Management Commentary

“The continued increase in revenues combined with substantial decreases in losses year-over-year demonstrate that Captor is heading in the right direction as we continue with a cautionary growth strategy and a keen focus on maximizing revenues from its current operations,” said Captor Capital CEO, John Zorbas. “With a major new retail presence on the horizon due to the upcoming opening of further locations, we can expect these numbers to continue to head in the right direction in 2021.”
