#### 1. NATURE OF OPERATIONS

Maple Leaf Green World Inc. ("Maple Leaf" or the "Company") is incorporated in Alberta, Canada, with common shares listed on the Aequitas NEO Exchange under the ticker symbol MGW. The corporate office is located at 500, 1716 – 16 Ave NW, Calgary, Alberta, T2M 0L7. In October 2012, Maple Leaf changed its name to Maple Leaf Green World Inc. from Maple Leaf Reforestation Inc.

In order to develop its medical marijuana/cannabis business in the United States of America ("USA"), the Company incorporated a wholly-owned subsidiary, Golden State Green World LLC ("Golden State"), in California, USA in 2015. In March 2017, the Company incorporated another wholly-owned subsidiary, SSGW LLC ("SSGW"), in Nevada, USA.

Maple Leaf and its subsidiaries focus on the cannabis industry in North America. The Company operates or funds three cannabis projects, in British Columbia, California, and Nevada. To date, the Company has not yet generated material revenue to cover expenditures, and therefore it has incurred losses since inception.

These unaudited condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors of the Company on August 13, 2018.

#### 2. GOING CONCERN

These unaudited condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. As of June 30, 2018, The Company had an accumulated deficit of \$24,904,144 (December 31, 2017 - \$17,616,278), incurred losses of \$7,147,507 (2016 - \$169,709), and cash flows from operations of \$480,561, (2016 - (\$884,852)) for the period then ended. As such, there is a material uncertainty related to these events and conditions that may cast significant doubt on the Company's ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

Management recognizes that the ability of the Company to carry out its planned business obligations depends on its ability to raise adequate financing from shareholders and other investors, obtaining an Access to Cannabis for Medical Purposes ("ACMPR") license, and achieving profitable operations in the future. If the Company is not able to raise additional funds, there would be significant doubt that the Company would be able to continue as a going concern and operations may have to be curtailed. The Company is actively trying to raise other sources of financing.

These consolidated financial statements do not reflect adjustments, which could be material, to the carrying values of assets and liabilities that may be required should the Company be unable to continue as a going concern. Such adjustments will be material.

#### 3. BASIS OF PREPARATION

### a) Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34") of the International

Notes to the Unaudited Condensed Consolidated Interim Financial Statements Three and nine months ended June 30, 2018

(Unaudited - Expressed in Canadian dollars, unless otherwise stated)

Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual consolidated financial statements prepared in accordance with IFRS as issued by the IASB have been condensed or omitted and these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2017. These unaudited condensed consolidated interim financial statements follow the same significant accounting policies set out in note 4 to the audited consolidated financial statements for the year ended December 31, 2017 except for the following:

- (i) Effective January 1, 2018, the Company has adopted IFRS 9 Financial Instruments ("IFRS 9") which replaces the provisions of IAS 39 Financial Instruments: Recognition and Measurement ("IFRS 39") that relate to the recognition, classification and measurement of financial assets and financial liabilities, de-recognition of financial instruments, impairment of financial assets and hedge accounting. IFRS 9 contains three principle classification categories for financial instruments: measured at amortized cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The previous IAS 39 categories of held to maturity, loans and receivables and available for sale are eliminated. IFRS 9 bases the classification of financial instruments on the contractual cash flow characteristics and the company's business model for managing the financial asset. The adoption of IFRS 9 on January 1, 2018 resulted in changes to accounting policies which have been applied retrospectively, however this did not result in any financial statement adjustments.
- (ii) IFRS 15 Revenue from Contracts with Customers which establishes a five-step model to account for revenue arising from contracts with customers, was adopted by the Company on January 1, 2018. Adoption of this standard does not have any impact on the Company's financial statements.
- (iii) IFRS 2 Share-based Payments amendment clarifies how to account for the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments, shared-based payment transactions with a net settlement feature and a modification to the terms and conditions that changes the classification of the transactions. The Company has adopted this amendment on January 1, 2018. The adoption of this amendment has no impact on the Company's financial statements.

