MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020
(EXPRESSED IN CANADIAN DOLLARS)

**GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020**

INTRODUCTION

The following management discussion and analysis ("MD&A") of the results of operations and financial condition of Global Care Capital Inc. ("Global" or the "Company") for the years ended December 31, 2021 and 2020 and up to the date of this MD&A, has been prepared to provide material updates to the business operations, financial condition, liquidity and capital resources of the Company since its last management discussion and analysis for the years ended December 31, 2021 and 2020.

This MD&A should be read in conjunction with the Annual audited financial statements for the years ended December 31, 2021 and 2020.

All financial information in this MD&A is derived from the Company's financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") and all dollar amounts are expressed in Canadian Dollars unless otherwise indicated.

The effective date of this MD&A is May 2, 2022.

DESCRIPTION OF BUSINESS

Global was incorporated under the laws of British Columbia on May 25, 2004. The Company's shares are listed for trading on the Canadian Securities Exchange ("CSE") under the ticker symbol "RIN", the Frankfurt Stock Exchange under the symbol L6V1.F and on the United States OTC stock market's OTC Pink, under the symbol RSCZF. The registered office of the Company is Suite 1500 - 1055 W. Georgia Street, Vancouver, British Columbia, Canada, V6E 4N7.

Global is a global investment company which specializes in providing early stage financing to private and public companies in the medical marijuana, pharmaceutical, technology, and mining sectors. The Company engages in new, early stage investment opportunities in previously underdeveloped assets and obtaining significant positions in early stage investment opportunities that adequately reflect the risk profile.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The impact on the Company is not currently determinable but management continues to monitor the situation.

KEY INVESTMENT PORTFOLIO DESCRIPTION

Healthview Technologies Inc.

On September 14, 2020, the Company completed the acquisition of all of the issued and outstanding securities in the capital of Healthview Technologies Inc. ("Healthview") in exchange for securities of Global (the "Transaction"). At closing, the Healthview shareholders will receive an aggregate of 20,000,000 common shares and 10,000,000 common share purchase warrants of the Company at an exercise price of \$0.05 until August 27, 2021 and additional 20,000,000 common shares ("Earn-Out shares" contingent upon achieving certain milestones.

On October 6, 2020, the Company announced its portfolio company, Healthview had launched its new Telehealth App on Apple Store and Google Play.

On February 2, 2021, Healthview has onboarded its first customers across the retail, hospitality, medical, finance and transportation industries to offer Mental Health Services and has achieved its first of two earn-out milestones in accordance with the terms of the definitive agreement that was entered in connection with the acquisition of Healthview by the Company (the "Transaction"). As a result, the Company issued 10,000,000 common shares, (the "Earn-Out Shares") to certain former Healthview shareholders at a deemed price of \$0.09 per Earn-Out Share. The Earn-Out Shares will not be subject to any hold period under applicable securities laws.

GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

KEY INVESTMENT PORTFOLIO DESCRIPTION (CONTINUED)

360 Life Sciences Corp.

On August 4, 2020, the Company sold all of the issued and outstanding shares of its wholly-owned subsidiary ReFormation Pharmaceuticals Corp. ("ReFormation") to 360 Life Sciences Corp. ("360 Life Sciences") in exchange for 800,000 common shares of 360 Life Sciences, pursuant to the share purchase agreement dated June 24, 2020. As at December 31, 2021, the estimated fair value of 360 Life Sciences Corp. was \$1.

ViralClear Rapid Test Corp.

Pursuant to the terms of the Share Purchase Agreement with ViralClear Rapid Test Corp ("ViralClear"), Global issued 24,000,000 common shares of the Company (each a "Consideration Share") to the vendors in return for a 100% interest in ViralClear. At closing, the ViralClear option holders exchanged their outstanding ViralClear options (the "ViralClear Options") for replacement Global options (each a "Global Care Capital Option"). Each ViralClear Option was exchanged for a Global Care Capital Option on a 1:1 basis for an aggregate of 2,900,000 Global Care Capital Options. Of the aggregate number of Global Care Capital Options to be issued, 2,400,000 Global Care Capital Options have an exercise price of \$0.50 per Global common share until April 15, 2022; and 500,000 Global Care Capital Options have an exercise price of \$0.20 per Global common share until April 15, 2022. Upon completion of the transaction, ViralClear became a wholly owned subsidiary of the Company.

