

## ROCA's MAX Molybdenum Mill Restarts

### TSX.V: ROK

VANCOUVER, July 27, 2011 /CNW/ - Roca Mines Inc. (TSXV: **ROK**) ("Roca" or "the Company") announces that its mill and concentrator has today successfully recommenced operations at the MAX molybdenum mine, 60 kilometres southeast of Revelstoke, British Columbia.

The MAX mill is initially processing surface stockpiled material and will do so at a reduced production rate until the mine commences full production from underground. The Company's underground contractors continue to complete a by-pass on the main access ramp and drilling of a new stope on the 725 metre level.
