Notes to the Condensed Interim Consolidated Financial Statements For the three months ended March 31, 2013 (*Unaudited - Expressed in Canadian dollars, unless otherwise stated*)

1. NATURE OF OPERATIONS

Maple Leaf Green World Inc. ("Maple Leaf"), is incorporated in Alberta, Canada, with common shares listed on the TSX Venture Exchange under the ticker symbol "MPE.V". The corporate office is located at 2916B 19 Street N.E., Calgary, Alberta, T2E 6Y9. In October 2012, Maple Leaf changed its name to Maple Leaf Green World Inc. from Maple Leaf Reforestation Inc.

Maple Leaf, along with its subsidiary in Inner Mongolia, the People's Republic of China ("China") (collectively, the "Company") is currently developing its eco-agriculture nursery businesss (reforestation operation). The Company is exploring opportunities for renewable energy businesses in China. To date, the Company has not generated significant revenue to cover expenditures, and therefore has incurred recurring losses since inception. Prior to January 31, 2011, the Company was devoting substantially all of its efforts to establishing businesses to grow and sell young tree seedlings, yellowhorn trees and alfalfa, and to produce and sell fertilizer in China. Effective January 31, 2011, through the termination of various management agreements, the Company discontinued its projects in feedstock and fertilizer operations.

These financial statements were approved by the Board of Directors of the Company on May 29, 2013.

2. BASIS OF PREPARATION

a) Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the IASB have been condensed or omitted and these unaudited condensed interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2012.

b) Basis of Measurement

These financial statements have been prepared on a historical cost basis except for derivative financial instruments, and financial instruments which are measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. All financial information in these financial statements is presented in Canadian dollars, except as otherwise stated.

The accounting policies applied in preparation of these financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended December 31, 2012, with the exception of the application of certain new and amended IFRSs issued by the ISAB, which were effective from January 1, 2013. Those new and revised IFRSs that had impacts on the Company's unaudited condensed interim financial statements are described in note 3 below.

MAPLE LEAF GREEN WORLD INC. Notes to the Condensed Interim Consolidated Financial Statements For the three months ended March 31, 2013 (*Unaudited - Expressed in Canadian dollars, unless otherwise stated*)

The Company's management makes judgements in its process of applying the Company's accounting policies in the preparation of its unaudited condensed interim consolidated financial statements. In addition, the preparation of the financial data requires that the Company's management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgements and estimates applied in the preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in note 4 to the Company's financial statements for the year ended December 31, 2012.

These financial statements have assumed that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation, and therefore, these financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. However, the Company has incurred significant losses and negative cash flow from operations in recent years, and therefore, ongoing operations of the Company are dependent upon its ability to receive continued financial support, complete public equity financings, or generate profitable operations in the future. In the event that Company is not able to secure additional financing and continue as a going concern, material adjustments would be required to the carrying value of assets and liabilities and the balance sheet classification used.

c) Basis of consolidation

These consolidated financial statements include the accounts of Maple Leaf and its wholly-owned subsidiary, Inner Mongolia Maple Leaf Forestry Co. Ltd. incorporated in China. All significant intercompany balances and transactions have been eliminated upon consolidation.

3. CHANGES IN ACCOUNTING POLICIES

The Company has applied the following new and revised IFRSs in these unaudited condensed interim financial statements.

IFRS 10, Consolidated Financial Statements, replaces the guidance on control and consolidation in IAS 27, Consolidated and Separate Financial Statements, and SIC-12, Consolidation – Special Purpose Entities. IFRS 10 requires consolidation of an investee only if the investor possesses power over the investee, has exposure to variable returns from its involvement with the investee and has the ability to use its power over the investee to affect its returns. Detailed guidance is provided on apply the definition of control. The accounting requirements of consolidation have remain largely consistent with IAS 27. The Company assessed its consolidation conclusions on January 1, 2013 and determined that the adoption of IFRS 10 did not result in any change in the consolidation status of its subsidiaries.

Notes to the Condensed Interim Consolidated Financial Statements For the three months ended March 31, 2013 (*Unaudited - Expressed in Canadian dollars, unless otherwise stated*)

IFRS 13, Fair value measurement, provides a single IFRS framework for measuring fair value and require disclosures about fair value measurement. The Standard defines fair value on the basis of exit price notion and use a fair value hierarchy, which results in a market-based, rather than entity-specific measurement. The Company adopted IFRS 13 on January 1, 2013 on a prospective basis. The adoption of IFRS 13 did not require any adjustments to the valuation techniques used by the Company to measure fair value and did not result in any measurement adjustments as at January 1, 2013.

The Company also adopted the amendments to *IAS 1, Presentation of Financial Statements*, effective January 1, 2013. These amendments required the Company to group other comprehensive income items by those that will be reclassified subsequently to profit or loss and those that will not be reclassified. These changes did not result in any adjustments to other comprehensive income or comprehensive income.

Total	\$	31,500	\$	34,922	

As of March 31, 2013, a total of \$94,500 (December 31, 2012 - \$63,000) payable to key management remained outstanding and is included in trade and other payables on the consolidated statements of financial position. The Company did not pay any long-term or termination benefits to its key management personnel. The Company's employment agreement with an officer would entitle that officer to \$90,000 upon termination.

