**Notes to the Interim Condensed Consolidated Financial Statements
(Unaudited, in United States Dollars, except share amounts)**

1. Nature of operations

Planet 13 Holdings Inc. (“**Planet 13**” or the “**Company**”) was incorporated under the Canada Business Corporations Act on April 26, 2002 and continued under the British Columbia Business Corporations Act on September 24, 2019.

The Company is a vertically integrated cultivator and provider of cannabis and cannabis-infused products that is licensed under the laws of the States of Nevada, California, and Florida with a license lottery win-result in Illinois. The Company is licensed in these jurisdictions as follows: six Nevada licenses for cultivation (three medical and three adult-use), six Nevada licenses for production (three medical and three adult-use), three Nevada dispensary licenses (one medical and two adult-use), two Nevada licenses for distribution (one active, one conditional), one adult-use dispensary license in California, one distribution license in California, one Medical Marijuana Treatment Center license in Florida (unlimited medical dispensaries, cultivation and processing) and one lottery win for an adult-use dispensary license in Illinois. As of March 2, 2022, by way of acquisition and in addition to the licenses listed above, the Company added three California cultivation licenses (one medical and two adult-use), one California cultivation nursery license, one California distribution license, one California license for adult-use manufacture, and one pending California license for adult-use cultivation processing. On July 12, 2022, the California Department of Cannabis Control approved the Company’s cultivation processing license.

Planet 13 is a public company which is listed on the Canadian Securities Exchange (“**CSE**”) under the symbol PLTH and on the OTCQX exchange under the symbol “**PLNHF**”.

The Company’s registered office is located at 595 Howe Street, 10th Floor, Vancouver, BC V6C 2T5 and the head office address is 2548 W. Desert Inn Road, Las Vegas, NV 89109.

While cannabis and CBD-infused products are legal under the laws of several U.S. states (with varying restrictions applicable), the United States Federal Controlled Substances Act classifies all “marijuana” as a Schedule I drug, whether for medical or recreational use. Under U.S. federal law, a Schedule I drug or substance has a high potential for abuse, no accepted medical use in the United States, and a lack of safety for use under medical supervision.

The federal government currently is prohibited from prosecuting businesses that operate in compliance with applicable state and local medical cannabis laws and regulations; however, this does not protect adult use cannabis. In addition, if the federal government changes this position, it would be financially detrimental to the Company.

2. Basis of presentation

These unaudited interim condensed consolidated financial statements are presented in U.S. dollars, which is also the Company's and its subsidiaries' functional currency.

These consolidated financial statements were authorized for issuance by the Board of Directors of the Company on August 15, 2022.

ii) Functional currency

The Company's functional currency is the United States dollar ("USD"), and management has chosen to present these unaudited interim condensed consolidated financial statements in USD. The functional currency of the Company's subsidiaries is USD. All amounts are presented in USD values unless otherwise stated.

Canadian currency transactions are translated into USD at exchange rates in effect on the date of the transaction. Monetary assets and liabilities denominated in Canadian dollars ("CAD") are translated to USD at the foreign exchange rate applicable at the end of each reporting period.

Realized and unrealized foreign exchange gains and losses are recognized in the unaudited interim condensed consolidated statements of operations and comprehensive loss. Non-monetary assets and liabilities that are measured in terms of historical cost in CAD are translated using the exchange rate at the date of the transaction.

iii) Emerging growth company

The Company is an "Emerging Growth Company", as defined in Section 2(a) of the Securities Act of 1933, as amended (the "**Securities Act**"), as modified by the Jumpstart Our Business Startups Act of 2012 (the "**JOBS Act**"), and it has taken advantage of certain exemptions that are not applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not has a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial reporting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public and private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

iv) Business Combinations and Goodwill

The Company accounts for business combinations using the acquisition method in accordance with ASC 805, Business Combinations, which requires recognition of assets acquired and liabilities assumed, including contingent assets and liabilities, at their respective fair values on the date of acquisition. Any excess of the purchase consideration over the net fair value of tangible and identified intangible assets acquired less liabilities assumed is recorded as goodwill. The costs of business acquisitions, including fees for accounting, legal, professional consulting and valuation specialists, are expensed as incurred within general and administrative expenses. Purchase price allocations may be preliminary and, during the measurement period not to exceed one year from the date of acquisition, changes in assumptions and estimates that result in adjustments to the fair value of assets acquired and liabilities assumed are recorded in the period the adjustments are determined.

The estimated fair value of acquired assets and assumed liabilities are determined primarily using a discounted cash flow approach, with estimated cash flows discounted at a rate that the Company believes a market participant would determine to be commensurate with the inherent risks associated with the asset and related estimated cash flow streams.

The Company complies with ASC 820, Fair Value Measurement, for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually. Financial instruments recorded at fair value in the consolidated balance sheet are classified using a fair value hierarchy that reflects the observability of significant inputs used in making the measurements. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

The following tables present information about the Company's assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2022, and December 31, 2021:

16. Commitments and contingencies

(a) Construction Commitments

The Company had \$3,078,982 of outstanding construction commitments as of June 30, 2022.

(b) Contingencies

The Company's operations are subject to a variety of local and state regulations. Failure to comply with one or more of those regulations could result in fines, restrictions on its operations, or losses of permits that could result in the Company ceasing operations. While management of the Company believes that the Company is in compliance with applicable local and state regulations at June 30, 2022, medical and adult use cannabis regulations continue to evolve and are subject to differing interpretations. As a result, the Company may be subject to regulatory fines, penalties, or restrictions in the future.

(c) Claims and Litigation

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. At June 30, 2022, and December 31, 2021, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations. There are also no proceedings in which any of the Company's directors, officers or affiliates is an adverse party or has a material interest adverse to the Company's interest.

