Fiscal Year 2019 Business Highlights

- **Operations:** GTI successfully executed against its 'Enter, Open, Scale' strategy to distribute brands at scale through a combination of organic growth in its consumer products and retail business segments and strategic mergers and acquisitions.
 - **Enter:** During fiscal year 2019, the Company entered four new markets, California, Colorado, Connecticut and New York with four cultivation and processing facilities and 20 retail licenses (eight of which are operating) via the closing of the acquisitions of Integral Associates, For Success Holdings, MC Brands, Advanced Grow Labs, and Fiorello Pharmaceuticals. In addition, GTI was awarded a cultivation license and processing license in Ohio, three retail licenses in California, and a cultivation license in Maryland.
 - **Open:** The Company opened 20 stores nationwide and ended the year with 39 retail locations, delivering on its target guidance of 35-40 stores.
 - **Scale:** GTI made significant investments to further scale the distribution of its branded products including expanding capacity, standardization and automation initiatives across Illinois, Massachusetts and Pennsylvania. In Nevada, the Company scaled brand distribution by adding two cultivation and manufacturing facilities and 12 retail stores through the acquisition of Integral Associates. The Company also broadened its brand portfolio to include Beboe (marking its entry into the CBD and beauty market) and incredibles (a portfolio of chocolate and gummy THC and CBD infused edibles).

- **Community Impact:** In August GTI launched its License Education Application Program (LEAP) in Illinois to help reduce the barriers to cannabis business ownership for minorities and others most affected by the war on drugs. Since launch, this pro-bono program has counseled hundreds of applicants in the Illinois dispensary applications process. GTI continues to assist Illinois craft grower, infuser and transporter license

applicants. Once winners are announced, GTI will shift from application assistance to an incubator program for a limited number of social equity entrepreneurs.

COVID-19 Update

Subsequent to the fourth quarter, GTI activated an executive Response Team to address the challenges presented by COVID-19 and continues to operate its stores and facilities, which have been deemed essential businesses in states that have directed non-essential businesses to close.

Management Commentary

“2019 was an exceptional year for Green Thumb and we’re proud to be doing what we say we’re going to do. Our strategy to distribute brands at scale while being laser-focused on profitability delivered \$216 million in annual revenue, 20 new store openings, positive operating EBITDA and a solid balance sheet to support our growth initiatives in 2020. We will continue to be guided by our disciplined approach to capital allocation and focus on the bottom line and, of course, the rapidly evolving situation with respect to COVID-19,” said GTI Founder and Chief Executive Officer Ben Kovler.

“The significant investments we made to scale our key markets during the second half of 2019 set us up to win. In January 2020, we successfully launched adult-use sales in Illinois against the backdrop of challenging demand and supply dynamics,” Kovler continued. “We currently operate six stores that offer adult-use sales in Illinois, two of which are the only adult-use only stores in the state. Illinois is a model for what’s to come in states like Pennsylvania, New Jersey and Connecticut where we also have a strong position and are actively scaling. Also, I’m pleased to report that we began reporting with the SEC as a U.S. domestic issuer effective last month and will prepare our consolidated financial statements under GAAP. This is a positive step that aligns with our business operations and commitment to providing our shareholders with increased transparency and comfort through our reporting. Finally, I’m proud of our team for all of their hard work and look forward to the many opportunities that lie ahead.”
