

Audited Financial Statements: March 31, 2022 Results

-FOR IMMEDIATE RELEASE-

Montréal, September 29, 2022 – St-Georges Eco-Mining Corp. (CSE: SX) (OTCQB: SXOOF) (FSE: 85G1) would like to inform its shareholders that it has posted its Audited Financials Statements for the 15-month period ended March 31, 2022, and the prior year ended December 31, 2020, and the corresponding Management Discussion & Analysis on SEDAR.

St-Georges is also providing an update to its previously disclosed Management Cease Trade Order (“**MCTO**”), initially announced on August 3, 2022, in respect of the interim Financial Statements and corresponding Management’s Discussion and Analysis for the period ended June 30, 2022, including the related Chief Executive Officer and Chief Financial Officer certifications (collectively, the “**Financial Documents**”) that were not filed by the filing deadline of August 29, 2022.

The Corporation has applied to the applicable securities regulatory authorities and received a Management Cease Trade Order (“**MCTO**”) imposed against the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO) of the Corporation, precluding them from trading securities of the Corporation. The MCTO will be in effect until all the Financial Documents are filed.

St-Georges management aims to release the Interim Financial Documents pertaining to the 1st Quarter of its 2022 financial year, covering the period of April 1, 2022, to June 30, 2022, within the next five days.

The consolidated financial statements comprise the accounts of the Company and its controlled subsidiaries. All intercompany transactions, balances, and unrealized gains and losses from intercompany transactions are eliminated on consolidation. ZeU Technologies, Inc. (“ZeU”) is consolidated due to the fact that common directors of St-Georges control the operations of ZeU.

On April 13, 2022, the Company announced that its board of directors voted unanimously to authorize its subsidiary, EVSX Corp. (“EVSX”), to move forward with its plan to recycle batteries and produce nickel ingots in Baie-Comeau, Québec, in 2022. Company management visited land identified in Baie-Comeau’s new industrial and innovation park and conducted meetings with city representatives. This visit resulted in an offer to acquire three (3) contiguous lots, totaling approximately 50,000 square meters. The offer was accepted, and a contract was executed. The Company will pay a total of \$400,000 (\$100,001 was paid at closing in May 2022, with the balance of \$300,000 to be paid within 730 days) and will have to start construction of the installations which will host Phase II of the industrial battery operations deployment within 24 months. The facility is in a zone allowing the Company to qualify for a complete suite of governmental advantages and incentives.

EVSX also made a formal offer to buy a building to host its Phase I deployment. EVSX closed the acquisition with \$258,694 in July 2022 and started generating revenues in July 2022 from the commercial rent in the building.

In July 2022, EVSX commissioned and disbursed the initial payment for manufacturing three identical battery processing industrial units. These units will be in three separate locations; one is to be in Baie-Comeau, QC, and the remaining two locations are in discussions.
