DESCRIPTION OF THE BUSINESS

Montana Gold Mining Company Inc. (the "Company") is a mineral exploration company focused on the acquisition and exploration of mineral resources, primarily gold and silver in the States of Montana and Nevada, USA.

The Company is a reporting issuer in the Province of Ontario and its common shares trade on the Canadian National Stock Exchange ("CNSX") under the symbol MGM.

CORPORATE ACTIVITIES

On May 14, 2013 a non-brokered private placement financing totalling $50,000 CDN was completed through the issuance of units priced at $0.05 CDN per unit. Each unit was comprised of one common share and one warrant to purchase an additional common share at $0.10 CDN during the first year following the closing of the placement and at $0.20 CDN during the second year following the closing of the placement.

Also on May 14, 2013, the Company announced the extension of the expiry dates and exercise prices of certain outstanding warrants of the Company.

On June 26, 2013 the Company reported that litigation ongoing in Texas since 2010 against the Company and other defendants had been concluded in favor of the Company and all other named defendants. The Company has been advised by counsel that the subject litigation has been concluded.

On June 28, 2013 the Company held its Annual and Special Meeting of Shareholders on June 28, 2013 in London, Ontario. All resolutions were adopted overwhelmingly in favor and a subsequent board meeting re-confirmed the officers of the Company. As a result the elected directors and appointed officers of the Company presently are:

Edward L. Ellwood, MBA, Director, President and CEO
Eric Plexman, Director, Corporate Secretary
Paul Teodorovici, Director, Vice-President
Luard Manning, P.Eng. Director, QP
Kent Britton. Beckon. Director
Clifford Wiebe, Director
John Wozny, MA, Director

On June 30, 2013, the Company reversed and wrote down $193,854 of unpaid management fees owed to three officers and directors of the Company being Edward Ellwood, Eric Plexman and Paul Teodorovici.

Also on June 30, 2013, the Company reversed $96,909 of account payables owed by a US subsidiary and dating back many years. The Company has received an opinion from US counsel that the payables in question are no longer collectible.

OVERALL PERFORMANCE

In summary the Company's financial performance increased over the six months ended June 30, 2013. Working capital increased (current assets less current liabilities) by $186,240 from ($627,030) at December 31, 2012 to ($440,790) at June 30, 2013. The increase is mainly attributable to:

a. Reversal of $96,909 in payables of the US subsidiary deemed uncollectible;
b. Reversal of $193,854 of management fees owing to three of the officers;
c. no revenue and ongoing office and administrative expenses;
d. expending $1,059 (Jan-June 2012 - $102,558) on mineral properties;
e. The accrual of unpaid management salaries and director fees.

ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

Accounting Policies

The Company prepares its financial statements in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”)

The significant accounting policies of the Company are summarized in Note 2 to the Company’s financial statements The Company does not expect the adoption of such standards and amendments to have any material impact on its financial statements.

Critical Accounting Estimates

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, incomes and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The accompanying consolidated financial statements include all adjustments that are, in the opinion of management, necessary for a fair presentation.

Information regarding significant areas of estimation, uncertainty and critical judgments made in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements relate to measurement of the recoverable amounts of mining claims and deferred exploration expenditures, measurement of share-based payments, the amount accrued for restoration liabilities, the valuation of stock options and warrants issued and provisions for legal claims.

Financial Instruments

As at June 30, 2013, the Company's financial instruments are comprised of cash, reclamation bonds, accounts payable and accrued liabilities and restoration liabilities. The carrying values of the Company's financial instruments approximate their fair values due to the relatively short periods to maturity of these financial instruments.

Litigation

In June 2013 litigation ongoing in Texas since 2010 against the Company and other defendants was concluded in favor of the Company and all other named defendants.

The history of this litigation is as follows:

The Company became a party to a legal proceeding in February 2010. On February 15th, 2010, the company was served with a claim in The District Court 150th Judicial District Bexar County, Texas. Target Strike Inc., the plaintiff alleged several past employees of the company used information that belonged to Target Strike for Gold Reef's benefit in direct contradiction of the agreement between the parties involved. The Plaintiffs initially claimed $1,000,000,000 in monetary damages against all of the named Defendants, including the Company, and subsequently made a settlement offer of $30,000,000.

In February 2012, the Court dismissed all of the claims against all of the named Defendants, including the Company. In early March 2012, the Plaintiff filed an appeal. On April 17, 2013, the United States Court of Appeals for the Fifth Circuit issued its opinion affirming the judgment in the court below in favor of all defendants. On May 1, 2013 the appellants filed a Petition for Rehearing. On May 20, 2013 the Petition for Rehearing was denied. In June, 2013, the Company was advised by counsel that the subject litigation had been concluded and an announcement was made on June 26, 2013 in that regard.

Risks Associated with Exploration and Mining Operations

The exploration of mineral properties involves a high degree of risk which cannot be avoided despite the experience, knowledge and careful evaluation of prospective properties by management. There can be no assurance commercial quantities of ore will be discovered on the Corporation's mineral properties. Even if such commercial quantities are subsequently discovered by the Corporation's exploration efforts, there can be no assurance such properties can be brought in to commercial production. Operations may be subject to disruption due to weather conditions, labour unrest or other causes beyond the control of the Corporation. Hazards such as unexpected formations, pressures, flooding, or other conditions over which the Corporation does not have control may be encountered and may adversely affect the Corporation's operations and financial results.

Environmental Risks

Environmental legislation is continuing to evolve such as will require strict standards and enforcement, increased fines and penalties for non-compliance, more stringent assessment of proposed projects and a greater degree of corporate responsibility. There can be no assurance that future changes to environmental legislation may not adversely affect the Corporation's operations.

Mineral Market

The market for minerals is subject to factors beyond the Corporation's control, such as market price fluctuation, currency fluctuation and government regulation. The effect of such factors cannot be accurately calculated. The existence of any or all such factors may restrict the access to a market, if same exists, for the sale of commercial ore which may be discovered.

Funding Requirements

In order to move forward with its exploration activities, the Corporation may require additional funding. There can be no guarantee that such funds will be available as and when required or, if available, be accessible on reasonable commercial terms.

Reliance on Management

The Corporation anticipates that it will be heavily reliant upon the experience and expertise of management with respect to the further development of the mineral properties. The loss of any one of their services or their inability to devote the time required to effectively manage the affairs of the Corporation could materially adversely affect the Corporation.

Auditors, Transfer Agent and Registrar

The auditors of the Corporation are Collins Barrow LLP, Chartered Accountants of Toronto, Ontario. The Transfer Agent and Registrar for the Common Shares of the Corporation is Equity Financial Trust Company of Toronto, Ontario.