ViralClear through its investment in Virax Biolabs Group Ltd ("Virax"), presents a tremendous opportunity. The novel coronavirus has become a worldwide pandemic that requires serious intervention for countries to return to status quo. The Company is not making any express or implied claims that it has the ability to treat the COVID-19 virus at this time. Virax is a start-up company in the newly created COVID-19 antibody test market and has commenced sales and distribution of its test kits in Mexico.

ViralClear through its investment in Virax also focuses on commercialization targets the marketing and distribution portion of the value chain. Virax's manufacturing partner, Shanghai Liangrun Biomedicine Technology Co., Ltd., has production capacity of one million test kits per week at their factory in Shanghai, China.

As at December 31, 2021 the estimated fair value of ViralClear was \$1,088,740.

ASIC Power Company

On January 28, 2021, the Company acquired all of the issued and outstanding securities in the capital of ASIC Power Company ("ASIC") in exchange for 100,000,000 common shares of the Company with a fair value of \$11,500,000. ASIC is a cryptocurrency company combining state of the art ASIC chips with royalty streaming contracts. ASIC gives mining companies access to its innovative cryptocurrency mining streaming contracts and chip pipeline through its partnerships with leading hardware producers. It intends to identify low cost, renewably powered mining operations to implement new financing strategies in the form of royalties and stream contracts globally.

CCM Technologies Inc.

On June 2, 2021, the Company acquired 100% of the issued and outstanding common shares and warrants of 1290369 B.C. Ltd. (d/b/a CCM Technologies Inc.) ("CCM") by way of a share exchange agreement. The Company issued 94,170,001 common shares with a fair value of \$9,887,850 from treasury and 65,000,000 common share purchase warrants with a fair value of \$6,640,254. Each warrant provides the holder with an option to purchase one common share of the Company at a price of \$0.05 until March 1, 2023. There are no hold periods for the shares or warrants pursuant to applicable securities laws, however, 89,170,001 shares will be subject to voluntary hold periods (the "Voluntary Restrictions") with 44,170,000 being released on the date that is 4 months from June 2, 2021 (the "Closing Date"), being October 3rd, 2021, and an additional 7,500,000 being released on each of the 6, 12, 18, 24, 30 and 36 months after the Closing Date. CCM is an emerging player in the Canadian cryptocurrency mining sector with an experienced leadership and technology team.

On June 8, 2021, the Company issued from treasury to creditors 8,077,774 common shares with a fair value of \$727,000 to settle a debt assumed by the Company pursuant to the terms of the share exchange agreement.

GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

EQUITY TRANSACTIONS

On April 9, 2020, the Company completed a non-brokered private placement of 25,000,000 units (the "Units" and each individually, a "Unit") for gross proceeds of \$2,450,000 and to settle an outstanding debt of \$50,000 (the "Offering"). Each Unit is comprised of one common share of the Company at a price of \$0.10 per common share and one-half of one common share purchase warrant at a price of \$0.20. Each whole warrant will be exercisable for a period of 24 months from the closing of the Offering. In connection with the private placement, the Company incurred \$194,425 in transaction costs and issued 1,944,250 finder warrants with a fair value of \$1,274,545 to arm's length individuals. Each finder warrant will be exercisable for a period of 24 months at a price of \$0.10.

On March 29, 2022, the Company entered a debt settlement agreement, pursuant to which the Company agreed to settle \$373,717 debt owed by CCM by issuance of 6,874,336 common shares at a price of \$0.05 per share

TRENDS AND INVESTMENT STRATEGY

Global is focused on early-stage investment opportunities in private and public companies. The Company recognizes two enterprise value enhancers; (1) the transition from private to public assets, and; (2) investing in assets which have been overlooked and have not realized their latent potential.

Engagement of this strategy has resulted in increases in the value of the Company's portfolio historically, however the depressed state of the junior market sector has affected all publicly traded entities over the last several years. All forms of financing continue to be very constrained for early stage companies and this has resulted in the quantity of financings to be severely reduced and arduous to complete successfully.

Due to the depressed state on the junior markets, the Company reviewed potential opportunities in blockchain and crypto currency sectors and will continue to do so, along with reviewing investment opportunities in the healthcare and natural resource sectors.

