King Acquires Trio of Gold Projects in Newfoundland

Toronto, Ontario – December 10, 2020- (TSXV: KING; Frankfurt:5LM1) **King Global Ventures Inc.** (“King” or the “Company”) reports that it is actively seeking Exchange Approval of its transaction to acquire three strategic gold exploration properties with high-grade indications, in the province of Newfoundland and Labrador, as previously reported on October 21, 2020.

They are the Gold Boulder Property, The Golden Nugget Property and the Miss Pickle Property

The Gold Boulder Prospect consists of four contiguous claim blocks (100 ha) and is located near the small town of Glenwood in Central Newfoundland. Geologically the property is underlain by siliciclastic sediments of the Davidsville Group which is the same geological belt which hosts New Found Gold’s (NFG-TSX) recent high-grade gold intercept of 92.84 g/t over 19 meters at the Queensway project. The entire prospect is bound on all sides by New Found Gold Corp.

Located only nine kilometers away from this historical intercept, the property is also host to high grade gold values, up to 160 g/t gold from as yet unsourced gold boulders. Additionally, it has widespread untrenched gold and arsenic soil anomalies with gold values in soils up to 1781 ppb.

John Cook stated: “Given its proximity to the Queensway project and its very similar geology, the property has the potential to host similar gold occurrences. The high-grade nature of the gold boulders and the significant soil anomalies of this prospect, gives King Global Ventures Inc. a serious foothold in this new emerging gold district.”

To complement this acquisition King Global also acquired two additional gold exploration properties adjacent to the Davidsville group.

The Golden Nugget Property is a gold exploration property that lies just to the north of the Davidsville group. Golden Nugget derives its name from gold nuggets discovered by the vendors in beach sand sediments while prospecting the property.

The property consists of a 10-kilometer-long contiguous land package (1850 ha.) also of siliciclastic sediments within beds of conglomerates and mafic materials. High grade gold occurs in all rock groups with channel samples having returned values of 50.2 g/t gold over 1.10 m, 87g/t over 0.8 m and 29.2 g/t over 2.5 m. These high-grade channels are contained within extensive areas of lower to medium grade gold values along the entire length of this 10-kilometer structural corridor and the potential of this property is quickly realized.

The Miss Pickle Property (950 ha), is also north of the Davidsville Group and lies in another parallel structure to the Golden Nugget Property known as the Coaker Trend. Geologically it is somewhat unique in that gold mineralization is somewhat restricted, but not exclusively, to Quartz

Feldspar Porphyry intrusives. Grab samples to the west of the property in very similar, if not identical intrusive bodies, have returned values of up to 360 g/t gold. On the property itself grab samples in these intrusive range from 0.2 to 18 g/t gold.

Acquisition Terms subject to Exchange acceptance:

Gold Boulder: Cash of \$15,000 and 2,000,000 units of King and \$25,000 initial year exploration commitment. Each Unit is comprised of one common share and one 12 month warrant exercisable at \$0.10. The vendors retain a 2% NSR of which 1% can be acquired for \$1,000,000. Advance royalties of \$15,000 commence on third anniversary of signing of agreement.

Golden Nugget: Cash of \$35,000 on signing plus 2,000,000 units of King; \$100,000 initial year exploration commitment and \$50,000 in years 2 thru 5.. Each unit is comprised of one common share and one 12 month warrant exercisable at \$0.10. For years 1 to 3 aggregate cash payments of \$215,000 and 9,000,000 shares. The vendors retain a 2% NSR of which 1% can be acquired for \$1,000,000. Advance royalties of \$25,000 commence on fifth anniversary of signing of agreement.

Miss Pickle: Cash of \$50,000 on signing plus 3,000,000 units of King; \$100,000 initial year exploration commitment and \$50,000 in years 2 thru 5. Each unit is comprised of one common share and one 18 month warrant exercisable at \$0.10. For years 1 to 3 aggregate cash payments of \$200,000 and 8,000,000 shares. The vendors retain a 2% NSR of which 1% can be acquired for \$1,000,000. Advance royalties of \$25,000 commence on fifth anniversary of signing of agreement.

For all properties, the vendors will have the first option to do all work on the property; if the property is returned to the vendors, it is to be in good standing for 12 months respecting government assessment requirements; and, all staking fees will be reimbursed to the Vendors.

About King Global Ventures Inc.

King's, Nicaragua Gold/Copper Project is joint-ventured with TSX listed Calibre Mining Corp. (TSX-CXB) and with Century Mining Limited, a private Nicaraguan company, to advance the development of the Santa Rita Project. In addition, King holds the Marilyn 3 property in NL and the 77 claim York gold property which is on trend between Azimut's Elmer property (and its recent Patwon prospect discovery) and the Eleonor gold mine.
