DEER HORN CAPITAL INC.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
January 31, 2015
(Unaudited – Expressed in Canadian Dollars)

NOTE 1 - NATURE OF OPERATIONS AND GOING CONCERN

Deer Horn Capital Inc. (the “Company”) was incorporated under the *Business Corporations Act* (Canada) and continued into British Columbia pursuant to the *Business Corporations Act* (British Columbia). The Company owns interests in exploration and evaluation assets in British Columbia, leasing and consulting under marijuana medical access regulations (“MMAR”) and is currently planning its entry into the organic grocery industry. The Company’s head office and principal place of business is Suite 140, 1440 Garden Place, Delta, British Columbia, Canada. The Company is a reporting issuer in the provinces of British Columbia, Alberta and Ontario, Canada and trades on the Canadian Securities Exchange under the symbol “DHC”.

These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and thus be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

The Company has not yet determined whether its exploration and evaluation assets contain economically recoverable ore reserves. The recovery of the amounts comprising exploration and evaluation assets are dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing, successfully complete the exploration and development of those reserves and upon future profitable production or, alternatively, upon the Company’s ability to dispose of its interest on an advantageous basis. The Company estimates that additional funding will be required to continue operations over the next 12 months. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern.

The consolidated financial statements include the financial statements of Deer Horn Capital Inc. and its wholly-owned subsidiaries, BC Cannabis Pharms Ltd. and Bodhi Tree Natural Market Corp.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

a) **Statement of compliance:**

These financial statements have been prepared in accordance with IAS 1 “Presentation of Financial Statements” (“IAS 1”) using accounting policies consistent with International Financial Reporting Standards “IFRS” issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The financial statements were authorized by the Audit Committee and Board of Directors of the Company on March 31, 2015.

b) **Basis of presentation:**

The financial statements have been prepared on the historical cost basis except for certain non-current assets and financial instruments, which are measured at fair value, as explained in the accounting policies set out in below. In addition, the financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
January 31, 2015
(Unaudited – Expressed in Canadian Dollars)

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Cont'd...)

b) Basis of presentation: (cont'd...)

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

The significant accounting policies for the quarter are consistent with those disclosed in the audited annual financial statements for the year ended July 31, 2014 except as specified below. The accompanying interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended July 31, 2014.

c) Changes in accounting policies:

Basis of Consolidation

The consolidated financial statements include the accounts of Deer Horn and its subsidiaries and the proportionate share of the assets, liabilities, revenues, expenses and cash flows of its operation. The subsidiaries are fully consolidated from the date of acquisition, being the date on which Deer Horn obtained control, and continues to be consolidated until the date that such control ceases.

Intangible Assets

Finite life intangible assets are comprised of MMAR leasing and consulting and other items which are recorded at cost less accumulated amortization and accumulated impairment losses. The estimated useful life and amortization method are reviewed at the end of each reporting period, and the effects of any changes are reported on a prospective basis.

Effective August 1, 2014, the Company adopted the following new and revised standards, along with any consequential amendments. These changes were made in accordance with the applicable transitional provisions.

IFRIC 21

This is an interpretation of IAS 37, *Provisions, contingent liabilities and contingent assets*. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event, known as an obligating event. The interpretation clarifies that the obligation event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. The Company has concluded that the adoption of IFRIC 21 did not have any impact on its financial statements.

d) Recent accounting pronouncements:

Certain pronouncements were issued by the IASB or the International Financial Reporting Interpretations Committee ("IFRIC") are mandatory for accounting periods after October 31, 2014 or later periods. Many are not applicable or do not have significant impact to the Company and have been excluded from the discussion below. The impact of these new standards on the Company's financial instruments has not yet been determined.

