#### CRITICAL ACCOUNTING ESTIMATES

The preparation of these condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements, and the reported amounts of revenues and expenses for the reporting period. Significant areas requiring the use of management estimates may include recovery of accounts receivable, inventory valuation, the estimated useful life of long-lived assets, the recoverability of amounts recorded for long-lived assets, estimates used in impairment analysis of long-lived assets, contingent liabilities, valuation of deferred tax assets and liabilities and estimates used in calculating share-based compensation. By their nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of changes in such estimates in future periods could be significant. Actual results could differ from management's best estimates as additional information becomes available.

#### **Significant Estimates**

The accounting for accounts receivable, amount attributable to the stock option holders, valuation of share-based payments, valuation of deferred income tax assets and liabilities and deferred income tax rates requires that management makes estimates regarding valuation and collectability of accounts receivable. Actual results could differ from the estimates made.

#### **RISKS AND UNCERTAINTIES**

#### **Credit Risk**

In accordance with terms of the Fort Garry Sale and Russell Sale agreements, as at September 30, 2017 the Company received \$7,943,825 of the total purchase prices of \$9,602,798. The Company is exposed to credit risk on potential non-performance of the purchasers for payments of the remainder of the purchase prices.

#### **Risk of Indemnification Claims**

As part of the Fort Garry Sale and the Russell Sale that closed during the year ended June 30, 2017, the Company provided representations and warranties of the purchased assets to the purchasers. The Company is exposed to the risk of potential indemnification claims, which may have a significant effect on the Company's future income (loss) and comprehensive income (loss).

### RUSSELL BREWERIES INC.

### Management's Discussion and Analysis For the three months ended September 30, 2017

#### **FINANCIAL INSTRUMENTS**

#### (a) Fair Values of Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, restricted term deposits, accounts payable, and due to related parties are reasonable estimates of fair values due to the relatively short periods to maturity and the commercial terms of these instruments.

#### (b) Fair Value Measurements

Certain of the Company's financial assets and liabilities are measured at fair value on a recurring basis and classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Certain non-financial assets and liabilities may also be measured at fair value on a non-recurring basis. There are three levels of the fair value hierarchy that prioritize the inputs to valuation techniques used to measure fair value, with Level 1 inputs having the highest priority. The levels and the valuation techniques used to value the Company's financial assets and liabilities are described below:

#### Level 1 - Quoted Prices in Active Markets for Identical Assets

Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

#### Level 2 - Significant Other Observable Inputs

Quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 - Significant Unobservable Inputs

Unobservable (supported by little or no market activity) inputs.

Financial assets and liabilities measured at fair value on a recurring basis were presented on the Company's September 30, 2017 condensed consolidated interim statement of financial position as follows:

	Fair Value Measurements Using					
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2) \$	Significant Unobservable Inputs (Level 3) \$	Balance as of September 30, 2017 \$
