FOR THE THREE-MONTH PERIOD ENDED SEPTEMBER 30, 2023**

Introduction

This management's discussion and analysis (MD&A) of ESGold Corp. is the responsibility of management and covers the three-month period ended September 30, 2023. The MD&A takes into account information available up to and including November 20, 2023 and should be read together with the consolidated audited financial statements and accompanying notes for the year ended June 30, 2023 which are available on the SEDAR website at www.sedar.com.

Throughout this document the terms *we*, *us*, *our*, *the Company* and *ESGold* refer to ESGold Corp. All financial information in this document is prepared in accordance with International Financial Reporting Standards ("IFRS") and presented in Canadian dollars unless otherwise indicated.

Additional information related to the Company is available for view on SEDAR at www.sedar.com.

Forward-Looking Statements

Statements in this report that are not historical facts are forward-looking statements involving known and unknown risks and uncertainties, which could cause actual results to vary considerably from these statements. Readers are cautioned not to put undue reliance on forward-looking statements.

Forward-looking information includes disclosure regarding possible or anticipated events, conditions or results of operations which are based on assumptions about future economic conditions and courses of action, and includes future oriented financial information with respect to prospective results of operations or financial position or cash flow that is presented either as a forecast or a projection. Forward-looking information is often, but not always, identified by the use of words such as seek, anticipate, believe, plan, estimate, expect and intend; statements that an event or result is due on or may, will, should, could, or might occur or be achieved; and other similar expressions.

Reserves and Resources

National Instrument 43-101 ("43-101") of the Canadian Securities Administrators – Standards of Disclosure for Mineral Projects – requires that each category of mineral reserves and mineral resources be reported separately. Readers should refer to ESGold's continuous disclosure documents available at www.sedar.com for this detailed information, which is subject to the qualifications and notes therein set forth.

Description of Business

The Company is a Canadian environmentally aware resource exploration and processing company focused on building a strong asset base through exploration of undervalued projects in Canada. Management has demonstrated expertise in advancing gold exploration projects into acquisition targets, most notably in the

province of Quebec. ESGold's principal restoration and recovery project is the Montauban property situated in Quebec, just 80 kilometers west of Quebec City. Recently, the Company has also entered into a joint venture agreement to determine the presence of recoverable metals in the Ottawa River, consistent with ESGold's commitment to environmental recovery solutions. ESGold will use its expertise in early stage exploration to create shareholder value by attempting to prove out the potential resource in these assets.

The Company's shares are currently listed on the Canadian Securities Exchange with the trading symbol CSE: ESAU.

In March 2020, there was a global pandemic outbreak of COVID-19. The actual and threatened spread of the virus globally has had a material adverse effect on the global economy and; specifically, the regional economies in which the Company operates. The pandemic could continue to have a negative impact on the stock market, including trading prices of the Company's shares and its ability to raise new capital. These factors, among others, could have a significant impact on the Company's operations. The Company has not been impacted significantly by COVID-19 to date.

Performance Summary and Subsequent Events

- a) On December 30, 2019, the Company was the subject of a cease trade order by the British Columbia Securities Commission pending the filing of the Company's annual Audited Financial Statement and MD&A for the 2019 fiscal year. As a consequence of the Cease Trade Order, the British Columbia Securities Commission suspended the Company from trading until lifting of the Cease Trade Order. On February 17, 2021, the British Columbia Securities Commission issued a full revocation of the Company's failure-to-file cease trade order. The Company is in full compliance with the continuous disclosure requirements of the BCSC. On September 13, 2021, the Company's common shares were delisted from the TSX Venture Exchange and on October 6, 2021, the Company's shares were listed on the Canadian Securities Exchange (CSE) with the trading symbol CSE: SEK. On July 14, 2022, the Company changed its name from Secova Metals Corp. to ESGold Corp. and its shares are now listed on the CSE with the trading symbol CSE: ESAU.
- b) During the year ended June 30, 2023, the Company continued to advance the Montauban project (see Exploration Summary - Montauban and Chavigny Townships, Quebec). Exploration Summary

Eagle River property, Quebec

During the year ended June 30, 2017, the Company acquired 1084409 B.C. Ltd., 1106632 B.C. Ltd., 1107136 B.C. Ltd., and 1106541 B.C. Ltd. which owns the Eagle River project located in the Windfall Lake gold district, Quebec.

