DESCRIPTION OF BUSINESS

Resinco was incorporated under the laws of British Columbia on May 25, 2004. The Company’s shares are listed for trading on the TSX Venture Exchange under the ticker symbol “RIN”. The registered office of the Company is Unit 1 – 15782 Marine Drive, White Rock, British Columbia, Canada, V4B 1E6.

Resinco is a global investment company which specializes in providing early-stage financing to private and public exploration and mining companies in the hard rock minerals, precious metals, rare-earth minerals, oil, gas, water and renewable energy markets.

TRENDS AND INVESTMENT STRATEGY

Resinco is focused on early-stage investment opportunities and is primarily focused on the junior mineral resource sector. The Company recognizes two enterprise value enhancers; (1) the transition from private to public assets, and; (2) investing in assets which have been over-looked and have not realized their latent potential.

Engagement of this strategy has resulted in increases in the value of the Company’s portfolio historically, however the depressed state of the resource sector, and in particular the junior resource segment, has affected all publicly traded entities over the last several years. All forms of financing continue to be very constrained for early stage mineral exploration companies and this has resulted in the quantity of financings to be severely reduced and arduous to complete successfully.

The Company’s performance has mirrored the general negative sentiment towards the junior resource market. As previously stated, fundraising for junior resource companies has become very constricted.

The Company evaluates its portfolio on a regular basis and is actively reviewing new opportunities for investment.

RESULTS FROM OPERATIONS

Operating activities

During the nine months ended September 30, 2016, the Company expended \$131,361 on operating activities compared to \$143,230 expended in the comparative period. The slight decrease is primarily due to a reduction in consulting fees paid to Golden Oak Corporate Services Ltd. over the comparative period as the Company continues to look at ways to conserve cash.

Investing activities

During the nine months ended September 30, 2016, the Company sold 400,000 shares of Almonty Industries Inc. for gross proceeds of \$114,760 and recorded a net realized loss on disposal of investments of \$733,636 on the sale.

Subsequent to September 30, 2016, the Company sold 104,000 shares of Almonty Industries Inc. for gross proceeds of \$25,443.

LIQUIDITY AND CAPITAL RESOURCES

As at September 30, 2016, the Company had investments valued at \$922,763. Funding for the Company's operations is generated from the sale of investments in its portfolio. Most of the value of the portfolio of investments is comprised of one publicly traded company and one private company. Although the shares of the private company cannot be easily liquidated, the shares in the one public company are expected to provide sufficient liquidity to support the continuing operations of the Company. Management believes its resources are more than sufficient to meet the Company's ongoing overhead requirements.

CONTRACTUAL OBLIGATIONS

As at September 30, 2016, the Company had no contractual obligations.
