NOTE 1 - NATURE OF OPERATIONS AND GOING CONCERN

Deer Horn Capital Inc. ("Deer Horn" or the "Company") was incorporated under the *Business Corporations Act* (Canada) and continued into British Columbia pursuant to the *Business Corporations Act* (British Columbia, Canada). These condensed consolidated interim financial statements for the period ended January 31, 2016 include the accounts of Deer Horn and its wholly-owned subsidiary, Bodhi Tree Natural Market Corp., a company incorporated under the laws of British Columbia, Canada. The Company's head office and principal place of business is Suite 140, 1440 Garden Place, Delta, British Columbia, Canada. The Company is a reporting issuer in the provinces of British Columbia, Alberta and Ontario, Canada and trades on the Canadian Securities Exchange under the symbol "DHC".

The Company has newly entered the natural and organic retailing sector, and has no previous history in this sector. The Company will require additional financing to support the first retail location and to support its plan to further expand into this competitive retail space.

These condensed consolidated interim financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. Management believes that the Company's cash on hand at January 31, 2016, is not sufficient to finance the natural and organic retailing sector and operations through the next twelve months. The Company's ability to continue on a going concern basis depends on its ability to successfully raise additional financing for the substantial capital expenditures required to achieve planned principal operations, including the expansion of the retail sector. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company.

These factors may cast significant doubt upon the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the last annual consolidated financial statements as at and for the year ended July 31, 2015. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS").

The financial statements were authorized by the Audit Committee and Board of Directors of the Company on March 28, 2016.

Basis of measurement

The condensed consolidated interim financial statements are prepared on the historical cost basis, except the following assets and liabilities which are stated at their fair value: financial instruments classified as fair value through profit and loss ("FVTPL"), financial instruments classified as available for sale and cash settled stock-based compensation plans. Assets held for sale are valued at the lower of their carrying amount and fair value less costs to sell.

NOTE 2 – BASIS OF PRESENTATION *(continued)*

Basis of measurement *(continued)*

The significant accounting policies for the quarter are consistent with those disclosed in the audited annual financial statements for the year ended July 31, 2015. The accompanying interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended July 31, 2015.

Use of estimates and judgements

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended July 31, 2015

New standards, interpretations and amendments not yet effective:

A number of new standards, amendments to standards and interpretations are not yet effective as of January 31, 2016, and have not been applied in preparing these condensed consolidated interim financial statements. None of these are expected to have a material effect on the financial statements of the Company.

Effective for annual periods beginning on or after January 1, 2016

IAS 16 & IAS 38, *Clarification of Acceptable Methods of Depreciation and Amortization*

Amended to (i) clarify that the use of a revenue-based depreciation and amortization method is not appropriated, and (ii) provide a rebuttable presumption for intangible assets.

Effective for annual periods beginning on or after January 1, 2017

IFRS 15, *Revenue from Contracts with Customers:*

IFRS 15 is a new standard to establish principles for reporting the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity's contracts with customers. It provides a single model in order to depict the transfer of promised goods or services to customers. IFRS 15 supersedes IAS 11, *Construction Contracts*, IAS 18, *Revenue*, IFRIC 13, *Customer Loyalty Programs*, IFRIC 15, *Agreements for the Construction of Real Estate*, IFRIC 18, *Transfers of Assets from Customers*, and SIC-31, *Revenue – Barter Transactions involving Advertising Service*.

In May 2015, the International Accounting Standards Board ("IASB") proposed to defer the effective date to January 1, 2018. Early application of the Standard would still be permitted.

Effective for annual periods beginning on or after January 1, 2018

IFRS 9 is a new standard on financial instruments that will replace IAS 39*, Financial Instruments: Recognition and Measurement.*

IFRS 9 addresses classification and measurement of financial assets and financial liabilities as well as derecognition of financial instruments. IFRS 9 has two measurement categories for financial assets: amortized cost and fair value. All equity instruments are measured at fair value. A debt instrument is at amortized cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest. Otherwise it is at fair value through profit or loss.

NOTE 16 – COMMITMENTS

Leases

The Company leases certain of its retail stores, corporate offices, and other assets under operating lease arrangements. Substantially all of the retail store leases have renewal options for additional terms.

Determining whether a lease arrangement is classified as finance or operating requires judgment with respect to the fair value of the leased asset, the economic life of the lease, the discount rate and the allocation of leasehold interests between the land and building elements of property leases.

Net Profits Interest

On January 15, 2015, the Company entered into a net profits interest agreement ("NPI Agreement") with Mr. Lance Sutherland and The Sutherland Group ("Sutherland"). Pursuant to the NPI Agreement, the Company will pay to Sutherland a net profits interest ("NPI") in each retail organic grocery store that the Company owns and operates in the amount of 20% of the calculated net profits, or net deficiency, as the case may be, of each retail store. The retail NPI will be calculated on each retail store separately, and will be payable 160 days subsequent to the year-end of each store. Any carried-forward NPI deficiency from prior years will be accounted for as deductions from the then current years NPI calculation. This NPI does not confer any ownership rights to Sutherland. If a retail store is sold, the net proceeds or profit attributable to the Company on such sale will not be considered net profits for the purposes of the NPI calculation pursuant to the NPI Agreement.

In addition, and pursuant to the NPI Agreement, there will be no NPI calculated or payable to Sutherland until such time as the Company has been repaid any and all loans or other indebtedness from each retail store.

The NPI Agreement is assignable, in whole or in part at the discretion of Sutherland.

NOTE 17 – FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Classification of financial instruments

Financial instruments measured at fair value are classified into one of three levels using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value ("FV") hierarchy has the following levels:

Level 1- quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2- inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (ie. derived from prices); and

NOTE 17 – FINANCIAL INSTRUMENTS AND RISK MANAGEMENT *(continued)*

Level 3- inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company`s financial instruments consist of cash, receivables, deposits, accounts payable and accrued liabilities, wages payable, and due to related parties.

Fair values

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The fair value of cash is measured at Level 1 of the fair value hierarchy. The carrying value of cash, receivables, deposits, accounts payable and accrued liabilities, wages payable, and due to related parties approximate their fair value because of the short-term nature of these instruments.

Financial instrument risk exposure and risk management

All aspects of the Company's risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended July 31, 2015.

NOTE 18 – CAPITAL MANAGEMENT

The Company manages common shares, stock options, and share purchase warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue and expand the retail store operations and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets, or adjust the amount of cash on hand.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

In order to maximize ongoing operations and growth, the Company does not pay out dividends at this time. The Company's investment policy is to keep its cash treasury on deposit in an interest bearing Canadian chartered bank account. Cash consists of cash on hand, balances with banks and investments in highly liquid instruments, if any. The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents as the fair value approximates carrying value. There have been no changes to the Company's approach to capital management during the year ended July 31, 2015. The Company is not subject to externally imposed capital requirements.