IFRS 7, Financial Instruments: Disclosures, will be amended to require additional disclosures on transition from IAS 39 and IFRS 9, and is effective for annual periods beginning on or after January 1, 2015.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Cont'd...)

d) **Recent accounting pronouncements: (Cont'd...)**

IFRS 9 Financial Instruments (Revised)

IFRS 9 was issued by the IASB in October 2010. It incorporates revised requirements for the classification and measurement of financial liabilities and carrying over the exiting derecognition requirements from IAS 39 *Financial instruments: recognition and measurement*. The revised financial liability provisions maintain the existing amortized cost measurement basis for most liabilities. New requirements apply where an entity chooses to measure a liability at fair value through profit or loss – in these cases, the portion of the change in fair value related to changes in the entity's own credit risk is presented in other comprehensive income rather than within profit or loss. IFRS 9 is tentatively effective for annual periods beginning on or after January 1, 2018.

IAS 32 (Amendment)

New standard that clarifies requirements for offsetting financial assets and financial liabilities.

d) **Recent accounting pronouncements:**

IAS 36 (Amendment)

This amendment addresses the disclosure of information regarding the recoverable amount of impairment assets as the amount is based on fair value less costs of disposal.

NOTE 3 – RECEIVABLES

Receivables are comprised of the following:

	Jan. 31, 2015	July 31, 2014
GST Receivable	\$ 17,562	\$ 3,120

NOTE 4 – EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its properties are in good standing.

Exploration and evaluation assets costs are set out below:

NOTE 4 – EXPLORATION AND EVALUATION ASSETS (Cont'd...)

Deerhorn

In August 2009, the Company entered into an option agreement with a company related by virtue of common directors, to acquire an initial 50% interest in the Deerhorn property, located in north western British Columbia.

To acquire its interest, the Company was required to incur \$5,000,000 in exploration expenditures.

The Company has earned its initial 50% interest in the property. It may acquire an additional 25% interest by incurring all costs required to bring the property to commercial production.

As at January 31, 2015 the Company had provided exploration advances of \$4,936 (July 31, 2014 - \$4,936) on its Deerhorn property.

NOTE 6 – INTANGIBLE ASSETS

BC Cannabis Pharms Ltd.

On January 8, 2015, the Company acquired the assets of a private company, which assets include leased premises which are sub-leased to various individuals for the purposes of producing medical marijuana under 8 MMAR production licenses as well as a consulting service to provide information and guidance with respect to the cultivation of various strains of medical marijuana plants.

In order to complete the acquisition, the Company must pay \$200,000 cash (\$100,000 upon closing and \$100,000 within 1 year of closing) and issue 1,000,000 common shares at closing. The Company has paid \$150,000 of the \$200,000, of which the remaining \$50,000 must be paid on or before January 7, 2016 and has issued 1,000,000 common shares valued at \$50,000. Total transaction costs of \$11,800 were capitalized.

Bodhi Tree Natural Market Corp.

In January 2015, the Company acquired all of the issued shares of a private company, Bodhi Tree Natural Market Corp. (“Bodhi”), through which it will enter the organic supermarket industry, for fair value of \$30.

Bodhi entered into a net profits interest (“NPI”) agreement with a third party (the “NPI Holder”) providing for net profit interest of 20% to the NPI Holder as partial consideration for assistance in setting up the flagship store.

NOTE 7 – RECLAMATION DEPOSIT

The Company provided funding for deposits totalling \$82,000 (2013 - \$82,000) as security against potential future reclamation work related to the Deerhorn property (Note 4).

NOTE 8 – ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

NOTE 9 – SHARE CAPITAL

The Company’s share capital consists of an unlimited number of common shares without par value.

In May 2014, the Company effected a share consolidation of its share capital on a 10 for 1 basis, consolidating its 154,353,166 currently outstanding common shares to 15,435,317 common shares. All references to common stock in the financial statements have been changed to reflect the share consolidation.

NOTE 9 – SHARE CAPITAL (Cont'd...)

