

## **Tevano Announces Availability of BSDCan presentation with Antranik Wartanian, CEO of Tevano Subsidiary Illuria, Inc.**

Vancouver, British Columbia--(Newsfile Corp. - June 8, 2022) - Tevano Systems Holdings Inc. (CSE: TEVO) (FSE: 7RB) (OTC Pink: TEVNF) ("Tevano", or the "Company") is pleased to announce its wholly owned subsidiary Illuria Security, Inc.'s. ("Illuria") CEO, Antranik Wartanian, was invited to be a speaker at the 18th annual BSDCan Conference.

BSDCan, a BSD conference held in Ottawa, Canada, quickly established itself as the technical conference for people working on and with 4.4BSD based operating systems and related projects. This year the conference was held online.

Mr. Wartanian spoke to the audience of BSD users, operators and developers about FreeBSD from a vendor's perspective.

Mr Wartanian comments, "We have been using FreeBSD and its unique features in our product with many sleepless nights and tears of joy. Being a FreeBSD vendor requires a high degree of knowledge about the internals of FreeBSD, its culture, and its conventions. That's why we want to share our experiences, knowledge, and concerns to help others follow the paths we have taken and avoid the rougher ones, with the goal that your company will someday be proudly listed as a FreeBSD Vendor."

Mr. Wartanian, along with illuria's senior engineer Faraz Vahedi, go over the basics of building, releasing, updating and upgrading FreeBSD. They also demonstrate how developers can upstream their innovations and distribute product images to customers in a commercial cloud service environment.

The presentation is available on Tevano's website at <https://videos.tevano.com/bsdcan2022.mp4>

### About BSDCan

BSDCan, a BSD conference held in Ottawa, Canada, quickly established itself as the technical conference for people working on and with 4.4BSD based operating systems and related projects. The organizers have found a fantastic formula that appeals to a wide range of people from extreme novices to advanced developers. This year the conference was held online.

### About Tevano

Tevano Systems Holding Inc., through its operating subsidiaries, is a technology company with custom and proprietary hardware and software technologies. Its subsidiary, Illuria Security, Inc. is an early-stage software development company whose technology involves active cyber deception to protect critical network systems of enterprise systems of all sizes. Using deception technology, Illuria's software seeks to solve the challenge of cyber-attacks by detecting threats, systematically deceiving attackers, and actively deterring attacks. Its subsidiary Tevano Systems Inc. is the developer of Health Shield™, an AI-driven, electronic tablet that video displays a user with their body temperature and other information. It provides detailed reports of all scans done throughout an enterprise.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION:** This news release contains forward looking statements and forward looking information within the meaning of applicable securities laws. These statements relate to future events or future performance. All statements other than statements of historical fact may be forward looking statements or information. More particularly and without limitation, this news release contains forward looking statements and matters. The forward looking statements and information are based on certain key expectations and assumptions made by management of the Company. Although management of the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward looking statements and information since no assurance can be given that they will prove to be correct. Forward-looking statements and information are provided for the purpose of providing information about the current expectations and plans of management of the Company relating to the future. Readers are cautioned that reliance on such statements and information may not be appropriate for other purposes, such as making investment decisions. Since forward looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to several factors and risks. These include, but are not limited to, the Company's ability to raise further capital, the success of the Company's software and product initiatives and the Company's ability to obtain regulatory and exchange approvals. Accordingly, readers should not place undue reliance on the forward looking statements and information contained in this news release. Readers are cautioned that the foregoing list of factors is not exhaustive. The forward looking statements and information contained in this news release are made as of the date hereof and no undertaking is given to update publicly or revise any forward looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws. The forward-looking statements or information contained in this news release are expressly qualified by this cautionary statement. Neither the CSE nor the Investment Industry Regulatory Organization of Canada accepts responsibility for the adequacy or accuracy of this release.
