**1. NATURE OF OPERATIONS AND GOING CONCERN**

Peloton Minerals Corporation ("the Company" or "Peloton") was incorporated under the Ontario Business Corporations Act on December 21, 2000. The Company has four wholly-owned subsidiary corporations, Montana Gold Subsidiary Corporation, a United States corporation, SBSL Subsidiary Corporation, a United States corporation, Celerity Mineral Corporation, a Canadian corporation and Celerity Subsidiary Corporation, a United States corporation.

The Company is engaged in the business of locating and exploring mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. To date, the Company has not earned significant revenues and is considered to be in the exploration stage. The head office and principal address of the Company is 380 Wellington Street, 6th Floor, London City Centre, Tower B, London, Ontario, N6A 5B5.

While these unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis that presumes the realization of assets and discharge of liabilities in the normal course of business, there are material uncertainties related to adverse conditions and events that cast significant doubt on the Company's ability to continue as a going concern.

During the period ended March 31, 2019, the Company had a net income of \$41,742 (March 31, 2018 – net loss of \$423,565) and, as of that date, the Company had accumulated a deficit of \$12,542,217 (December 31, 2018 - \$12,583,959), a working capital deficiency of \$393,542 (December 31, 2018 - \$350,341) and negative cash flows from operations of \$114,738 (March 31, 2018 - \$122,411). These factors create material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern.

As is common with exploration companies, the Company's ability to continue as a going concern is dependent upon obtaining necessary equity financing from time to time to finance its on-going and planned exploration activities and to cover administrative costs, the discovery of economically recoverable resources, the ability of the Company to secure and maintain title and beneficial interest in the properties, entering agreements with others to explore and develop the mineral properties and future profitable production or proceeds from disposition of such properties.

These unaudited condensed interim consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations. Such adjustments may be material.

## **2. SIGNIFICANT ACCOUNTING POLICIES**

### **Statement of Compliance**

These unaudited condensed interim consolidated financial statements present the Company's financial results of operations and financial position under IFRS as at and for the three-month period ended March 31, 2019. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board.

These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2018, prepared in accordance with IFRS. The accounting policies adopted in these unaudited condensed interim consolidated financial statements are consistent with those disclosed in the Company's audited financial statement for the year ended December 31, 2018. Refer to these audited financial statements for significant accounting policies and future changes in accounting policies.

These unaudited condensed interim consolidated financial statements were approved by the Board of Directors on May 30, 2019.

### **Basis of Consolidation**

The unaudited condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Celerity Mineral Corporation (Canada), Celerity Subsidiary Corporation (United States), SBSL Subsidiary Corporation and Montana Gold Subsidiary Corporation (United States). The functional currency of each entity is the United States dollar. The financial statements of the subsidiaries are included in the unaudited condensed interim consolidated financial statements from the date that control commences until the date that control ceases.

All transactions and balances between the Company and its subsidiaries are eliminated on consolidation.

### **Adoption of New and Revised Standard**

In the current period, the Company has adopted *IFRS 16, Leases* ("IFRS 16") which replaces *IAS 17, Leases* and eliminates the classification of leases as either operating or finance leases by the lessee. Classification of leases by the lessor under IFRS 16 continues as either an operating or a finance lease, as was the treatment under IAS 17. The treatment of leases by the lessee will require capitalization of all leases resulting in accounting treatment similar to finance leases under IAS 17. The adoption of this Standard did not result in any change in the classification of leases as they are of very low value and less than one year in duration and the Company has elected not to recognize right-of-use assets and lease liabilities for these leases.

**4. MINING CLAIMS - EXPLORATION AND EVALUATION EXPENDITURES (Cont'd)**

(a) Silver Bell St. Lawrence

The Company holds 100% interest in the Silver Bell St. Lawrence ("SBSL") property consisting of 10 (December 31, 2018 - 10) mining claims. These claims are subject to a 2% net smelter royalty to an arms-length party.

The Company also holds 100% interest in 16 (December 31, 2018 - 16) mining claims adjacent to the northern and eastern boundaries of the SBSL property. These mining claims are called the Roar claims.

To maintain the staked claims, the Company must pay annual maintenance fees to the Department of the Interior (Bureau of Land Management - BLM Nevada State Office) and the local county in the cumulative approximate amount of \$155 per claim.

