

Tevano's Wholly-Owned Subsidiary illuria Security, Inc. Deploys ProfilerX v1.0 with Beta Enterprise Customer in the Gaming and Betting Industry

Vancouver, British Columbia--(Newsfile Corp. - June 29, 2022) - Tevano Systems Holdings Inc. (CSE: TEVO) (FSE: 7RB) (OTC Pink: TEVNF) ("Tevano", or the "Company") wholly owned subsidiary Illuria Security, Inc. ("illuria") announces that it has successfully deployed the ProfilerX v1.0 platform to its initial beta enterprise customer in the betting and gaming industry in Europe to help defend against advanced and internal threats for a 3 month trial period. A non-disclosure agreement was entered into by the parties on June 1, 2022.

illuria's ProfilerX platform utilizes "decoys & lures" to break the attacker's decision cycle, forcing them to reveal themselves by accurately detecting, systematically deceiving, and actively deterring their attacks.

"We are excited to announce the deployment of ProfilerX v1.0 platform to our initial enterprise customer in the betting and gaming industry. The selection of our solution followed a series of very intensive competitive testing and evaluation" stated Zareh Petrossian, Co-Founder, CTO at illuria. "On behalf of illuria, I wish to thank our growing list of global channel partners who continue to leverage their local expertise and well-established customer networks to introduce illuria into the betting and gaming market, and look forward to further building upon the significant momentum we are seeing for our ProfilerX v1.0 solution." stated Antranik Wartanian, Co-Founder, CEO at illuria.

illuria's success in deploying its technology to its initial customer in the betting and gaming industry shows how the technology can easily be acquired by an enterprise network without disruption and complexity. ProfilerX's capabilities and features enable the enterprise customer to deploy decoys and lures, accurately detect and respond to attackers immediately at scale.

Leveraging illuria's integrations for automation and visibility, ProfilerX was integrated with the existing third-party solutions seamlessly to increase time to detection and accelerate incident response.

Illuria's team is working closely with partners in the gaming and betting industry to keep enhancing its offerings and providing the value and tools necessary to tackle current and future information security challenges in this space.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION: This news release contains forward looking statements and forward looking information within the meaning of applicable securities laws. These statements relate to future events or future performance. All statements other than statements of historical fact may be forward looking statements or information. More particularly and without limitation, this news release contains forward looking statements and matters. The forward looking statements and information are based on certain key expectations and assumptions made by management of the Company. Although management of the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward looking statements and information since no assurance can be given that they will prove to be correct. Forward-looking statements and information are provided for the purpose of providing information about the current expectations and plans of management of the Company relating to the future. Readers are cautioned that reliance on such statements and information may not be appropriate for other purposes, such as making investment decisions. Since forward looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to several factors and risks. These include, but are not limited to, the Company's ability to raise further capital, the success of the Company's software and product initiatives and the Company's ability to obtain regulatory and exchange approvals. Accordingly, readers should not place undue reliance on the forward looking statements and information contained in this news release. Readers are cautioned that the foregoing list of factors is not exhaustive. The forward looking statements and information contained in this news release are made as of the date hereof and no undertaking is given to update publicly or revise any forward looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws. The forward-looking statements or information contained in this news release are expressly qualified by this cautionary statement. Neither the CSE nor the Investment Industry Regulatory Organization of Canada accepts responsibility for the adequacy or accuracy of this release.
