#### NOTES TO THE CONDENSEDCONSOLIDATED FINANCIAL STATEMENTS

Nine months ended June 30, 2012

(Unaudited – Prepared by Management)

#### 1. NATURE OF OPERATIONS

The Company was incorporated under the Canada Business Corporations Act on February 2, 2004 and commenced operations on that date. The Company's operations include the exploration and evaluation of resource property interests. On August 26, 2005, the Company's common shares were listed for trading on the TSX Venture Exchange ("TSX-V") (trading symbol JRC).

These consolidated financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of operations. Should the Company be unable to continue as a going concern significant adjustment to asset values may be necessary. The ability of the Company to continue as a going concern is dependent upon the company raising sufficient financing to complete exploration and development activities, the discovery of economically recoverable reserves, and upon future profitable operations or proceeds from disposition of resource property interests. Management is aware that significant material uncertainties exist, related to economic conditions that may impede the entity's ability to obtain additional equity capital on terms acceptable to management. This uncertainty poses a liquidity risk and may impede the Company's ability to continue as a going concern in the future.

The Company has been exploring and evaluating its mineral property interest which is located in Arizona, USA. The Company presently has no proven or probable reserves identified and on the basis of information to date, has not yet determined whether its mineral property contains economically recoverable resources.

#### 2. CONSOLIDATION

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Jerico Explorations Arizona, Inc. All inter-company balances and transactions have been eliminated upon consolidation.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These unaudited financial statements of the Company have been prepared in accordance with International Financial Reporting Standards for interim financial statements. They do not include all information and footnotes required by the International Financial Reporting Standards for complete financial statements. However, except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended September 30, 2011 included in the Company's annual audited financial statements as filed on SEDAR. These unaudited financial statements should be read in conjunction with those audited financial statements. In the opinion of management, all adjustments considered necessary for fair presentation, consisting solely of normal recurring adjustments, have been made.

On March 1, 2004, the Company entered into a Mining Property Lease and Option to Purchase Agreement for the right to acquire 100% of the Harmony claim block, comprising 9 claims in the Hualapai Mining District of Mohave County Arizona. The agreement required payments totaling US \$100,000, the last of which was completed in the year ended September 30, 2007. The vendor retains a 1% production royalty from net returns.

#### 5. RELATED PARTY TRANSACTIONS

Management continues to provide administrative services to the Company without monetary remuneration while the Company is in the initial exploration stage. The fair value of management and administrative services received by the Company was estimated to be \$1,500 per month, plus incidental expenses of \$2,000 for the year. The amount has been recorded in the statement of operations and deficit and included as an addition to reserves.

#### 6. SHARE CAPITAL (continued)

#### c) Escrow Shares

There are no common shares held in escrow as at June 30, 2011. During the year ended September 30, 2008, the then remaining 794,700 common shares were released from escrow.

#### d) Reserves

Transactions involving reserves were as follows:

	<u> </u>	\$
Balance, September 30, 2011 / 2010	184,146	138,235
Fair value of donated management and administrative services - Note 5 Fair value of exercised Stock Options - Note 6	15,000	15,000 (12,755)
Fair value of vested Stock Options - Note 6 Balance, June 30, 2012 - 2011	3,889 203,035	14,384 154,864

The Company has extended the expiry date of an aggregate of 375,000 previously granted incentive stock options from August 26, 2010 to August 26, 2015. The extended expiry date is ten years from the date of listing of the Company's common shares on the TSX-V. The options are held by directors and officers of the Company and are exercisable at a share price of \$0.20. The extension of the term of these options was determined to have an estimated fair value of \$31,888.

On February 22, 2009, the Company granted 100,000 stock options to a director of the Company. These options were determined to have an aggregate fair value of \$26,347 (\$0.26 per option) and vest over an 18 months period. On November 09, 2010, the Company granted a total of 125,000 stock options to two directors. These options were determined to have an aggregate fair value of \$42,555 (\$0.34 per option).

	<u>337,183</u>	<u>367,821</u>

#### 8. CAPITAL MANAGEMENT

The Company currently manages its capital structure and makes adjustments to it, based on cash resources expected to be available to the Company, in order to support the planned exploration and development of mineral property interests. Management has not established a quantitative capital structure, but will review on a regular basis the capital structure of the Company relative to the stage of development of the business entity.

The Company currently is dependent on externally provided equity financing to fund its exploration activities. In order to carry out planned exploration and development and fund administrative costs, the Company will have to raise additional amounts as currently needed through equity and related party advances. Management reviews the capital management approach on an ongoing basis.

There were no significant changes in the Company's approach to capital management for the quarter ended June 30, 2012 compared to the quarter ended June 30, 2011. The Company is not subject to externally imposed capital requirements.

#### 9. RISK MANAGEMENT

The Company is engaged primarily in the mineral exploration field and manages related industry risk issues directly. The Company is potentially at risk for environmental issues and fluctuations in commodity based market prices associated with resource property interests.

#### Financial Risk Management:

The Company is exposed in varying degrees to a variety of financial instrument related risks.

#### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Nine months ended June 30, 2012

(Unaudited – Prepared by Management)

#### 9. RISK MANAGEMENT (continued)

#### Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash accounts. Cash accounts are held with a major bank in Canada and a brokerage firm. This risk is managed by using a major bank and a brokerage that is a high credit quality financial institution as determined by rating agencies. The Company's secondary exposure to credit risk is on its receivables. This risk is minimal as receivables consist primarily of refundable government sales taxes.

#### Currency Risk

The Company's functional currency is the Canadian dollar. There is moderate foreign exchange risk to the Company as its resource property interests are located in the United States. The Company does not engage in any hedging activities to reduce its foreign exchange risk.

#### Interest Rate Risk

The Company's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates. The fair value of the Company's cash accounts is relatively unaffected by changes in short term interest rates. The income earned on these bank accounts is subject to the movements in interest rates.

#### Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company intends to achieve this by seeking additional funds in the short term to maintain sufficient cash balances and/or short-term investments.

The Company is not exposed to significant interest rate or credit concentration risk.
