

Maple Leaf Retains Aslan Ross Consulting Inc. (Mr. Ivan Ross Vrána) as Advisor

MAPLE LEAF GREEN WORLD INC.

(TSX-V: MGW)

For Immediate Release

June 9, 2014 - \$0.085

Maple Leaf Green World (MGW-V) ("**Maple Leaf**" or the "**Company**") announces the Company has retained Aslan Ross Consulting Inc. and its principal; Mr. Ivan Ross Vrána as advisor to assist the Company in becoming a Licensed Producer under Canada's *Marihuana for Medical Purposes Regulations* ("MMPR") and establishing its related operations.

In 2008, Mr. Vrána worked with Health Canada leading the policy team that developed the MMPR program that replaced the prior MMAR program. In 2012, he left Health Canada to start Aslan Ross Consulting, which helps organizations formulate plans and interacts with the Canadian government.

Mr. Vrána will consult to the Company in connection with its proposed MMPR application; provide insights and advice about strategy; develop communication strategies; interact with government officials; provide intelligence regarding the state of the application with Health Canada; and provide general information about the state of the MMPR in Canada, particularly given the recent court actions and uncertainties.

"We are excited to be working with one of the pioneers of Health Canada's MMPR program from the start," said Maple Leaf Green World President and CEO Raymond Lai. "Mr. Vrána's expertise will prove invaluable in helping us prepare applications, respond to concerns, and ultimately secure an MMPR license in a timely matter and ultimately generate long-term value for our shareholders."

There is no assurance that the Company will be qualified to obtain requisite licences and if so, will be able to obtain regulatory approvals for such licences. Additionally, there is no assurance that the Company will be able to acquire the required financing, assets or personnel to become a grower of medical marijuana, if licensed to do so.

About Maple Leaf Green World Inc.

Maple Leaf is a Canadian company that focuses in the agricultural/environmental industry with three main areas of activity:

1. Eco-Agriculture - it pursues several projects around the world. In China, it is focused on growing value-added tree seedlings and nursery products that assist with anti-desertification.
2. Renewable Energy - it pursues various renewable energy projects around the world, including Yellowhorn in China which would provide valuable Yellowhorn seeds and ultimately oil from such seeds for the manufacture of bio-diesel fuel and premium healthy cooking oil.
3. Canadian MMPR - It pursues opportunities within the medical cannabis industry. Through an agreement with Woodmere Nursery Ltd., it's currently seeking a Canadian MMPR licensed producer status to grow medical cannabis in Canada for domestic consumption and export to approved countries.

Neither the TSX Venture Exchange or its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Certain statements in this news release including (i) statements that may contain words such as "anticipate", "could", "expect", "seek", "may", "intend", "will", "believe", "should", "project", "forecast", "plan" and similar expressions, including the negatives thereof, (ii) statements that are based on current expectations and estimates about the markets in which Maple Leaf operates and (iii) statements of belief, intentions and expectations about developments, results and events that will or may occur in the future, constitute "forward-looking statements" and are based on certain assumptions and analysis made by Maple Leaf. Forward-looking statements in this news release include, but are not limited to, statements with respect to future capital expenditures, including the amount, nature and timing thereof; other development trends within the agricultural industry, and status of, and ability to capitalize on, opportunities available to the Company and review business strategy; expansion and growth of Maple Leaf's business and operations and other such matters. Such forward-looking statements are subject to important risks and uncertainties, which are difficult to predict and that may affect Maple Leaf's operations, including, but are not limited to: the impact of general economic conditions; industry conditions; available equity or debt financing; government and regulatory developments including availability of requisite licences; product supply and demand; competition; and Maple Leaf's ability to attract and retain qualified personnel.

Maple Leaf's actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do transpire or occur, what benefits Maple Leaf will derive there from.

Maple Leaf maintains a forward-looking statement database which is reviewed by management on a regular basis to ensure that no material change has occurred with respect to such forecasts. The Company will publicly disclose such material changes to its forward-looking statements as soon as they are known to management.
