2. STATEMENT OF COMPLIANCE AND BASIS OF PRESENTATION (continued)**d) Significant Accounting Estimates and Judgments**

The preparation of these condensed financial statements requires management to make judgments in applying accounting policies. Judgments that have the most significant effect on the amounts recognized in the financial statements may include recovery of accounts receivable, inventory valuation, the estimated useful life of long-lived assets, assessment of long-term investment, estimates used in impairment assessments of long-lived assets, valuation of deferred income tax assets and liabilities and estimates used in calculating share-based compensation. Management also makes assumptions and critical estimates. Critical estimates are those which are most subject to uncertainty and have the most significant risk of resulting in a material change to the carrying amounts of assets and liabilities within the next year. Judgments, assumptions and estimates are based on historical experience, business trends and all available information that management considers relevant at the time of the preparation of the financial statements. However, future events and their effects cannot be anticipated with certainty and so as confirming events occur, actual results could ultimately differ from assumptions and estimates. Such differences could be material.

10. LONG-TERM DEBT (continued)

- (c) On December 31, 2007, the Company entered into a loan agreement pursuant to which the lender, a shareholder of the Company, provided a discounted loan to the Company valued at \$1,239,000 at maturity. Under the agreement, a notional principal amount of \$965,000 was assigned to the loan. In connection with the loan, the lender was entitled to a \$25,000 bonus which was deducted from the notional principal amount of \$965,000, resulting in net proceeds to the Company of \$940,000. The Company also issued 250,000 warrants to the lender, each warrant entitling the lender to purchase one common share of the Company at a price of \$0.65 per share for a period of two years expiring on December 31, 2009.

Net proceeds of \$896,040 and \$43,960 were allocated to the loan and warrants, respectively, based on their relative fair values on December 31, 2007. The Company incurred cash debt issue costs of \$14,435 which were recorded as a discount against the value allocated to the loan. The fair values of the warrants issued in connection with the loan were computed using the Black-Scholes option-pricing model.

On December 31, 2010, the Company entered into an amendment and loan extension agreement to the loan agreement dated December 31, 2007, pursuant to which the lender extended the maturity date to July 31, 2012 and reduced the loan amount to \$738,600 from \$1,239,000, provided that the Company repay the loan in the amount of \$619,000 on January 1, 2011 (paid). Pursuant to the amended loan agreement, the lender provides to the Company a new loan valued at maturity in the amount of \$738,600. A discounted value or loan advance amount of \$620,000 is calculated based on a 10% per annum interest rate, calculated semi-annually, with interest payable on maturity resulting in a total loan value at maturity of \$738,600. In consideration of the lender agreeing to amend and extend the loan, the lender will also earn a bonus of \$22,500 to be included in the loan amount. The term of the loan is nineteen months. The Company may repay the loan at any time without penalty by paying the discounted loan advance amount of \$620,000 together with accumulated interest.

On July 11, 2012, the Company agreed to a one-year extension and amendment to the loan agreement dated December 31, 2007. The extension is for one year, maturing on July 31, 2013 and bears interest at 10% per annum, calculated semi-annually. In consideration of the lender's agreement to amend and extend the loan, the lender will earn a bonus of \$24,374. The Company may repay the loan at any time without penalty by paying the outstanding loan amount together with accumulated interest and prorated bonus. The extension is guaranteed by Russell Brewing Company Ltd. and Fort Garry Brewing Company Ltd., both wholly-owned subsidiaries of the Company. As security for the loan, the Company will grant to the lender a subordinated security agreement creating a security interest and charge over all of their respective property and assets subordinate to senior debt and senior security of up to \$2.5 million plus finance lease obligations incurred for future acquisitions of equipment and other capital assets. On July 31, 2013, the Company repaid \$206,834 of the loan. The discounted value of the loan as at March 31, 2015 was \$288,109 (June 30, 2014 - \$444,121).

10. LONG-TERM DEBT (continued)

In consideration of the lender agreeing to amend and extend the loan, the lender will also earn a bonus of \$20,000 to be included in the loan amount. The loan amount of \$650,000 was amended and extended as follows: a 10% per annum interest rate, calculated semi-annually, repayable in monthly installments of \$17,500 plus bonus and interest, subject to a penalty of \$17,500 for each missed monthly installment payment, and maturing July 31, 2016. The loan is guaranteed by Russell Brewing Company Ltd. and Fort Garry Brewing Company Ltd., both wholly-owned subsidiaries of the Company. As further security for the loan, the Company and its Canadian subsidiaries will grant to the lender a subordinated security agreement creating a security interest and charge over all of their respective property and assets subordinate to senior debt and senior security of up to \$2.5 million plus finance lease obligations incurred for future acquisitions of equipment and other capital assets. The Company may repay the loan at any time without penalty by paying the discounted loan amount outstanding together with accrued interest and prorated bonus.

During the period ended March 31, 2015, the Company recorded interest expense of \$6,488 (2014 - \$10,071) related to the accretion of the discounted value of the loan, which has been recorded as interest on long-term debt in the consolidated statement of comprehensive income.

