*Forward-Looking Statements: This Secova Metals News Release may contain certain "forward-looking" statements and information relating to Secova which are based on the beliefs of Secova management, as well as assumptions made by and information currently available to Secova management. Such statements reflect the current risks, uncertainties and assumptions related to certain factors including, without limitations, exploration and development risks, expenditure and financing requirements, title matters, operating hazards, metal prices, political and economic factors, competitive factors, general economic conditions, relationships with vendors and strategic partners, governmental regulation and supervision, seasonality, technological change, industry practices, and one-time events. Should any one or more of these risks or uncertainties materialize or change, or should any underlying assumptions prove incorrect, actual results may vary materially from those described herein. The potential for Secova to replicate historical resource estimates or grades, or for new data to expand tonnage or grade, is conceptual and is based on historical reports which have not been verified by a qualified person. There is a risk that planned exploration and test work will not result in the delineation of NI 43-101 compliant resource estimates or verify historically reported grades.*
