. This would be for both Face to Face and On-Track TV.

# 1.4 Discussion of Operations

Revenue for the year ended May 31, 2018, increased to \$631,247 compared to \$546,850 during the year ended May 31, 2017. Loss before other items decreased to \$1,128,609 (2017 - \$1,897,094) during the year ended May 31, 2018. Operating expenses decreased from \$2,443,944 during the year ended May 31, 2017, to \$1,759,856 during the year ended May 31, 2018. The decrease of \$684,088 was mainly as a result of a decreased expense in accounting and legal fees, investor and finance development, On-Track TV development costs, research and development, software development, share-based compensation and

subcontractors. Net loss decreased by \$731,442 as a result of a decrease in operating expenses.

The significant changes were as follows:

- Accounting and legal costs decreased to \$142,541 for the year ended May 31, 2018 (2017 \$399,810). The decrease is a result of finding effective ways for bookkeeping and maintaining files.
- Investor and finance development costs decreased to \$103,934 for the year ended May 31, 2018 (2017 \$242,815). The decrease is a result of more investor relations meetings done through conference calls and Skype.
- On-Track TV development costs decreased to \$99,450 for the year ended May 31, 2018 (2017 \$155,549). The decrease is a result of far more economical and cost effective solution of On-Track TV. Much of the upgrades to Ontrack TV have been completed. Management is now working on streamlining and reducing costs.
- Research and development costs decreased to \$150,640 for the year ended May 31, 2018 (2017 \$244,606), as much of the major goals have been met for the time being. The system is up and running and we are now enjoying increased usage and increased usage. Less research and development is required at this time.
- Software development costs decreased to \$11,667 for the year ended May 31, 2018 (2017 \$81,195). The decrease is a result of software upgrades completeness. Much money was spent upgrading and streamlining the past quarters. The costs are now down significantly.
- Share-based compensation costs decreased to \$80,308 for the year ended May 31, 2018 (2017 \$139,575). The decrease is a result of the Company granting 1,830,000 stock options during the year ended May 31, 2018 with a weighted average grant date fair value of \$0.04 per option as compared to the Company granting 590,000 stock options during the year ended May 31, 2017 with a weighted average grant date fair value of \$0.24 per option.
- Subcontractors costs decreased to \$153,958 for the year ended May 31, 2018 (2017 \$263,116). The decrease is a result of more full time staff being used and higher average revenue per subcontractor.
- Our training division continues to improve its performance and management feels we are gaining more market share every quarter. We are blending out On-TrackTV with our face to face offerings to attract more large clients.

## 1.5 Summary of Quarterly Results

The effect of applying the treasury stock method to the Company's loss per share calculation is antidilutive. Therefore, basic and diluted losses per share are equal for the periods presented.

The quarterly periods in the table below are presented under International Financial Reporting Standards in Canadian dollars.

Description	May 31, 2018	February 28, 2018	November 30, 2017	August 31, 2017	May 31, 2017	February 28, 2017	November 30, 2016	August 31, 2016

Revenue decreased during the three months ended February 28, 2018. Net loss increased during the third quarter ended February 28, 2018, as a result of the reduction in revenue and an increase in share-based compensation.

Revenue increased during the three months ended May 31, 2018. Net loss decreased during the fourth quarter ended May 31, 2018, as a result of an increase in revenue, and a decrease in share-based compensation.

## 1.6 Liquidity

The Company's liquidity has decreased at May 31, 2018 since May 31, 2017.

	May 31, 2018	May 31, 2017
Cash and cash equivalents	\$76,253	\$324,911
Accounts receivable	\$13,660	\$30,324
Accounts payable and accrued liabilities	\$89,962	\$110,477
Due to related parties	\$242,535	\$474,908
Working capital (deficiency)	\$(247,242)	\$(232,211)

As at May 31, 2018, the Company had cash and cash equivalents of \$76,253 and a working capital deficiency of \$247,242 compared to cash and cash equivalents of \$324,911 and a working capital deficiency of \$232,211 as at May 31, 2017. The Company's increase in working capital deficiency is mainly attributable to the decrease in cash and cash equivalents.

During the year ended May 31, 2018, the Company used \$1,241,035 of cash for operating activities compared to \$1,334,999 in the comparative period. The Company incurred \$92,394 (2017 - \$10,644) in acquisition of equipment during the year ended May 31, 2018. The Company has financed its operations for the last two years mainly through the issuance of share capital. The Company has raised \$1,084,770 (2017 - \$1,641,226) through subscription of share capital during the year ended May 31, 2018. The Company has incurred losses as it continues to develop its software products. The Company continues to be dependent on its cash reserves and future financings.

There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favorable. If adequate financing is not available when required, the Company may be required to delay or scale back its software development and marketing. Any equity offerings will result in dilution to the ownership interests of the Company's shareholders and may result in dilution to the value of such interests.

Currently the Company has insufficient funds to meet its requirements for the coming year. It will continue to improve its cash positions by focusing on increasing sales, improving profitability and equity financings.

## 1.7 Capital Resources

The Company's capital currently consists of common shares, options and warrants. The Company's principal source of funds is from the issuance of common shares. The Company's capital management objectives are to safeguard its ability to continue as a going concern and to have sufficient capital to be able to meet the Company's educational software development, internet training development and film production to ensure the growth of activities.

