King Global Announces Exploration Update on Silver Cord Property in Yavapai County, Arizona

Toronto, Ontario – July 29, 2024 – King Global Ventures Inc. (CSE: KING) (OTC: KGLDF) (FSE: 5LM1) (the "Company") is pleased to provide an exploration update on its Silver Cord Property, located in Yavapai County, Arizona.

Fieldwork has commenced in preparation for a Q3 drilling program, marking a significant step forward in the exploration of the Silver Cord Property. The field work currently underway includes:

Surveying of Old Workings: A comprehensive survey of historical workings is being conducted to gain insights into previous exploration efforts and to identify potential drill targets.

Planning of Access Roads: Detailed planning and design of access roads are in progress to facilitate the surface drilling program. This will ensure safe and efficient transportation of equipment and personnel to the drilling sites.

Collection of Environmental Baseline Data: In advance of drilling operations, King Global Ventures is gathering detailed environmental baseline data. This critical step ensures compliance with environmental regulations and helps minimize the impact of exploration activities on the local ecosystem.

Robert Dzisiak, CEO of King Global Ventures, commented, "We are excited to initiate fieldwork on the Silver Cord Property and advance our exploration efforts in anticipation of a Q3 drill program. The survey of old workings and planning of access roads are crucial preparatory steps that will enhance our understanding of the site's potential and ensure a smooth and efficient drilling process. Additionally, our commitment to environmental stewardship remains a top priority as we collect comprehensive baseline data ahead of our drilling operations."

The Silver Cord Project represents an early-stage exploration opportunity targeting volcanogenic massive sulphide and intrusive-related base and precious metal mineralization. Recent exploration work has elevated the prospectivity of the Silver Cord Project based on geological, geophysical and geochemical data indicating the presence of environments permissive for the development of polymetallic mineralization in the form of high-grade vein

networks, volcanogenic massive sulphide deposits and intrusive-related mineralizing systems capable of forming bulk mineable deposits.

About King Global Ventures:

Silver Cord Property in Arizona

King Global Ventures is focused on the exploration of precious metals in North America. The Silver Cord Project in Yavapai County Arizona is comprised of 41 concessions covering a total area of 790 ac. And is situated 64 miles north of Phoenix Arizona. The Silver Cord Project represents an early-stage exploration opportunity targeting copper-gold-silver-zinc, Volcanogenic Massive Sulphide (“VMS”) mineralization. The geology of Yavapai County, Arizona is notable due to the presence of a variety of base and precious metal deposit types. The region has a significant history of exploration, discovery and mining operations, including base metals from mining operations like Bagdad, Jerome and Cleopatra. The property is on trend and 12 miles N.W. of Arizona Metals and 60 miles south of the historic Jerome Copper mine.

York Property in Quebec

The York Property is comprised of 77 claims exceeding 40 sq. km. The Property is on trend between Azimut’s Elmer Property and the Eleonor Gold Mine. The Eleonor Mine is hosted by rocks similar to the clastic sediments known to host the Ukaw gold showings.
