The accompanying notes are an integral part of these condensed financial statements.

1. Corporate Information

Seaway Energy Services Inc. (“Seaway” or the “Company”) was incorporated under the Business Corporations Act (Alberta) on September 4, 1998. The principal activities of Seaway were the provision of environmental consulting services to the petroleum and natural gas industry until June 30, 2012 when the Company ceased active operations as further discussed in Note 2 to the annual financial statements. The Company’s common shares trade on the TSX Venture exchange under the symbol SEW.

The head office of the Company is located at Suite 2000, 1177 West Hastings Street, Vancouver, British Columbia, V6E 2K3 and the registered office is located at Suite 1810, 1111 West Gerogia Street, Vancouver, British Columbia, V6E 4M3.

2. Basis of Presentation

Statement of compliance
These condensed interim financial statements (“financial statements”) have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting. These financial statements were authorized for issue by the Board of Directors on August 31, 2015. They do not contain all disclosures required by IFRS for annual financial statements and, accordingly, should be read in conjunction with the audited financial statements for the year ended September 30, 2014. The condensed financial statements have been prepared using the same accounting policies and methods as the financial statements for the year ended September 30, 2014.

Going concern assumption
These financial statements have been prepared on a going concern basis, under which the Company is assumed to be able to realize its assets and discharge its liabilities in the normal course of operations. The Company has no active ongoing operations and is prudently managing administrative costs. The current market environment for idle public companies may cast significant doubt about the Company’s ability to continue as going concern. The financial statements do not reflect adjustments that would be necessary if the going concern assumptions were not appropriate. If the going concern basis was not appropriate for these financial statements, then adjustments would be necessary in the carrying value of property and equipment, liabilities, the reported expenses, and the classifications used in the statement of financial position. Such adjustments could be material.

Basis of Measurement
The financial statements have been prepared on the historical cost basis, which is based on the fair value of the consideration at the time of the transaction, except for certain financial instruments which are accounted for at fair value.

Functional and Presentation Currency
The financial statements are presented in Canadian dollars, which is the functional currency of Seaway.

Use of Estimates, Judgments and Assumptions
The preparation of financial statements requires management to make estimates and use judgment regarding the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as at the date of the financial statements and the reported amounts of revenues and expenses during the period. By their nature, estimates are subject to measurement uncertainty and changes in such estimates in future periods could require a material change in the financial statements. Accordingly, actual results may differ from the estimated amounts as future confirming events occur. Significant estimates and judgments made by management in the preparation of these financial statements are as follows:

2. Basis of Presentation - continued

Stock-based compensation – assumptions and estimates are used in determining the inputs used in the Black-Scholes option pricing model, including assumptions regarding volatility, dividend yield, risk-free interest rates, forfeiture estimates and expected option lives.

Recoverability of advances and investments - The recoverability of the Company's advances to other entities or investments is dependent on the liquidity of a private Company's shares, which is based in part on its performance. The Company will assess at each reporting period whether there is any objective evidence that a financial asset has been impaired. When the fair value of the advance cannot be derived from active markets, they are determined using recent transactions or a variety of valuation techniques that may include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs such as volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Deferred income taxes – assumptions and estimates are made regarding the amount and timing of realization and/or settlement of the temporary differences between the accounting carrying value of the Company's assets versus the tax basis of those assets, and the tax rates at which the differences will be recovered or settled in the future.

3. Advance to Peeppl

Seaway has entered into a non-binding, arm's-length letter of intent ("LOI") dated April 16, 2014, with Peeppl Media Inc., pursuant to which Seaway will acquire all of the issued and outstanding securities of Peeppl in exchange for common shares in the capital of Seaway, and Peeppl will become a wholly owned subsidiary of Seaway. The transaction may constitute a change of business under the policies of the TSX Venture Exchange ("Exchange") and is subject to Exchange approval. On execution of the LOI, Seaway paid a $25,000 non-refundable deposit to Peeppl as consideration for entering into the LOI. In addition, Seaway advanced loans totaling $110,000 to Peeppl. Peeppl repaid $21,000 of the advance in January 2015.