#### b) Basis of Consolidation and Comparative Figures

These unaudited condensed consolidated interim statements include the accounts of Maple Leaf and its wholly-owned subsidiaries: Golden State Green World LLC of California, and SSGW LLC of Nevada.

Balances, transactions, revenues and expenses between the Company and its subsidiaries are eliminated on consolidation.

Certain comparative figures have been reclassified to conform to the financial statement presentation adopted for the current year.

In November 2016, the Company entered into a letter of intent ("LOI") with BioNeva Innovations of Henderson LLC ("BioNeva") to purchase 100% of its Nevada Medical Marijuana Registration Certificate C115 ("Permit 115"), for \$500,000 USD cash. Upon execution of the LOI, a deposit of \$68,270 (\$50,000 USD) was paid to BioNeva. The remaining \$450,000 USD was payable to BioNeva when the "Transfer of Application" process (to Maple Leaf) was completed by the State of Nevada. On June 15, 2017, the LOI was updated to allow for the acquisition of all outstanding equity shares of BioNeva on the same terms, instead of just acquiring Permit 115.

On January 23, 2018, the Company completed the purchase of all of the ownership interests in BioNeva and all of the ownership interest in the Nevada Medical Marijuana Registration Certificate C115 for \$635,359 (\$500,000 USD). In accordance with the terms of the transaction, the previous holders of the ownership interest of BioNeva assigned their interest to a Director of Maple Leaf, who in turn will transfer one hundred percent of the ownership interest and related licenses to SSGW in accordance with the terms of a Confession of Judgment upon direction of the Company. The license cannot be transferred until the Nevada facility is operational, therefore, the purchase price is included in deposits.

On May 24, 2017, the Company announced it engaged an independent contractor as the procurement, engineering, and construction manager for its cannabis cultivation facilities at Telkwa, British Columbia (the "BC Facility") and Henderson, Nevada. In June of 2017, Maple Leaf provided a deposit of \$1,102,500 for this work so that it could contract with construction partners and move the projects forward. In September of 2017, a dispute arose between the contractor and Maple Leaf which is still being resolved. Management feels that the deposit amounts are collectible and therefore no allowance has been provided against this balance.

On October 24, 2017, the Company contracted an engineering company to guide the projects in Nevada and Telkwa to completion; no deposit was paid to the engineering company. Deposits of \$330,634 have been paid to order products for the BC Facility.

On August 17, 2017, the Company entered into an agreement with an Engineering Firm to construct its cannabis cultivation facility in Henderson, Nevada for \$2,995,000 USD. Maple Leaf has provided deposits of \$900,000 USD, of which \$535,000 USD (\$696,018 CAD) had been recorded as development of the project as at June 30, 2018, and \$365,000 USD (\$477,106 CAD) was still in deposit. On June 20, 2018, the Company terminated the contract with the Engineering Firm. The Company has engaged counsel who has recommended arbitration with the Engineering Firm as per the terms of the contract. Management believes they had just cause to terminate the contract and will use all due diligence to recover the funds distributed.

#### 6. NOTE PAYABLE

In 2015, the Company's wholly-owned subsidiary, Golden State, entered into an agreement to purchase approximately 20 acres of land in southern California for an aggregate purchase price of US\$120,000. On May 30, 2018 the Company entered into an agreement with Emerging Equities Inc. ("EEI") of Calgary, Alberta whereby EEI was engaged as strategic financial advisor and facilitator for the Company (the "Agreement"). Pursuant to the Agreement, EEI will evaluate various funding alternatives for the Company including potential private placements and debt funding by candidates introduced by EEI to the Company. The Agreement supersedes and replaces the letter agreement the Company entered into with EEI dated May 1, 2018 and announced by the Company on May 3, 2018 in conjunction with a proposed brokered private placement financing with EEI as lead agent. In consideration of EEI providing strategic financial advisor and facilitator services to the Company, the Company issued to EEI 400,000 common share purchase warrants on June 15, 2018, each warrant entitling EEI to acquire one common share of the Company at an exercise price of \$0.60 with a maturity date of June 15, 2020. The warrants are subject to a four-month hold. A total of \$164,951 (2017 - \$Nil) share-based compensation expenses were recorded to warrant reserve. #### 8. RELATED PARTY TRANSACTIONS

Related party transactions are in the normal course of operations and are measured at the fair value of consideration paid. Related party transactions are also disclosed in note 6.

