# Maple Leaf Receives Positive Distance Study From City of Henderson

## (TSX-V: MGW, OTCQB: MGWFF) February 22, 2017 - \$0.68

CALGARY, Feb. 22, 2017 /CNW/ - Maple Leaf Green World (MGW-V) ("**Maple Leaf**" or the "**Company**") is pleased to announce that the Company has received a Distance Separation Analysis ("**DSA**") from the City of Henderson with respect to Maple Leaf's proposed site for a Medical Marijuana Establishment–Cultivation Facility. The proposed site (see news release dated January 30, 2017) was reviewed by City of Henderson staff for compliance with the City of Henderson Title 19 - Medical Marijuana Establishment distance separation requirements as listed in Table 19.5.5-2 of the Henderson Development Code. Based on the findings in the DSA, the proposed site satisfies the minimum separation standards for protected uses and would be suitable for a Medical Marijuana Establishment – Cultivation Facility within the City's boundaries. The proposed site meets the minimum buffer distance from protected uses as defined in NRS 453A and Chapter 19 of the City of Henderson Municipal Code.

The DSA is the most important step in transferring the existing cultivation permit held by BioNeva Innovations of Henderson, LLC (the "**Permit**") to the proposed site. As the DSA has been completed, the next steps will require the Company to submit its building plans to the City of Henderson for approval of a Conditional Use Permit ("**CUP**"). If the Company is successful in obtaining a CUP, it can begin construction on the marijuana cultivation facility on the proposed site.

With the DSA in hand, the Company will now proceed to complete the purchase of the proposed site and to finalize its acquisition of the Permit, through the purchase of 100% of the shares of BioNeva.

"There are only 10 permitted cultivation facilities serving about 27 dispensaries and 6 production licensees in the City of Henderson. Maple Leaf is well on its way to becoming the 11<sup>th</sup> permitted cultivator in this area (not includes Las Vegas) and we believe attaining this status will add significant value to the Company" said Raymond Lai, President & C.E.O. of Maple Leaf.

## Company's 1st Shareholder Reception

Maple Leaf Green World held its first shareholder reception on the evening of February 4, 2017. The event was a great success, with over 150 people in attendance. The Company's management team (including its project managers and chief growers from all three of its existing marijuana projects in Canada and the United States) was in attendance. The video of the event along with an interview with Bubba Kush will be available to view on our website on February 23, 2017.

#### About Maple Leaf Green World Inc.

Maple Leaf Green World Inc. is a public Canadian company that focuses on the cannabis industry in North America. With over 10 years of extensive greenhouse management experience, it applies its eco- agriculture knowledge and cultivation technology to produce contaminant -free organic cannabis products. The Company is currently involved in three cannabis projects:

- 1. Canada The Company has applied for an ACMPR license for an 80,000 sq ft greenhouse complex in B.C. in August 2014 and is now in Stage 5 (Review) with Health Canada.
- California The Company is in a joint venture with a Non- Profit Co-Op to cultivate cannabis for its members. The Company owns 20 acres of land and has 2 greenhouses in production since September 2016. The site on which the joint venture operates has capacity for additional greenhouses. Maple Leaf is also applying for a cultivation license in the San Diego area.
- 3. Nevada The Company is in the process of acquiring a cultivation permit for a 33,500 sq ft facility from an existing licensee and has plans for a facility operating in the city of Henderson, 15 miles from Las Vegas.

Maple Leafs long-term objective is to produce cannabis oil and export its products to approved countries.
