

Expansion Into San Diego, California - Maple Leaf Green World Inc.

(TSX-V: MGW)

CALGARY, Oct. 25, 2016 /CNW/ - Maple Leaf Green World (MGW-V) ("**Maple Leaf**" or the "**Company**") announces that it has retained the services of a San Diego based law firm to assist the Company in obtaining a cultivation license from the San Diego County under the MCRSA (Medical Cannabis Regulation and Safety Act) and/or AUMA (Adult Use of Marijuana Act). This law firm will also assist the Company with the identification of land parcels in San Diego County which have a higher likelihood of satisfying applicable licensing requirements under the MCRSA and/or AUMA. Currently, Maple Leaf is reviewing several parcels of land to determine their suitability for the Company's plans in San Diego County.

The sale of cannabis in San Diego County was approved two years ago and the cultivation of cannabis was legalized in early 2016. It is estimated that over 100,000 patients under the MCRSA reside in San Diego County, which is also a popular international tourist destination. These factors, together with California's upcoming vote on AUMA in the November election, present the Company with a great opportunity to advance its expansion plans in California.

"While the harvesting of our first 2 crops is continuing at our California greenhouse facility and our investigation of licensing opportunities in Nevada is progressing, the prospect of acquiring valuable land in the San Diego area before November 8th is another boost for our expansion plans in California," said Raymond Lai, President & C.E.O. of Maple Leaf.

In addition, the shares for debt settlement announced on September 29, 2016 have received final approval from TSX Venture exchange. Under the terms of the settlement, the Company will issue an aggregate of 270,834 shares from treasury, which will be subject to a four month hold period.

About Maple Leaf Green World Inc.

Maple Leaf is a Canadian company that focuses in the agricultural/environmental industry with four main areas of activity:

1. Canadian MMPR - It pursues opportunities within the medical cannabis industry. If and when a MMPR license is obtained and through an agreement to lease a greenhouse facility with Woodmere Nursery Ltd., it will become a Canadian producer. It is currently seeking Canadian MMPR licensed producer status to grow medical cannabis in Canada for domestic consumption and export to approved countries.
2. California Project – It pursues opportunities within the medical cannabis industry in various States that have legalized marijuana. It is currently in a joint venture with a California non-profit collective.
3. Eco-Agriculture - it pursues several projects around the world. In China, it is focused on growing value-added tree seedlings and nursery products that assist with anti- desertification.

Neither the TSX Venture Exchange or its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
