

Tevano Deploys Multiple Health Shield Devices with Surrey Honda

Vancouver, British Columbia--(Newsfile Corp. - May 14, 2021) - Tevano Systems Holdings Inc. (CSE: TEVO) (FSE: 7RB) ("Tevano", or the "Company"), announced today that it has completed the deployment of multiple Health Shield devices at [Surrey Honda](#), the largest volume Honda dealer in British Columbia for retail sales.

Surrey Honda has been in operation for more than 20 years and employs over 65 people.

"Our priorities are to make sure our staff and customers are safe and secure when at our premises," said Tim Van Dyke, Sales Manager, Surrey Honda. "Having Health Shield at our entrances gives people reassurance, letting them know that they're coming into a safe environment. This is the new normal for our business, and because of that, Health Shield will be in place here forever. We aren't about to let our guard down."

See how Surrey Honda deployed Health Shield devices [here](#).

Health Shield devices have been installed at multiple entrance points used by significant numbers of customers and staff. Using thermal imaging, the Health Shield device can carry out split second temperature sensing of visitors with near perfect accuracy. AI-powered facial detection ensures face mask compliance and alerting options -- including SMS, localized alarms, detailed on screen messaging and turnstyle lockdown -- can be customized by operators to ensure specific safety protocols are met and backed up by recorded data.

"Surrey Honda is another great example of a company that has taken a strong, proactive role in protecting its teams and customers and the long term sustainability of its operations through the integration of our Health Shield technology," said David Bajwa, Tevano CEO. "Although deploying health monitoring devices at entrances is straightforward, it can be the difference between maintaining a thriving business and being faced with a forced closure, which is the nightmare scenario."

A recently announced [public health order](#), which took effect in early April, permits inspectors to expedite closures of workplaces where three or more employees have tested positive for COVID-19, and transmissions have been confirmed at the workplace. Owing to this, the stakes for businesses in doing everything they can to ensure safe workplaces, are increasingly high.

About Tevano

Tevano is the developer of cutting-edge electronics products that provide innovative solutions to business and consumer challenges.

It is the creator of Health Shield™, an innovative AI-driven electronic device that provides instant body temperature scanning and notifies users if they need to wear a face mask. Health Shield™ devices can be placed at all entrances that patrons and/or employees use to gain access to buildings. The Health Shield™ device is supported by a cloud software solution that can be used to manage multiple devices and provide detailed reporting and analysis.

Tevano benefits from an equity-based relationship with kiosk and screen-based technology leader, Nevatronix. Management believes the relationship provides Tevano with access to highly robust supply chains and gives the company a unique capacity to react to and service evolving commercial markets for innovative screen-based technologies.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION: This news release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. These statements relate to future events or future performance. All statements other than statements of historical fact may be forward-looking statements or information. More particularly and without limitation, this news release contains forward-looking statements and matters. The forward-looking statements and information are based on certain key expectations and assumptions made by management of the Company. Although management of the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information since no assurance can be given that they will prove to be correct.

Forward-looking statements and information are provided for the purpose of providing information about the current expectations and plans of management of the Company relating to the future. Readers are cautioned that reliance on such statements and information may not be appropriate for other purposes, such as making investment decisions. Since forward-looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, the Company's ability to raise further capital and the Company's ability to obtain regulatory and exchange approvals. Accordingly, readers should not place undue reliance on the forward-looking statements and information contained in this news release. Readers are cautioned that the foregoing list of factors is not exhaustive. The forward-looking statements and information contained in this news release are made as of the date hereof and no undertaking is given to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws. The forward-looking statements or information contained in this news release are expressly qualified by this cautionary statement.
