

MAPLE LEAF BEGINS TRADING ON FRANKFURT STOCK EXCHANGE

MAPLE LEAF GREEN WORLD INC.

(TSX-V: MGW)

For Immediate Release

March 27, 2015 - \$0.055

CALGARY, ALBERTA - Maple Leaf Green World (MGW-V) ("**Maple Leaf**" or the "**Company**") is pleased to announce that the Company has obtained the necessary approval to list its common shares on the Frankfurt Stock Exchange (FWB) under the ticker symbol **4HV** effective March 30, 2015. The Frankfurt Stock Exchange is considered to be the world's third-largest stock exchange, after the Nasdaq and the New York Stock Exchange.

In conjunction with the new listing of its shares, the Company is constructing a German website to help European investors understand more about the Company's medical marijuana projects in Canada and the United States.

The Company believes the dual listing will increase its exposure to an international investor audience, which will help it complete its previously announced \$500,000 private placement financing as soon as possible. The net proceeds of this unit offering will be used, among other things, to commence construction of its California Medical Marijuana project.

Raymond Lai, President and Chief Executive Officer, commented: "This dual listing in Germany will enable Maple Leaf to attract new shareholders and raise its visibility among international investors, especially when the interest in medical marijuana is very high in Europe now. We look forward to having a new forum to tell our story to an international audience."

About Maple Leaf Green World Inc.

Maple Leaf is a Canadian company that focuses in the agricultural/environmental industry with four main areas of activity:

1. Canadian MMPR - It pursues opportunities within the medical cannabis industry. If and when a MMPR license is obtained and through an agreement to lease a greenhouse facility with Woodmere Nursery Ltd., it will become a Canadian producer. It is currently

seeking a Canadian MMPR licensed producer status to grow medical cannabis in Canada for domestic consumption and export to approved countries.

2. California Project – It pursues opportunities within the medical cannabis industry in various States that have legalized marijuana. It is currently joint ventured with a California non-profit collective to set up a growing facility.
3. Eco-Agriculture - it pursues several projects around the world. In China, it is focused on growing value-added tree seedlings and nursery products that assist with anti-desertification.
4. Renewable Energy - it pursues various renewable energy projects around the world, including Yellowhorn in China which would provide valuable Yellowhorn seeds and ultimately oil from such seeds for the manufacture of bio-diesel fuel and premium healthy cooking oil.

Neither the TSX Venture Exchange or its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Certain statements in this news release including (i) statements that may contain words such as "anticipate", "could", "expect", "seek", "may", "intend", "will", "believe", "should", "project", "forecast", "plan" and similar expressions, including the negatives thereof, (ii) statements that are based on current expectations and estimates about the markets in which Maple Leaf operates and (iii) statements of belief, intentions and expectations about developments, results and events that will or may occur in the future, constitute "forward-looking statements" and are based on certain assumptions and analysis made by Maple Leaf. There is no assurance that sufficient financing can be raised or that permits will be available to allow the Company to carry out its current projects on a timely basis.

Forward-looking statements in this news release include, but are not limited to, statements with respect to future capital expenditures, including the amount, nature and timing thereof; other development trends within the agricultural industry (and in particular, the medical marijuana business), and the status of, and ability to capitalize on, opportunities available to the Company as well as the business strategy; expansion and growth of Maple Leaf's business and operations and other such matters. Such forward-looking statements are subject to important risks and uncertainties, which are difficult to predict and may affect Maple Leaf's operations, including, but not limited to: the impact of general economic conditions; industry conditions; the availability of equity or debt financing; government and regulatory developments including availability of requisite licenses; product supply and demand; competition; and Maple Leaf's ability to attract and retain qualified personnel. Maple Leaf's actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will occur, or if any of them do occur, what benefits Maple Leaf will derive therefrom.