On December 15, 2020, the Company received an NI 43-101 Technical Report on the Eagle River Property and it is the Company's intention to execute Phase 1 of the proposed Exploration plan ("Phase 1"). The initial Phase 1 program with an expected budget of \$364,590. Phase 1 is expected to consist of a basal-till sampling program, general prospecting, and a rock outcrop sampling program; up to 200 samples are expected to be collected during a five-week field program. The work would be completed by a four-person field crew based in fly-in camps; it is likely helicopter assistance would be required to access portions of the Property. All basal-till samples for Phase 1 will be collected by a worker-portable drill rig to reach the basal till layer wherever possible. In November 2021, as part of Phase 1, the Company mobilized a Quebec based drill contractor to commence additional overburden drilling, a program intended to provide a preliminary characterization of the property overburden and test basal till for potentially gold anomalism.

In October 2021, the Company entered into a purchase agreement with 9093-6725 Quebec Inc. and Randon Ferderber to acquire a 100% interest in 10 claims totaling 565.3 hectares for cash consideration of \$25,000 and a 2% net smelter return. The Company may buy back 1% of the net smelter return for \$1 million and the remaining 1% net smelter return for \$2 million. The claims are adjacent to the Company's current Eagle River property holdings and would form part of the Company's Eagle River Property.

In November 2021, the Company also commissioned a revised NI 43-101 Technical Report on the Eagle River Property to update for the additional work that were completed, title changes and the new claims that were acquired in October 2021.

In November 2022, the Company entered into an agreement to sell the Eagle River Property to Sennen Potash Corp. (See "*Performance Summary and Subsequent Events (w)*").

Montauban and Chavigny Townships, Quebec

On December 12, 2019, the Company and DNA Canada Inc. ("DNA") entered into a purchase agreement whereby the Company has agreed to acquire mining claims and concessions located in the Montauban and Chavigny townships, in the county of Portneuf, in the province of Quebec, as well as buildings, immovables, and other assets and operating permits located on, or with respect to, the property.

The consideration to be paid to DNA will consist of the issuance of common shares of the Company (the "Shares") in three tranches:

- (i) 1.5 million shares to be issued four months and one day following the closing;
- (ii) 1.5 million shares to be issued eight months following the closing; and
- (iii) 2.0 million shares to be issued one year following the closing of the acquisition.

The 5,000,000 shares were ultimately issued to DNA Canada Inc. in their entirety on May 24, 2023. On July 24, 2023, an additional 926,210 common shares were issued for debt related to the acquisition of Montauban, valued at \$0.50 per share, for a total debt amount assumed of \$463,105.

As part of the purchase agreement, the Company will acquire some equipment and assumed liabilities totalling \$208,290, which has been entirely settled in cash.

Completion of the acquisition was conditional upon, among other things, receipt of all necessary regulatory approvals, including approval of the TSX Venture Exchange. The Company submitted the acquisition to the TSX Venture Exchange for approval and the Company received approval on November 23, 2020. The transaction was completed in the month of September 2021.

In November 2021, the Company engaged JPL GeoService Inc., a Quebec based company, to produce a NI 43-101 Technical Report and Mineral Resource estimate on the Montauban project. The NI 43-101 Technical Report was completed in February 2022 and is available for view on SEDAR at www.sedar.com.

As at September 30, 2023, the Company had incurred a total of \$7,272,542 (June 30, 2023 - \$6,702,534) which included the acquisition costs for the project, recording an asset retirement obligation, and engineering, legal, drilling program and project management and travel costs.

Ottawa River Project, Ontario

On May 30, 2022, the Company signed an option agreement with Nepean Bay Joint Venture Inc. ("NBJV"). Under the option agreement, NBJV grants the Company the right to earn 50% interests in the Ottawa River Project. NBJV is the legal and beneficial owner of the land use permit of 2.6 hectares within the bed of the Ottawa River and the owner of any salable residuals from the land use permit. The Company is required to pay \$50,000 to NBJV upon signing of the option agreement, which it made in June 2022. In order to maintain in force the Option granted, and to exercise the Option, the Company must incur any and all approved expenditures for two years to achieve commercial production (defined as when a minimum of 500 ounces of gold has been smelted in a Dore bar) and pay to NBJV \$100,000 during each twelve month period from the date of the option agreement for two years or until commercial production has been achieved. The parties agreed that the Company will be the operator of the Ottawa River Project.