The Company evaluates its portfolio on a regular basis and is actively reviewing new opportunities for investment.

INVESTMENTS SUMMARY

	December 31, 2021		December 31, 2020	
	Cost	Fair value	Cost	Fair value
	\$	\$	\$	\$
Public Company Investments	130,167	5,412	988,881	223,671
Private Company Investments	82,560,528	2,337,488	53,091,645	166,667
Total	82,690,695	2,342,900	54,080,526	390,338

As at December 31, 2021, the Company held public company investments with a fair value of \$5,412 compared to \$223,671 as at December 31, 2020. This is mainly due to disposal of 180 Life Sciences Corp and impairment of Global Gaming Technologies Corp shares.

As at December 31, 2021, the Company held private company investments with a fair value of \$2,337,488, compared to \$166,667 at December 31, 2020. This increase is due to the Company acquiring all of the issued and outstanding securities in the capital of ASIC in exchange for 100,000,000 common shares of the Company with a fair value of \$11,500,000 issued to ASIC shareholders with a fair value of \$519,250 as at December 31, 2021 and the Company acquiring all of the issued and outstanding securities in the capital of CCM in exchange for 94,170,001 common shares and 65,000,000 common share purchase warrants to the shareholders of CCM and issuance of 8,077,774 common shares to CCM creditors with a fair value of \$727,000 for total fair value of \$17,255,104, with the fair value of CCM of \$729,496 as at December 31, 2021. As at December 31, 2021, the Company's private investment fair value also included the fair value of ViralClear shares for \$1,088,740.

GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

RESULTS FROM OPERATIONS

Year ended December 31, 2021

The Company's net change in fair value adjustment of investments for the year ended December 31, 2021 was \$26,517,217, compared to \$35,463,010 during the year ended December 31, 2020. The net change in fair value adjustment is due to various impairments on investments during the year.

RESULTS FROM OPERATIONS (CONTINUED)

The Company's net loss and comprehensive loss for the year ended December 31, 2021 was \$28,110,178 compared to \$53,380,264 for the year ended December 31, 2020. Overall, the main decrease in net loss and comprehensive loss is due to the lower fair value of investments as at December 31, 2021.

The key differences in expenses between the years ended December 31, 2021 and 2020 were as follows:

- The most significant component of the current years' net loss is the \$26,517,217 fair value adjustment losses on investments. The most significant fair value adjustment losses are comprised of \$16,651,839 on CCM Technologies, \$10,980,750 on ASIC, and gain of \$922,075 on ViralClear.
- Consulting fees were \$299,510 (\$488,250 – 2020). The decrease is due to changes in various consultants and management during the year.
- Corporate development decreased by \$741,658 from \$1,031,825 in 2020 to \$290,167 in 2021. The decrease in corporate development fees was due to lower of expenditures on media, public relations and other forms of communication to create public awareness used during prior fiscal year.
- Professional fees increased by \$35,297, from \$229,496 in 2020 to \$264,793 in 2021. The expense is comprised of for various legal fees, audit fees, and corporate fees associated with due diligence and other work done in connection with the various acquisitions, and other professional fees.
- Share based compensation of \$478,480 (2020 - \$1,753,892) was recognized on the grant of share options granted to various directors, officers, employees and consultants during the year.
- Transaction costs decreased from \$8,051,030 in 2020 to \$Nil in 2021. The decrease is primarily attributed to lower and cost free of various acquisitions of investments made during the year such as CCM and ASIC.

SELECTED ANNUAL INFORMATION

The Company's selected financial information for the past three fiscal years is as follows:

For the years ended	December 31, 2021	December 31, 2020	December 31, 2019

The quarterly financial information for 2021 and 2020 are presented in accordance with IFRS.

The Company has been negatively affected by poor stock market performance, volatile commodity prices and weakened global economic performance. Due to an investment portfolio which is weighted in early-stage companies, quarter-to-quarter performance is affected by volatility in the stock markets. The amount and timing of expenses and availability of capital resources vary substantially quarter to quarter, depending on the level of investment activities being undertaken at the time.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2021, the Company had cash and cash equivalents of \$617,714 (2020 - \$321,608) and working capital deficiency of \$2,139,197 (2020 - \$1,526,078). Since the Company's inception, operations have been financed through the issuance of equity securities and the sale of the Company's investments.