The principal amount of the loan is due and payable on the earlier of December 31, 2015 and the occurrence of an event of default as defined in the loan agreement. The Company's obligations under the loan agreement are guaranteed by the Guarantor and, in consideration for acting as guarantor, the Company has granted to the Guarantor 4,000,000 non-transferable warrants, each warrant entitling the Guarantor to purchase one common share of the Company at an exercise price of \$0.05 per share until December 31, 2015 (Note 13(c)). 18. FINANCIAL INSTRUMENTS, FAIR VALUE MEASUREMENTS AND FINANCIAL RISKS

(a) Fair Values of Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, restricted term deposits, bank indebtedness, accounts payable, and due to related parties are reasonable estimates of fair values due to the relatively short periods to maturity and the commercial terms of these instruments. The carrying values of long-term debt and finance lease obligations at March 31, 2015 are considered to be reasonable estimates of fair value based on current market rates for similar financial instruments.

(b) Fair Value Measurements

Certain of the Company's financial assets and liabilities are measured at fair value on a recurring basis and classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Certain non-financial assets and liabilities may also be measured at fair value on a non-recurring basis. There are three levels of the fair value hierarchy that prioritize the inputs to valuation techniques used to measure fair value, with Level 1 inputs having the highest priority. The levels and the valuation techniques used to value the Company's financial assets and liabilities are described below:

Level 1 - Quoted Prices in Active Markets for Identical Assets

Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Significant Other Observable Inputs

Quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Derivative instruments are included in Level 2 of the fair value hierarchy as they are valued using pricing models or discounted cash flow models. These models require a variety of inputs, including, but not limited to, contractual terms, market prices, forward price curves, yield curves, and credit spreads. These inputs are obtained from or corroborated with the market where possible.

(Unaudited; Expressed in Canadian Dollars)

18. FINANCIAL INSTRUMENTS, FAIR VALUE MEASUREMENTS AND FINANCIAL RISKS (continued)**(b) Fair Value Measurements (continued)**

Level 3 - Significant Unobservable Inputs

Unobservable (supported by little or no market activity) inputs.

Financial assets and liabilities measured at fair value on a recurring basis were presented on the Company's March 31, 2015 consolidated interim statement of financial position as follows:

Fair Value Measurements Using				
	Quoted Prices in Active Markets For Identical Instruments (Level 1) \$	Significant Other Observable Inputs (Level 2) \$	Significant Unobservable Inputs (Level 3) \$	Balance as of March 31, 2015 \$
Assets:				
Cash and cash equivalents	420,927	-	-	420,927
Restricted term deposits	100,000	-	-	100,000

(c) Financial Risks**(i) Credit Risk**

Credit risk arises from the non-performance by counterparties of contractual financial obligations. The Company maintains substantially all of its cash and cash equivalents and restricted term deposits with major financial institutions. Deposits held with these institutions may exceed the amount of insurance provided on such deposits. As at March 31, 2015, the Company has significant accounts receivable from one major customer totaling \$407,319 (June 30, 2014 - \$335,502). The Company manages credit risk for trade and other receivables through established credit monitoring activities. As at March 31, 2015, the Company's maximum exposure to credit risk is the carrying value of cash and cash equivalents, accounts receivable and restricted term deposits.

The Company's concentration of, and past due, accounts receivable are summarized as follows:

	March 31, 2015		June 30, 2014	
	Over 90 days	Total	Over 90 days	Total
Provincial Liquor Boards	\$ -	\$ 621,463	\$ -	\$ 741,080
Other Receivables	-	22,827	-	91,198
Total	\$ -	\$ 644,290	\$ -	\$ 833,078

The Company has a concentration of credit risk because a majority of its accounts receivable are from provincial liquor boards, under provincially regulated industry sale and payment terms. The Company is not exposed to significant credit risk as receivables are with government agencies. While substantially all of the Company's accounts receivable are from provincial government liquor authorities, the timing of receipts of large balances may vary significantly from period to period.

18. FINANCIAL INSTRUMENTS, FAIR VALUE MEASUREMENTS AND FINANCIAL RISKS (continued)**(c) Financial Risks (continued)****(ii) Liquidity Risk**

Liquidity risk arises from the Company's general and capital financing needs. The Company continuously monitors and reviews both actual and forecasted cash flows, and also matches the maturity profile of financial assets and liabilities, when feasible.

Contractual undiscounted cash flow requirements for financial liabilities as at March 31, 2015 are as follows:

	Less Than 1 Year \$	Years 2 and 3 \$	Years 4 and 5 \$	More Than 5 Years \$	Total \$
Accounts payable and accrued liabilities	501,200	–	–	–	501,200
Long-term debt [Note 10(e)]	57,750	731,000	–	–	788,750
Finance lease obligations (Note 11)	17,403	9,793	–	–	27,196
	576,353	740,793	–	–	1,317,146

As at March 31, 2015, the Company had a positive working capital of \$1,347,823.

(iii) Interest Rate Price Risk

Certain of the Company's long-term debt instruments and finance lease obligations are subject to interest rate price risk as they carry fixed rates of interest.

Certain of the Company's long-term debt instruments and bank indebtedness are subject to interest rate cash flow risk as they carry variable rates of interest. A plus or minus 1% change in market interest rates would not have a significant effect on the Company's income (loss) and comprehensive income (loss) for the year.

19. COMMITMENTS AND CONTINGENCIES

- (a) The Company's future minimum operating lease payments for premises, vehicles and office equipment for the next five years are as follows:

Fiscal Year	Amount
2015	\$ 125,854
2016	439,326
2017	331,478
2018	331,478
2019	331,316

There are no other externally imposed capital requirements.

The Company seeks to manage capital to provide adequate funding for its operations while minimizing dilution for its existing shareholders. The Company's principal source of funds is from the issuance of common shares and warrants.

	March 31, 2015	June 30, 2014
Long-term debt (Note 10)	\$ 645,088	\$ 852,070