Subsequent to the year-end, the Company announced it had elected to terminate the earn-in Joint Venture Agreement with Nepean Bay Joint Venture signed on May 30, 2022 for the purpose of jointly exploring and developing the Ottawa River Gold Project. As a result of the agreement termination, Nepean Bay Joint Venture will retain 100% ownership of its Ottawa River Gold property interests. Previously capitalized costs associated with the joint venture were written off at June 30, 2023, amounting to a total of \$241,923.

Selected Annual Information

The financial information as at and for the years ended June 30, 2023, June 30, 2022 and June 30, 2021 have been prepared in accordance with IFRS.

	Year ended		
	June 30, 2023	June 30, 2022	June 30, 2021
Total income	-	-	-
Loss and comprehensive loss for the year	(3,710,234)	(4,824,835)	(1,719,452)
Basic and diluted loss per share	(0.15)	(0.32)	(0.20)
Total assets	9,104,932	8,765,711	3,160,411
Working capital (deficiency)	(611,055)	(659,542)	(1,813,438)

Year ended June 30, 2023 compared to June 30, 2022

The Company had a net loss and comprehensive loss of \$3,710,234 versus \$4,824,835 in the comparative year, representing an decrease of \$1,114,601 or 23.1%. The decrease in the net loss and comprehensive loss during the year ended June 30, 2023 is mainly attributable to lower consulting fees, lower share-based payments expense, lower marketing expenses and an increase in the amortization of the flow-through premium liability, offset by higher Indemnity and Part XII.6 taxes on flow-through expenses and higher exploration expenses as a result of the write-off of the Ottawa River project.

The close of the Private Placement Offering in July 2022 and the Flow-through Shares Offering in December 2022 allowed the Company to advance the Montauban Project.

The following expenses increased during the year ended June 30, 2023: Exploration expenses (2023 - \$246,928 vs. 2022 - \$208,088), Professional fees (2023 - \$186,796 vs. 2022 - \$130,693), and Indemnity and Part XII.6 taxes on flow-through expenses (2023: \$1,350,798 vs. 2022 - nil).

Liquidity and Capital Resources

ESGold's exploration and evaluation asset activities do not provide a source of income and the Company therefore has a history of losses and an accumulated deficit. However, given the nature of our business, the results of operations as reflected in the net losses and losses per share do not provide meaningful interpretation of our valuation.

The Company has financed its operations to date primarily through the issuance of common shares. The Company will continue to seek capital through the issuance of common shares.

Operating activities: The Company does not generate any revenues and generally does not receive any cash from operating activities. Net cash provided from operating activities during the three-month period ended September 30, 2022 was \$85,114 compared to net provided by operating activities of \$346,083 during the comparative year ended September 30, 2022. The increase in cash provided from operating activities is primarily due to lower operating expenses and a decrease in working capital from accounts payable and accrued liabilities.

Investing activities: Net cash used in investing activities during the three-month period ended September 30, 2023 was \$128,690 compared to \$1,279,989 during the comparative three-month period ended September 30, 2022. This is entirely due to lower exploration costs incurred on the Company's projects.

Financing activities: Cash inflow from financing activities during the three-month period ended September 30, 2023 was (\$1,357) compared to \$1,458,511 during the comparative three-month period ended September 30, 2022. The cash received during the three-month period ended September 30, 2022 was mainly from net proceeds from share issuances of \$1,423,510 and subscription receivables of \$35,000.

The consolidated financial statements do not reflect adjustments, which could be material, to the carrying value of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

Contractual Obligations

Except as described herein or in the Company's consolidated financial statements as at September 30, 2023, the Company had no material financial commitments.

Off Statement of Financial Position Arrangements

At September 30, 2023, the Company had no material off statement of financial position arrangements such as guarantee contracts, contingent interest in assets transferred to an entity, derivative instruments obligations or any obligations that trigger financing, liquidity, market or credit risk to the Company.

Capital Resources

The Company will continue to seek capital through public markets by issuing common shares pursuant to private placements. The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital and is not subject to externally imposed capital requirements.

