### **1. NATURE OF OPERATIONS**

Maple Leaf Green World Inc. ("Maple Leaf" or the "Company"), is incorporated in Alberta, Canada with common shares listed on the TSX Venture Exchange under the ticker symbol MGW.V. The corporate office is located at 2916B – 19 Street NE, Calgary, Alberta. In October 2012, Maple Leaf changed its name to Maple Leaf Green World Inc. from Maple Leaf Reforestation Inc.

Maple Leaf is currently exploring opportunities for its eco-agriculture nursery business, including medical marijuana in Canada and its renewable energy business in China. To date, the Company has not yet generated significant revenue to cover expenditures, and therefore has incurred recurring losses since inception.

These financial statements were approved and authorized for issue by the Board of Directors of the Company on August 27, 2014.

### 2. BASIS OF PREPARATION

#### a) Statement of Compliance

These unaudited condensed interim financial statements have been prepared in accordance with IAS 34 – *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the IASB have been condensed or omitted and these unaudited condensed interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2013.

#### b) Basis of Measurement

These unaudited condensed interim financial statements have been prepared on a historical basis, except for financial instruments classified as available-for-sale ("AFS") and fair value through profit or loss ("FVTPL"). In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. All financial information in these consolidated financial statements is presented in Canadian dollars, except as otherwise stated.

The accounting policies applied in preparation of these financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2013, with the exception of the application of a new IFRS issued by the ISAB, which was effective from January 1, 2014 and described in note 3 below.

The Company's management makes judgments in its process of applying the Company's accounting policies in the preparation of its unaudited condensed interim consolidated

Notes to the Condensed Interim Financial Statements (Unaudited - Expressed in Canadian dollars, unless otherwise stated)

financial statements. In addition, the preparation of the financial data requires that the Company's management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in note 5 to the Company's financial statements for the year ended December 31, 2013.

These financial statements have assumed that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation, and therefore, these financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. However, several adverse conditions cast substantial doubt on the validity of this assumption. The Company has incurred significant operating losses since inception, has limited financial resources, and no significant sources of positive operating cash flow. As at June 30, 2014, the Company has a deficit of \$13,471,232 (December 31, 2013 - \$13,355,570) and a working capital deficiency of \$382,786 (December 31, 2013 - \$267,939). Management recognizes that the ability of the Company to carry out its planned business obligations depends on its ability to raise adequate financing from shareholders and other investors, and achieving profitable operations in the future. If the Company is not able to raise additional funds, there would be significant doubt that the Company would be able to continue as a going concern and operations may have to be curtailed. There is no assurance that the Company will be able to obtain adequate financing. The Company is actively trying to raise other sources of financing.

#### c) Comparable figures

The comparable figures of these unaudited condensed interim financial included the accounts of Maple Leaf and its former wholly-owned Chinese subsidiary, Inner Mongolia Maple Leaf Forestry Co. Ltd., which the Company disposed to a third party in 2013.

### 3. CHANGES IN ACCOUNTING POLICIES

The Company has applied **IFRIC 21**, **Levies** ("**IFRIC 21**"), effective January 1, 2014. IFRIC 21 provides guidance on the accounting for a liability to pay a levy, if that liability is within the scope of IAS 37, Provisions, Contingent Liabilities and Contingent Assets. Levies are imposed by governments in accordance with legislation and do not include income taxes, which are accounted for under IAS 12, Income Taxes or fines or other penalties imposed for breaches of legislation. The interpretation was issued to address diversity in practice around

Notes to the Condensed Interim Financial Statements (Unaudited - Expressed in Canadian dollars, unless otherwise stated)

when the liability to pay a levy is recognized. An example of a common levy is property taxes.

IFRIC 21 defines an obligating event as the activity that triggers the payment of the levy, as identified by legislation. A liability to pay a levy is recognized at the date of the obligating event, which may be at a point in time or over a period of time. The fact that an entity is economically compelled to continue to operate in the future, or prepares its financial statements on a going concern basis, does not create an obligation to pay a levy that will arise in a future period as a result of continuing to operate.

The adoption of IFRIC 21 did not affect our financial results or disclosures as our analysis determined that no changes were required to our existing accounting treatment of levies.

### 4. PROPERTY, PLANT AND EQUIPMENT

### 5. SHORT-TERM LOANS

Notes to the Condensed Interim Financial Statements (Unaudited - Expressed in Canadian dollars, unless otherwise stated)

The Company advanced funds from officers and directors of the Company or individuals related to the Company through these officers and directors for working capital expenditures of the Company. During the six months ended June 30, 2014, a total of \$965 loans were repaid to a director and officer. As at June 30, 2014, the outstanding balance of short-term loan is \$nil (December 31, 2013 - \$965).

#### 6. CONVERTIBLE DEBENTURES

During the period ended June 30, 2014, the Company reached agreements with all convertible debenture holders to retire all convertible debentures at significant discounted amounted. A total of \$163,500 cash was paid to holders, and a total of \$47,212 was forgiven and recorded as a gain on debt settlement on the statements of comprehensive loss. As at June 30, 2014, the carrying value and fair value of the convertible debentures were \$nil (December 31, 2013 - \$210,712).