(d) Operating Licenses

Although the possession, cultivation, and distribution of marijuana for medical and adult use is permitted in Nevada and California, marijuana is a Schedule-I controlled substance and its use remains a violation of federal law. Since federal law criminalizing the use of marijuana pre-empts state laws that legalize its use, strict enforcement of federal law regarding marijuana would likely result in the Company's inability to proceed with our business plans. In addition, the Company's assets, including real property, cash, equipment, and other goods, could be subject to asset forfeiture because marijuana is still federally illegal.

17. Risks

Credit risk

Credit risk is the risk that a third party might fail to discharge its obligations under the terms of a financial instrument. Credit risk arises from cash with banks and financial institutions. It is management's opinion that the Company is not exposed to significant credit risk arising from these financial instruments. The Company limits credit risk by entering into business arrangements with high credit-quality counterparties.

PLANET 13 HOLDINGS INC.**Notes to the Interim Condensed Consolidated Financial Statements
(Unaudited, in United States Dollars, except share amounts)**

The Company evaluates the collectability of its accounts receivable and maintains an allowance for credit losses at an amount sufficient to absorb losses inherent in the existing accounts receivable portfolio as of the reporting dates based on the estimate of expected net credit losses.

Concentration risk

The Company operates exclusively in Southern Nevada and Southern California. Should economic conditions deteriorate within that region, its results of operations and financial position would be negatively impacted.

Banking risk

Notwithstanding that a majority of states have legalized medical marijuana, there has been no change in US federal banking laws related to the deposit and holding of funds derived from activities related to the marijuana industry. Given that US federal law provides that the production and possession of cannabis is illegal, there is a strong argument that banks cannot accept or deposit funds from businesses involved with the marijuana industry. Consequently, businesses involved in the marijuana industry often have difficulty accessing the US banking system and traditional financing sources. The inability to open bank accounts with certain institutions may make it difficult to operate the business of the Company and leave the Company's cash holdings vulnerable.

Asset forfeiture risk

Because the cannabis industry remains illegal under US federal law, any property owned by participants in the cannabis industry which are either used in the course of conducting such business, or are the proceeds of such business, could be subject to seizure by law enforcement and subsequent civil asset forfeiture. Even if the owner of the property was never charged with a crime, the property in question could still be seized and subject to an administrative proceeding by which with minimal due process, it could be subject to forfeiture.

Currency rate risk

As at June 30, 2022, a portion of the Company's financial assets and liabilities held in Canadian dollars consist of cash and cash equivalents of \$ 166,642 (2021 - \$2,568,692). The Company's objective in managing its foreign currency risk is to minimize its net exposure to foreign currency cash flows by transacting, to the greatest extent possible, with third parties in the functional currency. The Company is exposed to currency rate risk in other comprehensive income, relating to foreign subsidiaries which operate in a foreign currency. The Company does not currently use foreign exchange contracts to hedge its exposure of its foreign currency cash flows as management has determined that this risk is not significant at this point in time.

18. Disaggregated Revenue

The following table presents the Company's disaggregated revenue by sales channel:

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. The outbreak of this contagious disease and its subsequent variants, along with the related adverse public health developments, have negatively affected workforces, economies, and financial markets on a global scale. Currently, the Company is closely monitoring the impact of the pandemic on all aspects of its business and it is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or results of operations.

20. Next Green Wave Acquisition

On March 2, 2022 (the "Closing Date"), the Company completed a business combination acquisition of NGW. The Company entered into an arrangement agreement (the "Arrangement Agreement") with NGW on December 20, 2021 pursuant to which Planet 13 agreed to acquire (the "Arrangement") all of the issued and outstanding common shares of NGW (the "NGW Shares") pursuant to a plan of arrangement (the "Plan of Arrangement") under the Business Corporations Act (British Columbia). The Arrangement was approved by the holders of NGW Shares (the "NGW Shareholders") at a special meeting of NGW Shareholders held on February 25, 2022 and approved by the Supreme Court of British Columbia on March 1, 2022.

Pursuant to the Plan of Arrangement, on March 2, 2022, the Company acquired all of the NGW Shares for a total consideration of 21,361,002 common shares of the Company and NGW then amalgamated with Planet 13. The NGW Shareholders received 0.1145 of one Planet 13 Share (the "Exchange Ratio") and a nominal cash payment of C\$0.0001 for each NGW Share held immediately prior to the Effective Time. As a result, 21,361,002 Planet 13 Shares and \$15,205 in cash were issued in exchange for the NGW Shares. In addition, the number of Planet 13 Shares issued to any person pursuant to the Arrangement was rounded down to the nearest whole Planet 13 Share, with a cash consideration paid in lieu of the issuance of such fractional Planet 13 Share of C\$3.379 per share.

Based upon the Exchange Ratio, all NGW options to acquire NGW Shares that were outstanding immediately prior to the Effective Time were also exchanged for Planet 13 options that will entitle the holders to receive, upon exercise thereof, Planet 13 Shares. As a result, the Company issued 1,106,925 options in exchange for the NGW options.

The NGW acquisition was accounted for as a stock purchase acquisition as NGW was deemed to be a business under ASC 805 Business Combinations and the Company is in the process of obtaining a third-party purchase price allocation analysis related to this acquisition. In the interim, the following table summarizes the initial allocation of consideration exchanged to the estimated fair value of identifiable intangible assets acquired assumed:

The NGW cannabis licenses acquired have an indefinite life and as such will not be subject to amortization. The ultimate amount of goodwill and other intangible assets resulting from the third-party purchase price allocation analysis will be assessed for impairment on at least an annual basis. The Company does not expect that any of the goodwill of other identified intangible assets will be deductible for tax purposes.