Fiscal 2015 Transactions

In January 2015, the Company completed a non-brokered private placement for gross proceeds of \$505,000 through the issuance of 10,100,000 units at a price of \$0.10 per unit. Each unit consists of one common share and one-half of one common share purchase warrant. Each whole warrant will be exercisable into one common share for a period of two years at a price of \$0.10. The warrants were attributed a fair value of \$101,000.

Fiscal 2014 Transactions

During the year ended July 31, 2014, the Company completed a non-brokered private placement for gross proceeds of \$250,000 through the sale of 5,000,000 common shares at a price of \$0.05 per common share.

Share-based payments

A 2014 Stock Option Plan (the “Plan”) was approved by the shareholders on July 21, 2014, at the Company’s annual general and special meeting. Under the Plan, the Company is authorized to grant options to executive officers, directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company, on a rolling basis. Options may be granted at an exercise price of no less than a 25% discount of the market price on the date of the grant, or such higher price as determined by the board of directors. Options can be granted for a maximum term of five years. Vesting is not required but may be set on an individual basis as determined by the board of directors.

No incentive stock options were granted during the period ended January 31, 2015.

During the period ended January 31, 2014, 80,000 options previously issued with a fair value of \$14,400 as share-based compensation expired. The previously recorded historical fair value of these options was reallocated to deficit.

During the year ended July 31, 2014, 235,000 options previously issued with a fair value of \$308,300 as share-based compensation expired or were cancelled. The previously recorded historical fair value of these options was reallocated to deficit.

NOTE 11 – SEGMENTED INFORMATION

The Company operates in business segments being the acquisition and exploration of exploration and evaluation assets in Canada as disclosed in Note 4. The total assets attributable to the geographical locations relate primarily to exploration and evaluation assets located in Canada and reclamation deposit receivable posted in Canada.

The Company is currently entering into two other business segments as disclosed in Note 1.

NOTE 12 – BASIC AND DILUTED EARNINGS (LOSS) PER SHARE

The calculation of basic and diluted earnings (loss) per share for the six months ended January 31, 2015 is based on the loss attributable to common shareholders of \$304,011 (2014 – \$227,693) and a weighted average number of common shares outstanding of 16,316,949 (2014 – 14,860,120).

NOTE 13 – FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Classification of financial instruments

Financial instruments measured at fair value are classified into one of three levels using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value (‘‘FV’’) hierarchy has the following levels:

Level 1- quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2- inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (ie. derived from prices); and

Level 3- inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company’s financial instruments consist of cash, receivables and accounts payable and accrued liabilities.

Fair values

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The fair value of cash is measured at Level 1 of the fair value hierarchy. The carrying value of receivables and accounts payable and accrued liabilities approximate their fair value because of the short term nature of these instruments.

Financial instrument risk exposure and risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company’s risk management framework. The Company considers the fluctuations of financial markets and seeks to minimize potential adverse effects on financial performance. The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management process.

NOTE 13 – FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Cont'd...)

Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligation. The Company's exposure to credit risk includes cash and receivables. The Company reduces its credit risk by maintaining its bank accounts at large international financial institutions. The Company's receivables consist primarily of tax receivables due from federal government agencies. The maximum exposure to credit risk is equal to the fair value or carrying value of the financial assets.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

Interest rate risk

The Company has cash balances. The Company's current policy is to invest excess cash in investment grade short-term demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit rating of its banks. The Company is marginally exposed to interest rate risk.

Foreign currency risk

The Company is not exposed to foreign currency risk.

Commodity price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

NOTE 14 – CAPITAL MANAGEMENT

The Company manages common shares, stock options, and share purchase warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets, or adjust the amount of cash on hand.

NOTE 14 – CAPITAL MANAGEMENT (Cont'd...)

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury on deposit in an interest bearing Canadian chartered bank account. Cash consists of cash on hand, balances with banks and investments in highly liquid instruments. The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents as the fair value approximates carrying value. There have been no changes to the Company's approach to capital management during the period ended January 31, 2015. The Company is not subject to externally imposed capital requirements.