The Company has identified its directors and executive staff as key management personnel. Compensation to key management, including fees paid to Company's controlled by directors and officers for their services provided, is as follows:

	Т	hree months ende	d June 30,	Six Months Ended Jun			
	-	2018	2017		2018	2017	
Management remuneration	\$	30,000 \$	30,000	\$	60,000 \$	60,000

Total	\$	<b>327,751</b> \$	45,000	\$	<b>4,174,670</b> \$	90,000	

As at June 30, 2018, an amount of \$15,113 (December 31, 2017 - \$Nil) due from key management remained outstanding and is included in other receivables.

As at June 30, 2018, an amount of \$763,762 (December 31, 2017 - \$Nil) for a finance lease for land in Telkwa, BC is due to an entity, owned by a Director of the Company. The lease is for a term of 5 years at \$20,000 per month. The Company has the option to purchase the land after October 2018 for a minimum of \$500,000.

As at June 30, 2018, an amount of \$138,264 (December 31, 2017 - \$131,723) in notes payable is due to a director and a member of key management with each individual having an undivided 50% interest in the notes payable.

Amounts are non-interest-bearing and are due on demand. The Company did not pay any long-term or termination benefits to its key management. The Company's employment agreement with one Officer would entitle that Officer to compensation of \$120,000 upon termination.

#### 9. CAPITAL MANAGEMENT

The Company's objectives of capital management are to provide returns for shareholders and to comply with externally imposed capital requirements, if any, to safeguard the entity's ability to support the Company's normal operating requirements on an ongoing basis and continue to develop and expand its projects. As at June 30, 2018 and 2017. The Company has no externally imposed capital requirements.

The capital of the Company consists of notes payable and the items included in equity (deficiency). The Board of Directors does not establish a quantitative return on capital criteria for management but promotes year-over-year sustainable earnings growth targets. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. There have been no changes in the way the Company manages its capital during the six months ended June 30, 2018.

#### 10. FAIR VALUE MEASUREMENTS AND FINANCIAL INSTRUMENTS

The Company manages its exposure to key financial risk in accordance with the Company's financial risk management framework. The objective of the framework is to protect the Company's future financial security. The main risks that could adversely affect the Company's financial assets, liabilities or future cash flows are liquidity risk, credit risk and market risk, which comprise foreign exchange rate risk, interest rate risk and other price risk. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis. Currently, the Company does not apply any form of hedge accounting.

#### (a) Fair value

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment, and therefore, cannot be determined with precision. Changes in assumptions could significantly affect estimates. Management assessed that the fair values of cash and cash equivalents, other receivables, accounts payable and accrued liabilities, and interest payable approximate their carrying amounts largely due to the short-term maturities of these instruments, and the fair value of the notes payable approximates its face value, as any interest arising from the notes payable is required to be paid to the security holder monthly.

The following table provides the quantitative disclosures of fair value measurement hierarchy of the Company's financial assets and liabilities measured on recurring basis.

			June 30, 2	018			December 31, 2017						
	-	oted prices in tive markets (Level 1)	Signific observable (Level	inputs	unob	Significant unobservable inputs (Level 3)		Quoted prices in active markets (Level 1)		Significant observable inputs (Level 2)		ificant servable (level 3)

Other receivables		263,185		-		-		133,776		-		-	
Notes payable		-	13	38,264		-		-		131,723		-	

There was no transfer between fair value levels during the reporting period.