In October 2014, the LOI was amended whereby Seaway will acquire Peeppl in exchange for 9,999,994 post consolidation common shares in the capital of Peeppl. Immediately prior to the closing of the transaction Seaway will consolidate its shares on a one for three basis. The Seaway common shares issued to Peeppl will be subject to escrow or seed share resale restrictions in accordance with the policies of the Exchange. The transaction is also subject to a financing completed by Seaway.

In February 2015, Seaway and Peeppl have retained DelMorgan & Co. ("DelMorgan"), as their financial adviser to advise on strategic initiatives, including growth capital investments, the completion of the change of business transaction between the Company with Peeppl, as previously noted, and other initiatives to deliver shareholder value including mergers and acquisitions.

DelMorgan and its affiliates will act as agent, on a commercially reasonable efforts basis, of a proposed offering by the Company for gross proceeds of a minimum of $2-million (US) and a maximum to $5-million (U.S.). Closing of the offering is unknown but should be concurrent with the completion of the company's proposed acquisition of Peeppl and change of business. The terms of the offering have not been finalized.

4. Share Capital

(a) Authorized

Unlimited number of preferred shares
Unlimited number of common voting shares without nominal or par value
Unlimited number of share purchase warrants

(b) Issued and outstanding

	June 30, 2015			September 30, 2014		
Common shares	**Shares**		**Amounts**	Shares		Amounts
Balance, beginning of period *(i)*	**4,102,746**	**$**	**2,799,806**	2,887,747	$	2,712,166
Issued pursuant to a private placement *(ii)*	**-**		**-**	1,214,999		96,750
Share issue costs	**-**		**-**	-		(9,110)
Balance, end of period	**4,102,746**	**$**	**2,799,806**	4,102,746	$	2,799,806
Warrants						
Balance, beginning of period	**1,214,999**	**$**	**85,500**	-	$	-
Issued pursuant to a private placement *(ii)*	**-**		**-**	1,214,999		85,500
Balance, end of period	**1,214,999**	**$**	**85,500**	1,214,999	$	85,500
		$	**2,885,306**		$	2,885,306

(i) The Company consolidated its common shares on a one for ten basis effective March 21, 2014 pursuant to a special *resolution passed by the shareholders on August 12, 2013. The numbers of common shares and per share calculations in the prior periods have been restated to reflect this consolidation.*

(ii) On April 2, 2014, the Company closed a private placement of 1,214,999 Units for gross proceeds of $182,250. Each unit consisted of one common share and one share purchase warrant. Each warrant is exercisable for one common share at an exercise price of $0.30 per share for 24 months from the closing date. The fair value of the warrants was estimated at $85,500 and was determined using the Black-Scholes option pricing model with the following assumptions dividend yield – Nil, expected volatility 80%, risk free rate of return 1.2%, weighted average life – 2 years.

(c) Stock options

The Company has a stock option plan that provides for the issuance to its directors, officers, employees and consultants options to purchase from treasury a number of common shares not exceeding 10% of the common shares that are outstanding from time to time which is the number of shares reserved for issuance under the plan. Options granted under the plan have varying vesting periods as determined by the Board at the grant date. Options can be exercisable for a maximum of five years from the effective date. The options are non-transferable if not exercised. Pursuant to the Stock Option Plan, the exercise price of options will be set by the Board at the time options are granted and cannot be less than the discounted market price, except as permitted by the Exchange. A summary of the status of the Company's stock option plan as at June 30, 2015 and September 30, 2014 and changes during the respective periods ended on those dates is presented below.

	June 30, 2015		September 30, 2014	
Stock Options	**Number of options**	**Weighted average exercise price**	Number of Options	Weighted average exercise price
Beginning of period	**280,000**	**$0.135**	-	-
Granted	**-**	**-**	280,000	$0.135
Exercised	**-**	**-**	-	-
Expired	**-**	**-**	-	-
End of period	**280,000**	**$0.135**	280,000	$0.135
Exercisable, end of period	**280,000**	**$0.135**	280,000	$0.135

4. Share Capital - continued

The fair value of the options granted in quarter was determined using Black Scholes model and the following weighted average assumptions: dividend yield – nil, expected volatility 80%, risk free rate – 1.5%, expected life – five years and forfeiture – 5%. The options vested immediately upon the grant. The expected volatility has been determined based on the Company's peer group.