In the year ended December 31, 2021, the Company used net cash of \$343,894 (2020 - \$2,123,465) from operating activities, and received \$640,000 (2020 - \$2,430,575) from financing activities related to the private placements and exercise of options during the year.

During the year ended December 31, 2021, the Company limited cash outflow due to operating activities through share-based compensation in the amount of \$478,480. As well, to complete acquisitions, the company incurred transaction costs through the issuance of options and warrants in the amount of \$Nil. Various losses occurred related to various investments acquired during the year amounting to \$26,517,217 (2020 - \$35,463,010).

As at December 31, 2021, the Company had investments valued at \$2,342,900. Funding for the Company's operations is generated from the sale of investments in its portfolio and private placements. Most of the value of the portfolio of investments is comprised of two private companies.

CASH FLOWS – OPERATING ACTIVITIES

Net cash used in operating activities during the year ended December 31, 2021 was \$343,894 (2020 - \$2,123,465) which mainly consisted of cash spent for general working capital, corporate development, consulting and professional fees.

CASH FLOWS – FINANCING ACTIVITIES

Total net cash generated during the year ended December 31, 2021 was \$640,000 (2020 - \$2,430,575). The Company paid \$24,591 in finder's fee pursuant to the private placements.

GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

CASH FLOWS – INVESTING ACTIVITIES

During the year ended December 31, 2021, the Company used \$Nil (2020 - \$458,665) for issuance of loans receivable.

CONTRACTUAL OBLIGATIONS

As at December 31, 2021, the Company had no contractual obligations.

OFF-BALANCE SHEET ARRANGEMENTS

The Corporation was not party to any off-balance sheet arrangements as of December 31, 2021.

RELATED PARTY TRANSACTIONS

The Directors and Executive Officers of the Company are as follows:

Hugh Maddin	Chief Executive Officer, since December 2021
Bryce Clark	Director, Chief Financial Officer, since March 2022
Alexander Somjen	Director, since June 2018
Maciej Lis	Director, since February 2018

The following directors and/or senior officers transacted with the Company in the reporting period. The terms and conditions of the transactions with key management personnel and their related parties were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis. The aggregate value of transactions relating to key management personnel were as follows:

	December 31, 2021 \$	December 31, 2020 \$
Consulting fees paid to the former CEO	\$ 166,250	\$ 203,400
Consulting fees paid to the former CFO	-	-
Consulting fees paid to the CEO	10,000	-
Consulting fees and accounting fees and rent paid to companies controlled by the former CFO	199,674	14,700
Share-based compensation	478,480	-
Total	\$ 854,404	\$ 218,100

As at December 31, 2021, there was \$314,542 (December 31, 2020 - \$273,850) due to current and former officers and management of the Company.

On January 17, 2020, the Company entered into a loan agreement in the amount of \$50,000 with a company jointly controlled by the former corporate secretary and CFO. The loan was due on demand and interest accrued on the principal amount at the rate of 8% per annum. On April 9, 2020, the loan was settled with common shares of the Company.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments

The Company's financial instruments consist of cash and cash equivalents, loans receivable, investments and accounts payable and accrued liabilities. The carrying value of loans receivable, and accounts payable and accrued liabilities approximates their fair value due to the short-term nature. Cash and cash equivalents are recorded at fair value using Level 1 of the fair value hierarchy. Investments are recorded at fair value using Level 1 to 3 of the fair value hierarchy.

As at December 31, 2021, investments in public companies of \$5,412 (December 31, 2020 - \$223,670) are recorded at fair value using Level 1 of the fair value hierarchy and investments in private companies of \$1,818,238 (December 31, 2020 - \$166,669) are recorded at fair value using level 2 and 3 of the fair value hierarchy.

GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

Financial instruments (continued)

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 -	Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.
Level 2 -	Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.
Level 3 -	Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The following table presents the Company's financial instruments, measured at fair value on a recurring basis on the statements of financial position and categorized into levels of the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
December 31, 2021	\$	\$	\$	\$
Cash and cash equivalents	617,714	-	-	617,714
Investments	5,412	1,818,238	519,250	2,342,900

	Level 1	Level 2	Level 3	Total
December 31, 2020	\$	\$	\$	\$
Cash and cash equivalents	321,608	-	-	321,608
Investments	223,670	166,669	-	390,339
Contingent consideration liability	-	-	1,700,000	1,700,000

The Company holds investments in HSHC, ViraxClear, Pembroke, Metaverse, Healthview, 360 Life Sciences, and Vancity Green, all private company investments are considered Level 2. The fair value of investments in Level 2 for ViraxClear is determined by referring to the most recent equity financing the investee undertook during the period. The fair value for CCM in Level 2 is based on the Company's net asset value per share. The fair value of ASIC in Level 3 is based on cash flow model of royalty projections of crypto mining projects.

changes in fair value of these private company investments are recognized in profit or loss on the statements of loss and comprehensive loss.

The amounts included in profit or loss are comprised entirely of fair value adjustment gains and losses. There were no transfers between levels during the period.

The following table reconciles the Company's Level 3 fair value investments:

Level 3	Year ended December 31, 2021 \$	Year ended December 31, 2020 \$
Balance, beginning of year	-	462,001
Additions	11,500,000	40,641,687
Net change in fair value adjustment on investments	(10,980,750)	(41,103,688)
Balance, end of year	519,250	-

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

Risk management

The Company is or may be subject to certain risks including interest rate risk, currency risk, credit risk and market risk. Risk management strategies may expose the Company to further gains or losses, but serve to stabilize future cash flows, reduce the volatility of operating results and increase overall financial strength.

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The impact on the Company is not currently determinable but management continues to monitor the situation.

Interest rate risk

The Company is exposed to interest rate risk to the extent that its cash balances bear variable rates of interest. The interest rate risks on cash and cash equivalents and on the Company's obligations are not considered significant.

Currency risk

The Company has foreign investments and is therefore subject to currency risk. Management believes these investment and transaction amounts are not significant and there are no material foreign currency commitments. The currency risk is therefore

manageable and not significant. The Company does not currently use any derivative instruments to reduce its exposure to fluctuations in foreign currency exchange rates.

Credit risk

Credit risk is the risk associated with the inability of a third party to fulfil its payment obligations. The Company is exposed to the risk that third parties that owe money or securities in connection with services provided, or for other purposes, will default on their underlying obligations.

Prior to accepting any service engagement or providing any loan, the Company assesses future recoverability by examining the entities' financial conditions, properties and assets, business development activities and management. The Company manages its exposure to credit risk by reviewing the outstanding balances on an ongoing basis, monitoring the amount attributable to each counterparty, and the length of time taken for amounts to be settled. Where necessary, management takes appropriate action to follow up on those balances considered overdue.

Liquidity risk

Liquidity risk is the risk that the Company will have insufficient cash resources to meet its financial obligations as they become due. The Company's liquidity and operating results may be adversely affected if the Company does not have access to the capital markets, whether as a result of a downturn in general market conditions or related to matters specific to the Company, or if the value of the Company's investments decline, resulting in lower proceeds and/or losses on disposition. The Company generates cash flows primarily from the disposition of its investments and from its financing activities. The Company's investments focus on early-stage companies which can at times be relatively illiquid and if the Company decides to dispose of certain securities, it

may not be able to do so at favorable prices at that time, or at all. However, the Company has sufficient marketable securities which are freely tradable and relatively liquid to fund its obligations as they become due under normal operating conditions such that, in the absence of overall market disruptions or exceptional circumstances, liquidity risk can be minimized. The Company expects accounts payable and accrued liabilities and contingent consideration liabilities to be settled within 12 months of December 31, 2021.

Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly

GLOBAL CARE CAPITAL INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONTINUED)

fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates and equity and commodity prices. The Company is exposed to market risk in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. The Company's investments are primarily concentrated in early-stage companies, which results in exposure to higher volatility than broader market investments and indexes. The Company's investments are accounted for at fair value and are sensitive to changes in

market bid prices, such that changes in market prices result in a proportionate change in the carrying value of the Company's investments.

Concentration risk

The Company is subject to concentration risk due to the nature of the Company's operations as an investment company and the number of investments held in the portfolio which consists primarily of early-stage companies and their related technologies. As a result, the investment portfolio is directly exposed to the risks associated with companies operating in these industry sectors.

As at December 31, 2021, approximately 99% (2020 - 99%) of the fair value of the Company's investment portfolio consisted of investments in three companies with the largest single investment comprising 99% (2020 - 50%) of the total portfolio value.