Financial Risk Factors

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to cash, receivables and advances. The Company's cash is held at a large Canadian financial institution in interest bearing accounts for which management believes the risk of loss to be minimal. Receivables consist of GST receivable from the government of Canada.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach at managing liquidity risk is have sufficient liquidity to meet liabilities when due.

As at September 30, 2023, the Company had a working capital deficit of \$893,734 (September 30, 2022 - (\$114,142)) and current liabilities of \$987,622 (September 30, 2022 - \$1,199,106). While the Company has been successful in obtaining its required funding in the past there is no assurance that this financing will be extended or that any additional future financing will be available. The Company continues to investigate financing options, including private placements.

The Company manages liquidity risk through its capital management as outlined below. Accounts payable and accrued liabilities are due within one year.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and commodity and equity prices.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

b) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

c) Foreign currency risk

The Company's foreign exchange risk arises from transactions denominated in other currencies, primarily through the Company's subsidiary located in the USA. Through this, the Company is exposed to foreign currency risk on fluctuations related to cash, accounts payable and accrued liabilities that are denominated in US Dollars. The Company does not use derivative instruments to reduce its exposure to foreign currency risk nor has it entered into foreign exchange contracts to hedge against gains or losses from foreign exchange fluctuations.

Risk Factors

Companies in the exploration stage face a variety of risks and, while unable to eliminate all of them, the Company aims at managing and reducing such risks as much as possible. The Company faces a variety of risk factors such as project feasibility and practically, risks related to determining the validity of mineral property title claims, commodities prices and environmental laws and regulations. Management monitors its activities and those factors that could impact them in order to manage risk and make timely decisions.

New standards not yet adopted.

The IASB issued the standards of *IAS 1 – Presentation of Financial Statements, amendment to IAS 16 – Property, Plant and Equipment, amendment to IAS 37 – Provisions, Contingent Liabilities and Contingent Assets, and amendment to IFRS 9 – Financial Instruments*, that have not been applied in preparing these consolidated financial statements as their effective date falls within periods beginning subsequent to the current reporting period. These standards are not expected to have a significant impact on the financial statements.

Critical Accounting Policies and Estimates

The Company's accounting policies are described in Notes 2 and 3 of its consolidated financial statements for the three-month period ended September 30, 2023. Management considers the following policies to be the most critical in understanding the judgments that are involved in the preparation of the consolidated financial statements and the uncertainties that could impact its results of operations, financial condition and cash flows:

Use of estimates and significant judgments

The preparation of these consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the year. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to:

The Company uses significant judgement in assessing for signs of impairment on the exploration and evaluation assets. Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, scoping and feasibility studies, accessible facilities and existing permits.

The valuation of shares issued in non-cash transactions. Generally, the valuation of non-cash transactions is based on the value of the good or services received. When this cannot be determined, it is based on the fair value of the non-cash consideration. When non-cash transactions are entered into with employees and those

providing similar services, the non-cash transactions are measured at the fair value of the consideration given up using market prices.

The determination of deferred income tax assets and liabilities is inherently complex and requires making certain estimates and assumptions about future events. While income tax filings are subject to audits and reassessments, the Company has adequately provided for all income tax obligations. However, changes in facts and circumstances as a result of income tax audits, reassessments, jurisprudence and any new legislation may result in an increase or decrease in our provision for income taxes.

Share-based payments is subject to estimation of the value of the award at the date of grant using pricing models such as the Black-Scholes option valuation model. The option valuation model requires the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options have characteristics significantly different from those of traded options and because the subjective input assumptions can materially affect the calculated fair value, such value is subject to measurement uncertainty.

The Company utilizes significant judgement in assessing its compliance with relevant flow through financing tax requirements including the determination of qualified eligible expenditures to reduce flow through spending obligations.

Share-based payments

The Company grants stock options to acquire common shares of the Company to directors, officers, employees and consultants. An individual is classified as an employee when the individual is an employee for legal or tax purposes, or provides services similar to those performed by an employee.

The fair value of stock options is measured on the date of grant, using the Black-Scholes option pricing model, and is recognized over the vesting period. Consideration paid for the shares on the exercise of stock options is credited to share capital. Upon expiry or forfeiture, the recorded value is transferred to deficit.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.
