

Maple Leaf to Pursue Licence to Grow Medical Marijuana in Canada

(TSX-V: MGW)

For Immediate Release

March 25, 2014 - \$0.03

Maple Leaf Green World (MGW-V) ("**Maple Leaf**" or the "**Company**") announces that it has engaged a professional consulting group to advise on opportunities to obtain an MMPR License (Marijuana for Medical Purposes Regulation License) from Health Canada and follow on business opportunities.

Maple Leaf has determined that given the knowledge and years of experience that its personnel have in greenhouse operations, and combined with its soil enhancement technology partnership, it is well positioned to consider licensed business opportunities in Canada to grow top quality marijuana and to pursue in the medical marijuana business.

Maple Leaf's objective is to acquire requisite licences and facilities to grow pesticide free, top grade marijuana from contamination-free soil. Management believes that the knowledge and expertise accumulated through years of experience in greenhouse operations combined with the soil enhancement technology, provides a solid basis of experience for the Company.

Health Canada estimates that the medical marijuana market could be worth as much as \$1.3 billion Cdn by 2024. Analysts and industry experts speculate that the new commercial marijuana business could reach \$2.6 billion by 2016. Medical marijuana is currently legal in 20 U.S. states and several other states are considering both medical and recreational legalization of marijuana which provides an opportunity for quality Canadian growers to expand south.

The Company has not yet entered into any agreements in connection with the operation of a medical marijuana business.

There is no assurance that the Company will be qualified to seek requisite licences and if so, will be able to obtain such licences. Additionally, there is no assurance that the Company will be able to acquire the required assets to become a grower of medical marijuana, if licensed to do so.

Corporate Update

Maple Leaf has three ongoing projects in China; namely a soil enhancement program with Lin Ze Bo Tech Co. Ltd in Ordo, Inner Mongolia (announced on May 13, 2013), a vegetable greenhouse plan agreed to with Taiping, Inner Mongolia (announced on Nov. 5, 2012 and Sept. 16, 2013) and a peat moss distribution centre in Huizhou, Guangdong (announced on Sept. 16, 2013).

Maple Leaf intends to continue to review business opportunities, primarily in Canada and China.

About Maple Leaf Green World Inc.

Maple Leaf is a Canadian company that focuses in the agricultural/environmental industry with two main areas of activity:

1. Eco-Agriculture - it operates businesses in Inner Mongolia, China that are focused on growing value-added agricultural and nursery products, including supply of requisite input products and nursery operations.
2. Renewable Energy - pursuit of renewable energy projects globally, including sale and export of Yellowhorn grown in China to produce oil from such seeds for the manufacture of bio-diesel fuel and premium healthy cooking oil.
