RESINCO CAPITAL PARTNERS INC.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2015
(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

1. NATURE OF OPERATIONS

Resinco Capital Partners Inc. (“Resinco” or the “Company”) was incorporated under the laws of British Columbia on May 25, 2004. The Company’s shares are listed for trading on the TSX Venture Exchange under the ticker symbol “RIN”. The registered office of the Company is Unit 1 – 15782 Marine Drive, White Rock, British Columbia, Canada, V4B 1E6.

Resinco is a global investment company which specializes in providing early-stage financing to private and public exploration and mining companies in the hard rock minerals, precious metals, rare-earth minerals, oil, gas, water and renewable energy markets.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). The policies applied in these interim financial statements are based on International Financial Reporting Standards (“IFRS”) issued and outstanding as at the date the Board of Directors approved these interim financial statements for issue.

These interim financial statements do not include all of the information and disclosures required by IFRS for annual financial statements and therefore should be read in conjunction with the Company’s annual financial statements for the year ended December 31, 2014.

Basis of presentation

These condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These financial statements are presented in Canadian dollars, which is the Company’s functional and presentation currency.

Use of estimates and judgments

The preparation of the financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical accounting estimates are estimates, judgments and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and are, but are not limited to, the following:

Going concern – The Company’s management has made an assessment of the Company’s ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company’s ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

RESINCO CAPITAL PARTNERS INC.

FOR THE SIX MONTHS ENDED JUNE 30, 2015
(UNAUDITED – EXPRESSED IN CANADIAN DOLLARS)

2. BASIS OF PRESENTATION (continued)

Fair value of investment in securities not quoted in an active market or private company investments – Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, judgment is required to establish fair values.

Fair value of financial derivatives – Investments in options and warrants which are not traded on a recognized securities exchange do not have a readily available market value. When there are sufficient and reliable observable market inputs, a valuation technique is used; if no such market inputs are available, the warrants are valued at intrinsic value.

Share-based payments – The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model which incorporates market data and which involves uncertainty and subjectivity in estimates used by management in the assumptions. Because the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share price, changes in the subjective input assumptions can materially affect the fair value estimate.

Recovery of deferred tax assets – Judgment is required in determining whether deferred tax assets are recognized in the statement of financial position. Deferred tax assets, including those arising from unutilized tax losses, require management to assess the likelihood that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the date of the statement of financial position could be impacted.

Additionally, future changes in tax laws could limit the ability of the Company to obtain tax deductions in future periods.

The Company has not recorded any deferred tax assets.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Company in these condensed interim financial statements are the same as those applied by the Company as at and for the year ended December 31, 2014.

New standards, interpretations and amendments not yet effective

Certain new standards, amendments to standards and interpretations are not yet effective as of June 30, 2015, and have not been applied in preparing these financial statements.

Effective for annual periods beginning on or after January 1, 2018:

- New standard IFRS 9, Financial Instruments

Partial replacement of IAS 39, Financial Instruments: Recognition and Measurement. This standard simplifies the current measurement model for financial instruments under IFRS and establishes two measurement categories for financial assets: amortized cost, and fair value. The existing IAS 39 categories of loans and receivables, held to maturity investments, and available for sale financial assets will be eliminated.

The Company has not early adopted this revised standard and this standard is not expected to have a material effect on the financial statements.

* Resinco holds greater than 10% of the outstanding share capital of the investee company.

On June 26, 2014, the Company and Teslin River Resources Corp. (“Teslin”) entered into an agreement to settle outstanding debts aggregating \$552,082 through the issuance of 10,756,643 common shares of Teslin in full settlement of the debt. The shares were issued to Resinco on September 24, 2014 and were subject to a four-month hold period expiring January 24, 2015. The Company recorded the Teslin shares at a value of \$1,290,797. Also on September 24, 2014, the Company entered into a share purchase option agreement with a third party (the “Optionee”) to grant the Optionee the right for 5 months to purchase up to 10,756,643 common shares of Teslin for \$82,826. In consideration, the Optionee paid the Company \$80,000 as a non-refundable deposit and the shares were placed into escrow. This deposit was credited to derivative liability at the time of receipt. At December 31, 2014, the derivative liability was revalued to \$885,443. On February 11, 2015, the Optionee exercised his option to purchase 10,756,643 shares of Teslin and accordingly paid the Company the balance owing of \$2,826. The Company recorded a net realized loss on disposal of investments of \$402,528.