OUTSTANDING SHARE DATA

As of the date of this MD&A, the Company had the following outstanding share data:

Common shares	356,871,756
Warrants	63,000,000
Finders warrants	-
Share options	5,056,560

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

Statements in this MD&A – Highlights other than purely historical information, including statements relating to the Company's future plans and objectives or expected results, constitute forward-looking statements. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the

actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements include, among others, statements pertaining to:

- The lack of control over operations of the Company's investment operations.
- The fluctuations in the price of the Company's shares and the share price of the Company's investments.
- The Company's ongoing investment strategy; and
- The Company's ability to generate cash flow.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements.

Accordingly, readers should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date of this MD&A – Highlights and, other than as required by applicable securities laws, the Company assumes no obligation to update or revise them to reflect new events or circumstances.

ADDITIONAL INFORMATION

Additional information is available on SEDAR at www.sedar.com, or by contacting the Company's corporate office at Suite 810 – 789 West Pender Street, Vancouver, BC, Canada V6C 1H2, or by emailing the Company at alex@resincocp.com.

RISK FACTORS

This section discusses factors relating to the business of Company that should be considered by both existing and potential investors. The information in this section is intended to serve as an overview and should not be considered comprehensive and

the Company may face risks and uncertainties not discussed in this section, or not currently known to us, or that we deem to be immaterial. All risks to the Company's business have the potential to influence its operations in a materially adverse manner.

Sector Specific Investment Risks

The Company seeks a high return on investment opportunities on its cannabis pharmaceuticals, mining and natural resource and block chain technology sectors ("Sectors"). Thus, the Company is exposed to investment risks relating to these Sectors which is generally more volatile than the overall market. Investing in these Sectors can be speculative in nature and the value of the Company's investments may be subject to significant fluctuations. Such businesses entail a degree of risk, regardless of the skill

and experience of the corporation's management. The assets, earnings and share values of corporations involved in the cannabis pharmaceuticals, natural resource and block chain development, are subject to risks associated with the world prices of various cannabis related products, natural resource and cryptocurrencies, forces of nature, economic cycles, commodity prices, exchange rates, royalty and taxation changes and political events. Government restrictions, such as price regulations, production quotas, royalties and environmental protection, can also be factors.

Regulatory Risks

The Company's Investment Partners in the cannabis pharmaceutical sector operate in a new industry which is highly regulated, highly competitive and evolving rapidly. As such, new risks may emerge, and management may not be able to predict all such risks or be able to predict how such risks may result in actual results differing from the results contained in any forward-looking statements. The Company's Investment Partners incur ongoing costs and obligations related to regulatory compliance. Failure to comply with regulations may result in additional costs for corrective measures, penalties or in restrictions of operations. In addition, changes in regulations, more vigorous enforcement thereof or other unanticipated events could require extensive changes to operations, increased compliance costs or give rise to material liabilities, which could have a material adverse effect

on the business, results of operations and financial condition of the Company's Investment Partners and, therefore, on the Company's prospective returns.

The industry is subject to extensive controls and regulations, which may significantly affect the financial condition of market participants. The marketability of any product may be affected by numerous factors that are beyond the control of the Company and its Investment Partners and which cannot be predicted, such as changes to government regulations, including those relating to taxes and other government levies which may be imposed. Changes in government levies, including taxes, could reduce the Company's and its Streaming Partners' earnings and could make future capital investments or the Company's and its Streaming Partners' operations uneconomic. The industry is also subject to numerous legal challenges, which may significantly affect the

financial condition of market participants and which cannot be reliably predicted.

Change in Law, Regulations and Guidelines

The Company's Investment Partners are subject to a variety of laws, regulations and guidelines relating to marketing, acquisition, manufacture, management, transportation, storage, sale and disposal of cannabis pharmaceuticals and cannabis pharmaceutical related products but also laws and regulations relating to health and safety, the conduct of operations and the protection of the environment. Changes to such laws, regulations and guidelines may cause adverse effects to the Company's investments in the cannabis pharmaceutical sector.