Date of Grant	Number Outstanding	Exercise Price	Weighted Average Remaining Contractual Life	Date of Expiry	Number Exercisable June 30, 2015
March 21, 2014	280,000	$0.135	3.73 years	March 21, 2019	280,000

5. Financial Instruments

The Company holds various forms of financial instruments. The nature of these instruments and the Company's operations expose the Company to interest rate and foreign currency, liquidity, and fair value risks. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical. These risks are outlined more fully below.

Financial instrument:	Category:
Cash and cash equivalents	Held for trading
Accounts receivable	Loans receivable
Advances to Peeppl	Loans receivable
Accounts payable and accrued liabilities	Other financial liabilities

(a) Fair value of financial instruments

The Company has determined that the fair values of the financial instruments consisting of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and convertible debentures are not materially different from the carrying values of such instruments reported on the statement of financial position due to their short-term nature.

The Company classifies the fair value of these financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

All financial assets (except for cash and cash equivalents which are classified as held for trading), are classified as either loans or receivables and are accounted for on an amortized cost basis. All financial liabilities are classified as other liabilities. The Peeppl advance has been classified as level 3. There have been no changes to the aforementioned classifications during the year ended September 30, 2014 and nine month period ended June 30, 2015.

5. Financial Instruments - continued

(b) Credit risk
The advances to Peeppl, are to a company in the development stage, currently without any revenues however, Peeppl has been able to raise additional funds in order to continue developing its proprietary software.

(c) Liquidity risk
Liquidity risk includes the risk that, as a result of operational liquidity requirements:

- The Company will not have sufficient funds to settle a transaction on the due date;
- The Company will be forced to sell financial assets at a value which is less than what they are worth; or
- The Company may be unable to settle or recover a financial asset at all.

Trade and other payables

		June 30, 2015		September 30, 2014
Trade	**$**	**107,836**	$	87,560
Accrued		**5,000**		15,000
Constructive obligation *(1)*		**-**		4,000
Total accounts payable	**$**	**112,836**	$	106,560

(1) Due to the decision to cease active business operations the company recorded a $40,349 liability with respect to future lease costs at September 30, 2013 as a constructive obligation. The lease expired on October 31, 2014. Once the decision to cease active operations was made in March 2013, the Company accrued $58,971 as a constructive obligation with respect to the lease on April 1, 2013.

Seaway will be required to raise funds in order to fund its current working capital deficit in order to meet its current obligations while it endeavors to complete the Peeppl transaction (Note 3). As these variables change, liquidity risks may necessitate the need for the Company to conduct further equity issues.

6. Capital Risk Management

The Company's objectives when managing capital is to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders. Managed capital consists of the Company's current working capital (current assets less current liabilities). The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The Company's objective is met by retaining adequate equity to provide for the possibility that cash flows from assets will not be sufficient to meet future cash flow requirements. The Board of Directors does not establish quantitative return on capital criteria for management; but rather promotes year over year sustainable profitable growth. The Company is not subject to any externally imposed capital requirements. There have been no changes to the Company's capital risk management approach during the periods ended June 30, 2015 or September 30, 2014.

7. Commitments and Contingencies

From time to time, the Company may be involved in litigation or has claims sought against it in the normal course of business operations. Management of the Company is not currently aware of any claims or actions that would materially affect the Company’s reported financial position or results from operations.

Under the terms of certain agreements and the Company's by-laws the Company indemnifies individuals who have acted at the Company's request to be a director and/or officer of the Company, to the extent permitted by law, against any and all damages, liabilities, costs, charges or expenses suffered by or incurred by the individuals as a result of their service. The Company has no outstanding claims having a potentially material adverse effect on the Company as a whole.
