1. NATURE OF OPERATIONS

The Company was incorporated under the Canada Business Corporations Act on April 26, 2002 and is engaged in venture capital activities. The Company intends to identify and evaluate opportunities for the acquisition of an interest in properties, assets or businesses, and once identified and evaluated, to negotiate an acquisition thereof, merger with or participation therein.

There is no assurance that the Company will identify a business or asset that warrants acquisition or participation or once identified, conclude a merger or acquisition transaction. Furthermore, the Company has limited working capital to pursue such opportunities. The ability of the Company to continue as a going concern is dependant upon, among other things, being able to obtain adequate financing, and maintaining positive operating cash flows. Additionally, if the Company requires additional cash resources to fund current operations, there is no assurance that it will be able to obtain these required cash resources. However, management has assessed the Company's ability to continue as a going concern and determined that the Company will continue for the foreseeable future subject to the material uncertainties listed above. Therefore, the financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern.