On April 2, 2015, the Company sold 862,160 shares of Terreno Resources Corp. for gross proceeds of \$43,108.

6. SHARE CAPITAL

a) Authorized share capital

At June 30, 2015, the authorized share capital comprised an unlimited number of common shares without par value.

b) Issued share capital

At June 30, 2015, the Company had 123,019,885 common shares issued and outstanding (December 31, 2014 – 123,019,885).

c) Warrants

There was no share purchase warrant activity for the six months ended June 30, 2015. As at June 30, 2015, there were no warrants outstanding.

d) Stock options

The Board of Directors of the Company may from time-to-time grant to directors, officers, employees and consultants of the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares, exercisable for a period of up to five years from the date of grant. The Company’s stock option plan requires that options vest 20% immediately, with 20% vesting every six months thereafter; however, the Board may change such provisions at its discretion or as required on a grant-by-grant basis.

The continuity for stock options for the six months ended June 30, 2015 is as follows:

Expiry date	Exercise price	Balance, December 31, 2014	Granted	Exercised	Expired/ cancelled	Balance, June 30, 2015
February 1, 2015	\$0.100	250,000	-	-	(250,000)	-
January 24, 2016	\$0.155	2,000,000	-	-	-	2,000,000
		2,250,000	-	-	(250,000)	2,000,000
Weighted average exercise price		\$0.15	\$0.00	\$0.00	\$0.10	\$0.16

As at June 30, 2015, all stock options were exercisable.

7. RELATED PARTY TRANSACTIONS

During the three and six months ended June 30, 2015, the Company paid or accrued \$22,050 (2014 - \$25,200) and \$46,200 (2014 - \$50,400), respectively to Golden Oak Corporate Services Ltd. (“Golden Oak”). Golden Oak is a consulting company controlled by the Corporate Secretary of the Company. Golden Oak provides the services of a chief financial officer, a corporate secretary, and accounting and administrative staff to the Company. The Chief Financial Officer and the Corporate Secretary are employees of Golden Oak and are not paid directly by the Company.

As at June 30, 2015, there was \$95,250 (December 31, 2014 – \$95,250) due to current and former directors of the Company.

8. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments

The Company's financial instruments consist of cash, investments, trade and other payables, and due to related parties. The fair value of trade and other payables and due to related parties approximate their fair value due to the short-term nature. Cash is recorded at fair value using Level 1 of the fair value hierarchy. Investments are recorded at fair value using Level 1 to 3 of the fair value hierarchy.

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.
- Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The following table presents the Company's investments, measured at fair value on the statements of financial position and categorized into levels of the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
June 30, 2015	\$ 1,251,895	\$ -	\$ 800,000	\$ 2,051,895
December 31, 2014	\$ 2,605,868	\$ -	\$ 800,000	\$ 3,405,868

The Company holds private company investments that are considered Level 3. The fair value of investments in Level 3 is determined by referring to the most recent equity financing the investee undertook during the period or by determining the net realizable value of the investee.

The following table reconciles the Company's Level 3 fair value investments:

Level 3	Six months ended June 30, 2015	Year ended December 31, 2014
Balance, beginning of year	\$ 800,000	\$ 875,915
Sold	-	(101,382)
Realized gain	-	25,467
Balance, end of year	\$ 800,000	\$ 800,000

8. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Risk management

The Company is or may be subject to certain risks including interest rate risk, currency risk, credit risk and market risk. Risk management strategies may expose the Company to further gains or losses, but serve to stabilize future cash flows, reduce the volatility of operating results and increase overall financial strength.

The Company's risk management objectives and policies are consistent with those disclosed by the Company as at and for the year ended December 31, 2014.

9. SEGMENTED INFORMATION

The Company operates in one business segment being the financing of private and public exploration and mining companies in the hard rock minerals, precious metals, rare-earth minerals, oil, gas, water and renewable energy markets. The majority of the Company's public company investments are traded on Canadian exchanges.
