

## Maple Leaf Green World Inc. - Update on California MJ Project

(TSX-V: MGW)

March 1, 2016 - \$0.08

CALGARY, March 2, 2016 /CNW/ - Maple Leaf Green World (MGW-V) ("Maple Leaf" or the "Company") announces that the inspection from the county office has been completed satisfactorily and permission has been granted to finish off the installation. The tent cover will be installed and all necessary equipment and growing apparatus will be moved in. The growing operation has started in a rented greenhouse, whereas the seedlings have been flourishing and will be moved into the new greenhouse. Company management will visit the site within the next 2 weeks to witness the facility becoming fully operational.

The Company plans to install an additional greenhouse for the flowering process in order to double the capacity and achieve the optimal economy scale with 1 propagation greenhouse serving 2 flowering greenhouses. A dispensary in California has already committed to purchasing all the product produced from this facility this year.

Photos of the facility's latest development including the erecting the frames and the seedlings growing in the rented greenhouse have been posted in the Company's website. Please visit the [www.mlgreenworld.com](http://www.mlgreenworld.com).

### About Maple Leaf Green World Inc.

Maple Leaf is a Canadian company that focuses in the agricultural/environmental industry with four main areas of activity:

1. Canadian MMPR - It pursues opportunities within the medical cannabis industry. If and when a MMPR license is obtained and through an agreement to lease a greenhouse facility with Woodmere Nursery Ltd., it will become a Canadian producer. It is currently seeking Canadian MMPR licensed producer status to grow medical cannabis in Canada for domestic consumption and export to approved countries.
2. California Project - It pursues opportunities within the medical cannabis industry in various States that have legalized marijuana. It is currently in a joint venture with a California non-profit collective to set up a growing facility.
3. Eco-Agriculture - it pursues several projects around the world. In China, it is focused on growing value-added tree seedlings and nursery products that assist with anti-desertification.
4. Renewable Energy - it pursues various renewable energy projects around the world, including Yellowhorn in China which would provide valuable Yellowhorn seeds and ultimately oil from such seeds for the manufacture of bio-diesel fuel and premium healthy cooking oil.
