While Expenses Were Reduced by 14% -

Toronto, Ont. – August 10, 2015 – UpSnap Inc. (CSE: UP) ("UpSnap" or the "Company"), a leading provider of mobile advertising solutions, today announced its second quarter (Q2) financial results for the three and six-month period ended June 30, 2015.

"We continue to focus our attention on rapidly scaling customer acquisitions in the SMB marketplace, while retaining a significant percentage of existing subscribers that produce growing recurring revenues for our Company," said Bruce Howard, CEO of UpSnap. "As our existing clients continue to see the major benefits of the Company's technology, they are beginning to allocate more of their overall advertising budgets to our advertising platform. This has not only led to an increase in recurring revenues, but as a result, the overall growth in revenue per client has increased by almost 20% year over year."

"In addition to strong top line growth, we are pleased to report that we also have made significant progress on our objective of reducing our operating expenses in an effort to free up capital to be invested into acquiring future customers and driving revenues forward," continued Mr. Howard. "For the duration of 2015, our goal remains centered on aggressively growing our pipeline of SMB's in need of a proven advertising technology, while continuing to manage expenses."