#### (b) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk primarily associated to other receivables and cash and cash equivalents. The carrying value of the financial assets represents the maximum credit exposure.

The Company undertakes credit evaluations on counterparties as necessary and has monitoring processes intended to mitigate credit risks. There was no amount in trade receivables at June 30, 2018 or 2017 for which a provision for doubtful debts is recognized or which were past due.

#### (c) Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure, as far as possible, that it will have sufficient liquid

Notes to the Unaudited Condensed Consolidated Interim Financial Statements Three and nine months ended June 30, 2018

funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. As at June 30, 2018, the Company has \$1,967,919 cash on hand (December 31, 2017 - \$3,411,778) and working capital of \$2,970,181 (December 31, 2017 - \$4,813,400).

Based on the contractual obligations of the Company as at June 30, 2018, cash outflows of those obligations are estimated and summarized as follows:

	Payment Due by Year								
					2	2021 and			
		2018	20	19 and 2020		beyond		Total	
Accounts payable and accrued liabilities	\$	1,459,841	\$	-	\$	-	\$	1,459,841

	\$	1,616,298	\$	773,554	\$	605,938	\$	2,995,790	

#### (d) Market risk

The significant market risks to which the Company is exposed are interest rate risk and currency risk.

(i) Interest rate risk

Interest rate risk consists of two components:

- (a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.
- (b) To the extent that changes in prevailing market rates differ from the interest rates in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

As the note payable bears a fixed coupon rate of 6% per annum, the Company does not have interest rate risk at year-end.

#### (ii) Currency risk

The Company is exposed foreign currency risk when the Company undertakes transactions and holds assets or liabilities denominated in foreign currencies other than its functional currency.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements Three and nine months ended June 30, 2018

(Unaudited - Expressed in Canadian dollars, unless otherwise stated)

The Company currently does not manage currency risk through hedging or other currency management tools. As at June 30, 2018, the Company's exposure to currency risk is summarized as follows:

Expressed in Canadian dollar equivalents	Jun	e 30, 2018	December 31, 2017		
Financial assets denominated in US dollars					
Cash	\$	44,811	\$	839,915

Interest payable	\$	-	\$	-	
Notes payable		138,264		131,723	
	\$	138,264	\$	131,723	

As at June 30, 2018, with other variables unchanged, a 10% change in the USD against the CAD would have increased/decreased comprehensive loss by \$9,345 (December 31, 2017 – \$70,819).

#### (iii) Other price risk

Other price risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or currency risk. The Company is not exposed to other price risk.

#### 11. ECONOMIC DEPENDENCE

Maple Leaf is not currently receiving material revenues from any one source.

#### 12. SEGMENT INFORMATION

Operating segments are components of the Company where separate financial information is available that is evaluated and determined regularly by management. As at June 30, 2018, the Company has one reportable segment, being eco- agriculture and two geographical segments, being Canada and United States.

#### 13. COMMITMENTS AND CONTINGENCIES

On December 11, 2017, the Company entered an office lease until December 31, 2022. The basic annual rent is as follows:

2018	\$72,914
2019	\$72,914
2020	\$82,376
2021	\$89,438
2022	\$96,500

During the 6 months ended June 30, 2018, the Company recorded rent expenses of \$42,429 (2017 - \$25,812).

In August of 2017, Maple Leaf signed an agreement for the design and construction of the cannabis cultivation facility in Henderson, NV for \$2,995,000 USD. On June 20, 2018, the Company terminated the contract with the Engineering Firm. The Company has engaged counsel who has recommended arbitration with the Engineering Firm as per the terms of the contract. Management believes they had just cause to terminate the contract and will use all due diligence to recover the funds distributed.

At June 30, 2018, \$5,072,636 had been committed for costs related to the Telkwa cannabis cultivation facility which is expected to be completed in the fall of 2018.