10. CAPITAL DISCLOSURES

The Company's objectives of capital management are to provide returns for shareholders, and to comply with any externally imposed capital requirements, if any, to safeguard the entity's ability to support the Company's normal operating requirements on an ongoing basis and continue to develop and expand the reforestation projects in China. Currently, there is no externally imposed capital requirement on the Company.

The capital of the Company consists of short term loans, convertible debentures and the items included in shareholders' equity. The Board of Directors does not establish a quantitative return on capital criteria for management, but promotes year-over-year sustainable earnings growth targets. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets.

11. FINANCIAL INSTRUMENTS

Financial instruments are agreements between two parties that result in promises to pay or receive cash or equity instruments. The Company classifies its financial instruments as follows: cash is classified as a financial asset at FVTPL, and trade payables are classified as other financial liabilities, which are measured at amortized cost. The carrying values of these instruments approximate their fair values due to their short term to maturity.

Notes to the Condensed Interim Consolidated Financial Statements For the three months ended March 31, 2013 (*Unaudited - Expressed in Canadian dollars, unless otherwise stated*)

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Cash is placed with major financial institutions. The Company's concentration of credit risk for cash and maximum exposure thereto is \$14,089 (December 31, 2012 - \$12,226).

b) Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. At March 31, 2013, the Company has \$14,089 (December 31, 2012 - \$12,226) of cash to settle current liabilities with the following due dates: trade and other payables of \$473,382 (December 31, 2012 - \$419,982) are due within three months; convertible debentures of \$196,488 (December 31, 2012 - \$141,366) are due within six months; short-term loans of \$57,168 (December 31, 2012 - \$104,339) and deposits of \$10,289 (December 31, 2012 - \$11,146) are due on demand.

c) Market risk

The significant market risks to which the Company is exposed are interest rate risk and currency risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in market interest rates. The Company's cash consists of cash held in bank accounts that earn interest at variable rates. Due to the short-term nature of this financial instrument, fluctuations in market rates of interest do not have a significant impact on the estimated fair value or future cash flows.

(ii) Currency risk

The Company is exposed to currency risk to the extent that expenditures incurred or funds received and balances maintained by the Company are denominated in CAD. The Company does not manage currency risk through hedging or other currency management tools. The Company's exposure to currency risk is limited to the net investment in the subsidiary.

Notes to the Condensed Interim Consolidated Financial Statements For the three months ended March 31, 2013 (*Unaudited - Expressed in Canadian dollars, unless otherwise stated*)

As at March 31, 2013, with other variables unchanged, a 1% fluctuation of the RMB against the CAD would affect comprehensive income by approximately \$1,087 (December 31, 2012 - \$850).

(iii) Other price risk

Other price risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or currency risk. The Company is not exposed to other price risk.

12. SIGNIFICANT CUSTOMERS

During the three months ended March 31, 2013 and 2012, the Company only had one customer that accounted for 100% of total revenues.

13. SEGMENT INFORMATION

a) Segments

Prior to January 31, 2011, the Company operates in three reportable segments in China, being in reforestation, feedstock and fertilizer industries, and in two geographic segments: Canada and China.

Upon the discontinuance of its feedstock and fertilizer operations, the Company only has one reportable segment, being the greenhouse eco-agriculture industry in China. Geographic segment information is summarized as follows:

14. COMMITMENTS

a) On January 1, 2006, the Company entered into a land lease agreement in Inner Mongolia in China for a term of 50 years ending December 31, 2056. The Company is required to pay an aggregate of \$153,520 (RMB 950,000) for the whole lease term. The payments are to be made over the first 10 years and a summary of remaining payments are due as follows:

Year	Annual Payments
2013	\$12,928
2014	12,928
2015	3,232
Total	\$29,088

The annual lease expense is \$3,070, which is based on the aggregate value amortized over the 50-year period.

b) The Company has a lease with respect to its Calgary head office. The lease is for a term of three years, from November 1, 2011 to October 31, 2014, and the remaining lease payment of \$80,300 over the next two years is as follows:

Year	Annual Payments
2013	\$35,966
2014	36,500
Total	\$72,466

The Company has currently sub-leased some office space to offset the costs of the lease. Annual revenue from the sub-lease is estimated to be \$10,410.

- c) The Company is committed to pay a management fee to an officer in the amount of \$90,000 annually.
- d) The Company has a lease with respect to its head office location. The lease is for a term of five years, from October 2, 2008 to September 30, 2013. As at March 31 the remaining lease payment amount is \$21,519.

Notes to the Condensed Interim Consolidated Financial Statements For the three months ended March 31, 2013 (*Unaudited - Expressed in Canadian dollars, unless otherwise stated*)

The Company is subleasing the office space to various parties to reduce its monthly operating cost.

15. CONTINGENCY

The Company was in dispute with a former joint venture partner with respect to a previously planned joint project. The former joint venture partner claimed that the Company had breached its obligations pursuant to their previous joint venture agreement, and indicated that it would like to have the matter heard by an arbitrator. The former joint venture partner is seeking compensation of approximately \$75,000. Management of the Company is of the opinion that the former joint venture partner's claim has no merit and has not recorded any provision.

16. COMPARATIVE AMOUNTS