RISK FACTORS (CONTINUED)

Jurisdictions Outside of Canada

The Company intends to invest into early-stage global cannabis pharma related companies with operations and business that may be outside of Canada's jurisdiction. There can be no assurance that any market for the Company's Investment Partners products will develop in any such foreign jurisdiction. The Company may face new or unexpected risks or significantly increase its

exposure to one or more existing risk factors, including economic instability, changes in laws and regulations and the effects of competition. These factors may limit the Company's capability to successfully invest in foreign cannabis pharmaceutical entities and may have a material adverse effect on the Company's business, financial condition and results of operations.

Political and Economic Instability

The Company may be affected by possible political or economic instability. The risks include, but are not limited to, terrorism, military repression, extreme fluctuations in currency exchange rates and high rates of inflation. Changes in medicine and agriculture development or investment policies or shifts in political attitude in certain countries may adversely affect the Company's business. Operations may be affected in varying degrees by government regulations with respect to restrictions on production, distribution, price controls, export controls, income taxes, expropriation of property, maintenance of assets, environmental legislation, land use, land claims of local people and water use. The effect of these factors cannot be accurately predicted.

Limited Operating History

The Company has limited operating history as an investment company, and has had limited success investing in mining, block chain technology and cannabis pharmaceutical sectors. The Company and its business prospects must be viewed against the background of the risks, expenses and problems frequently encountered by companies in the early stages of their development, particularly companies in new and rapidly evolving markets such as the cannabis pharmaceuticals and blockchain market. There is no certainty that the Company will be able to operate profitably.

Additional Requirements for Capital

Substantial additional financing may be required if the Company is to be successful in developing a diversified and material portfolio of investments. No assurances can be given that the Company will be able to raise the additional capital that it may require for its anticipated future development. Any additional equity financing may be dilutive to investors and debt financing, if available, may involve restrictions on financing and operating activities. There is no assurance that additional financing will be available on terms acceptable to the Company, if at all. If the Company is unable to obtain additional financing as needed, it

may be required to reduce the scope of its operations or anticipated investments.

Key Personnel

The Company is dependent upon the continued availability and commitment of its management, whose contributions to immediate and future operations are of significant importance. The loss of any such management could negatively affect the Company's business operations. From time to time, the Company will also need to identify and retain additional skilled management to efficiently operate its business. Recruiting and retaining qualified personnel is critical to the Company's success and there can be no assurance of its ability to attract and retain such personnel. If it is not successful in attracting and training

qualified personnel, the Company's ability to execute its business model and growth strategy could be affected, which could have a material and adverse impact on its profitability, results of operations and financial condition.

Lack of Control or significant influence over Companies in which the Company Invests

In certain cases, the Company invests or may invest in securities of companies that the Company does not control or influence. These investments will be subject to the risk that the company in which the investment is made may make business, financial or management decisions with which the Company does not agree or that the majority stakeholders or management of the company

RISK FACTORS (CONTINUED)

may take risks or otherwise act in a manner that does not serve the Company's interests. If any of the foregoing were to occur, the values of investments by the Company could decrease and the Company's financial condition and cash flow could suffer as a result.

Due Diligence

The due diligence process undertaken by the Company in connection with investments that it makes or wishes to make may not reveal all relevant facts in connection with an investment. Before making investments, the Company will conduct due diligence investigations that it deems reasonable and appropriate based on the facts and circumstances applicable to each investment. When conducting due diligence investigations, the Company may be required to evaluate important and complex business, financial, tax, accounting, environmental and legal issues. Outside consultants, legal advisors, accountants and investment banks may be

involved in the due diligence process in varying degrees depending on the type of investment. Nevertheless, when conducting due diligence investigations and making an assessment regarding an investment, the Company will rely on resources available, including information provided by the target of the investment and, in some circumstances, third party investigations. The due diligence investigations that are carried out with respect to any investment opportunity may not reveal or highlight all relevant facts that may be necessary or helpful in evaluating such investment opportunity. Moreover, such investigation will not necessarily result in the investment being successful.

Fluctuations in the Value of the Company and the Common Shares

The net asset value of the Company and market value of its common shares will fluctuate with changes in the market value of the Company's investments. Such changes in value may occur as the result of various factors, including general economic and market conditions, the performance of corporations whose securities are part of the Company's investment portfolio and changes in interest rates which may affect the value of interest-bearing securities owned by the Company. There can be no assurance that shareholders will realize any gains from their investment in the Company and may lose their entire investment.