### 7. SHARE CAPITAL

2,300,000	-	-	2,300,000	\$	0.100	April 8, 2018

The following is a summary of warrant transactions:

#### 8. RELATED PARTY TRANSACTIONS

Related party transactions are in the normal course of operations and are measured at the amount of consideration established and agreed by the related parties. Related party transactions included short term loans from directors and officers, which are disclosed in Note 5, and the compensation to key management disclosed below.

The Company has identified its directors and executive staff as key management personnel. Compensation to key management, including fees paid to companies controlled by directors and officers for their services provided, is follows:

	 Three months ende	ed June 30,	_	Six months end	ied June 30,
	2014	2013		2014	2013
Management fee, consulting fee, and wages	\$ 31,500 \$	31,500	\$	63,000 \$	63,000
Total	\$ 31,500 \$	31,500	\$	63,000 \$	63,000

As of June 30, 2014, a total of \$141,406 (December 31, 2013 - \$140,357) payable to key management remained outstanding and is included in trade and other payables on the statements of financial position. Amounts are non-interest bearing and are due on demand. The Company did not pay any long-term or termination benefits to its key management personnel. The Company's employment agreement with an officer would entitle that officer to \$90,000 upon termination.

Notes to the Condensed Interim Financial Statements (Unaudited - Expressed in Canadian dollars, unless otherwise stated)

#### 9. FAIR VALUE MEASUREMNETS

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment, and therefore, cannot be determined with precision. Changes in assumptions could significantly affect estimates. Management assessed that the fair value of cash and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

Fair values of the Company's short-term loan and convertible debentures are determined by using discounted cash flow method using discount rates that reflect the Company's borrowing rate as at the end of the reporting period.

The following table provides the quantitative disclosures of the fair value measurement hierarchy of the Company's assets and liabilities.

			Jun	ne 30, 2014		
	Qu	oted prices in	Si	gnificant	S	Significant

Short term loans		-		-		(965)
Convertible deventures		-		-		(210,712)

#### 10. FINANCIAL INSTRUMENTS

Financial instruments are agreements between two parties that result in promises to pay or receive cash or equity instruments. The Company classifies its financial instruments as follows: cash is classified as a financial asset at FVTPL, and trade payables are classified as other financial liabilities, which are measured at amortized cost. The carrying values of these instruments approximate their fair values due to their short term to maturity.

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

#### a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Cash is placed with major financial institutions. The Company's concentration of credit risk for cash and maximum exposure thereto is \$59,235 (December 31, 2013 - \$363,618).

#### b) Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquid funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. At June 30, 2014, the Company has \$59,235 (December 31, 2013 - \$363,618) of cash to settle current liabilities with the following due dates: trade and other payables of \$408,186 (December 31, 2013 - \$411,761) are due within three months; convertible debentures of \$nil (December 31, 2013 - \$210,712) are due within six months; short-term loans of \$nil (December 31, 2013 - \$965) and deposits of \$36,146 (December 31, 2013 - \$11,146) are due on demand.

#### c) Market risk

The significant market risks to which the Company is exposed are interest rate risk and currency risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in market interest rates. The Company's cash consists of cash held in bank accounts that earn interest at variable rates. Due to the short-term nature of this financial

Notes to the Condensed Interim Financial Statements (Unaudited - Expressed in Canadian dollars, unless otherwise stated)

instrument, fluctuations in market rates of interest do not have a significant impact on the estimated fair value or future cash flows.

(ii) Currency risk

The Company is exposed to currency risk to the extent that expenditures incurred or funds received and balances maintained by the Company are denominated in Canadian dollar. The Company does not manage currency risk through hedging or other currency management tools. The Company's exposure to currency risk is limited to the cash held in US dollar.

As at June 30, 2014, the Company's exposure to currency risk is limited to the cash held in US dollars, but with other variables unchanged, the impact on comprehensive income arising from 1% fluctuation of US dollar against Canadian dollar was nominal.

(iii) Other price risk

Other price risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or currency risk. The Company is not exposed to other price risk.

#### **11. SEGMENT INFORMATION**

The Company has one reportable segment and one geographic segment, being ecoagriculture nursery business in Canada, with no significant customer.

#### **12. COMMITMENTS**

The Company has a lease with respect to its Calgary head office. The lease is for a term of three years, from November 1, 2011 to October 31, 2014, and the remaining lease payment of \$10,972 over the remaining period in 2014.

The Company has currently sub-leased some office space to offset the costs of the lease. Annual revenue from the sub-lease is estimated to be \$20,000.

#### **13. CONTINGENCY**

The Company is in dispute with a third party ("plaintiff") with respect to unpaid professional fees. The plaintiff has filed a civil claim and is seeking payment of approximately \$34,000. Management of the Company has filed a counterclaim and has accrued the contingent amount in trade and other payables.

Notes to the Condensed Interim Financial Statements (Unaudited - Expressed in Canadian dollars, unless otherwise stated)

#### 14. SUBSEQUENT EVENTS

Subsequent to June 30, 2014, the Company announced to close a private placement to raise gross proceeds of \$365,000 by issuing 3,650,000 units at a price of \$0.10 per unit. Each unit consists of one common share and one common share purchase warrant, which is exercisable at a price of \$0.15 per share for a period of two years. Finder's fee of \$15,750 will be paid related to this private placement, and the closing is subject to the approval of Toronto Stock Venture Exchange ("TSX.V").

Also, in July 2014, the Company submitted an application under the Marijuana for Medical Purposes Regulation for licensed producer status and has received a written confirmation of receipt from Health Canada on its application.