During the year ended May 31, 2017, the Company entered into a rental agreement effective until August 31, 2022. The Company has committed to pay rent, taxes and operating costs. Minimum future lease payments are as follows:

Fiscal Year	\$
2019	100,134
2020	104,365
2021	108,596
2022	112,827
Thereafter	38,079
Total	464,000

## 1.8 Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

### 1.9 Transactions Between Related Parties

The Company has identified its directors and certain senior officers as its key management personnel and the compensation costs for key management personnel and companies related to them were recorded at their exchange amounts as agreed upon by transacting parties as follows:

	May 31, 2018	May 31, 2017
Management fees	\$ 144,000	\$ 154,400
Share-based compensation	21,356	0
	\$ 165,356	\$ 154,400

For the years ended May 31, 2018 and 2017, key management personnel were not paid any post-employment benefits, termination benefits or any other long-term benefits.

At May 31, 2018, \$242,535 (May 31, 2017 – \$474,908) was owed to a significant shareholder and companies owned by a significant shareholder, who is also a director and officer, and to a company owned by his relative.

Accounting and legal, investor and finance development, office and miscellaneous, On-Track TV development, research and development, software development, subcontractors, travel and business development, and wages and benefit expenses are provided by related parties and significant shareholders of the Company.

During the year ended May 31, 2018, \$729,741 (2017 - \$1,476,372) of these expenses were included in expenses to companies owned by a significant shareholder, who is also a director and officer, and immediate family of the significant shareholder.

## 1.10 Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions which affect the reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses for the period reported. Significant areas requiring the use of management estimates relate to calculating an allowance for doubtful accounts, the measurement of share-based payments, assessing the recoverable amount for investments in film production, and expected lives of long-lived assets. Actual results could differ from those estimates. Significant judgements are applied by management to determine whether sales have met the Company's revenue recognition criteria, the assessment of the Company's ability to continue as a going concern and the assessment of the probability of realizing deferring income tax assets based on the likelihood of generating taxable income in the future. Different judgement could yield different results.

## 1.11 Changes in Accounting Policies including Initial Adoption

#### Future Accounting Changes:

Certain new standards, interpretations and amendments to existing standards have been issued by the International Accounting Standards Board ("IASB") or the International Financial Reporting Interpretations Committee ("IFRIC") that are mandatory for the Company's fiscal year beginning June 1, 2018, or for later years. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below.

#### IFRS 15 Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15 – Revenue from Contracts with Customers ("IFRS 15") which supersedes IAS 11 – Construction Contracts, IAS 18 – Revenue, IFRIC 13 – Customer Loyalty Programmes, IFRIC 15 – Agreements for the Construction of Real Estate, IFRIC 18 – Transfers of Assets from Customers, and SIC 31 – Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a comprehensive five-step framework for the timing and measurement of revenue recognition.

#### IFRS 9 – Financial Instruments

The IASB intends to replace IAS 39 – Financial Instruments: Recognition and Measurement in its entirety with IFRS 9 – Financial Instruments ("IFRS 9") which is intended to reduce the complexity in the classification and measurement of financial instruments.

#### IFRS 2 Share-Based Payment

In June 2016, the Board issued the final amendments to IFRS 2 *Share-Based Payment* as follows:

- (a) Effects that vesting conditions have on the measurement of a cash-settled share-based payment;
- (b) Accounting for modification to the terms of a share-based payment that changes the classification of the transaction from cash-settled to equity settled;
- (c) Classification of share-based payment transactions with net settlement features.

#### IFRS 16 Leases

IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. However, lessees are no longer classifying leases as either operating leases or finance leases as it is required by IAS 17.

Management does not believe that the adoption of the above standards will have a material effect on the Company's consolidated financial statements.

#### 1.12 Financial Instruments and Other Instruments

All financial assets are initially recorded at fair value and classified into one of four categories: held to maturity, available for sale, loans and receivable or at fair value through profit or loss ("FVTPL"). All financial liabilities are initially recorded at fair value and classified as either FVTPL or other financial liabilities. Financial instruments comprise cash and cash equivalents, accounts receivable, accounts payable, and due to related parties. The Company has elected to account for transaction costs related to the issuance of financial instruments as a reduction of the carrying value of the related financial instruments.

At initial recognition management has classified financial assets and liabilities as follows:

### a) Financial assets

The Company has no assets other than cash classified as FVTPL at May 31, 2018. The Company has classified accounts receivable as loans and receivables. The Company has not classified any financial assets held to maturity or available for sale.

### b) Financial liabilities

The risk management function within the Company is carried out in respect of financial risks, operational risks and legal risks. Financial risk comprises market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The primary objectives of the financial risk management function are to establish risk limits, and then ensure that exposure to risks stays within these limits. The operational and legal risk management functions are intended to ensure proper functioning of internal policies and procedures, in order to minimize operational and legal risks.

#### Credit Risk

Financial instruments that potentially subject the Company to concentrations of accounts receivable. The Company manages its exposure to credit risk by only working with reputable companies and by performing on-going credit evaluations of its customers' financial condition and requires letters of credit or other guarantees whenever deemed appropriate. The maximum exposure to loss arising from accounts receivable is equal to their carrying amounts. The Company has not recorded any allowance against its accounts receivable.

### Liquidity Risk

The Company manages its ability to meet its short-term obligations through the capital management described in Note 12 to the consolidated financial statements. The Company has a working capital deficit and requires additional financing to fund operations.

#### Foreign Exchange Risk

As the Company generates a portion of its revenues in the U.K., and a portion is in the U.S. (movie sales), the Company's foreign exchange risk arises with respect to the U.K. pound sterling and U.S. dollar. Financial instruments that subject the Company to foreign currency exchange risk include cash and accounts receivable. Approximately 4% of the Company's revenues are denominated in the U.K. pound sterling (2017 - 7%), and 0% in U.S. dollars (2017 - 2%) while a significant amount of the Company's expenses are denominated in Canadian dollars. In management's opinion the Company is not exposed to significant foreign exchange rate risk.

#### **Interest Rate Risk**