On March 18, 2019, the Company, through its wholly owned subsidiary, SBSL Subsidiary Corporation, signed an exploration agreement with Frederick Private Equity Corporation ("Frederick PEC") on the Silver Bell St. Lawrence Gold Project. Under the agreement, Frederick PEC may earn up to 75% interest in the Project by spending a total of US\$2,000,000 in exploration expenditures within six years and making annual option payments.

(b) Golden Trail

The Company holds 100% interest in 44 (December 31, 2018 - 44) contiguous unpatented mining claims in the Elko County region of Nevada.

To maintain the staked claims, the Company must pay annual maintenance fees to the Department of the Interior (Bureau of Land Management - BLM Nevada State Office) and the local counties in the cumulative approximate amount of \$155 per claim.

(c) River Stage

On May 23, 2016, the Company entered into a purchase option agreement to acquire 100% working interest in the River Stage property consisting of 5 unpatented mining claims. In order to earn its interest in the River Stage property, the Company paid \$6,159 (\$8,000 CDN) by June 15, 2016 and issued 100,000 common shares of the Company upon the signing of the purchase option agreement. Further, the Company paid \$5,958 (\$8,000 CDN) on the first anniversary and \$9,038 (\$12,000 CDN) on the second anniversary and must pay \$18,708 (\$25,000 CDN) on the third anniversary of the purchase option agreement. In addition, a 1.5% net smelter royalty was granted to the arms-length optionor which the Company may reduce by 0.75% by paying \$187,075 (\$250,000 CDN) to the optionor.

(d) Independence Valley

During July 2016, the Company acquired by staking a 38 mineral claim package comprising 785 acres and located in Elko County, Nevada, about 77 miles south of the Company's Golden Trail Project. The mineral claim package the Independence Valley Project.

To maintain the staked claims, the Company must pay annual maintenance fees to the Department of the Interior (Bureau of Land Management - BLM Nevada State Office) and the local county in the cumulative approximate amount of \$155 per claim.

**4. MINING CLAIMS - EXPLORATION AND EVALUATION EXPENDITURES (Cont'd)**

(d) Independence Valley (Cont'd)

On April 17, 2018, the Company signed an option agreement with Kinross Gold USA Inc. ("Kinross") on the Company's Independence Valley project in Elko County, Nevada. Under the option agreement, Kinross can earn up to a 51% interest by spending \$2,500,000 in exploration expenditures within four years, with a minimum \$200,000 in expenditures during the first year (subsequently extended to October 1, 2019). Kinross can earn a further 24% interest by spending \$1,500,000 in exploration expenditures in the two years after earning the initial 51%. Should Kinross earn the 75% interest, the parties will then fund future expenditures proportional to their interest. In the event that either party's interest is diluted to 10% or less, that party's interest shall be converted to a 2% net smelter royalty which may be bought down to one 1% for \$1,000,000. The option agreement covers an area of influence of 1,160 acres, including the 785 acres staked by the Company.

(e) Texas Canyon

During February 2018, the Company acquired by staking a 44-mineral claim package comprising approximately 720 acres and located in Elko County, Nevada, about four miles west of the Company's Golden Trail Project. The mineral claim package is called the Texas Canyon Project.

To maintain the staked claims, the Company must pay annual maintenance fees to the Department of the Interior (Bureau of Land Management - BLM Nevada State Office) and the local county in the cumulative approximate amount of \$155 per claim.

**5. RECLAMATION BONDS**

As at March 31, 2019, a reclamation bond in the amount of \$15,060 (December 31, 2018 - \$15,060) is being held by the Bureau of Land Management ("BLM") on the Golden Trail property. The Company has not recorded a restoration liability as at March 31, 2019 as the Company has not yet disturbed the land at the Golden Trail property to trigger the recognition of this liability.

**6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES**

The following is a breakdown of the amounts included in accounts payable:

**7. CONVERTIBLE DEBENTURE**

(a) Convertible debenture of \$100,000 USD ("Debenture 1")

On August 11, 2015, the Company received \$100,000 USD (principal) from an arm's length party in exchange for a convertible debenture. The convertible debenture is due on demand upon six months' notice in writing, with such notice not to be given on or before August 11, 2020. The debenture pays interest at the rate of 4%, payable quarterly, beginning October 1, 2015 with the first payment due December 31, 2015. The convertible debenture, and all principal and interest owing, is convertible, in whole or in part, at the holder's option into units of the Company (the "Unit"). Each Unit consists of one common share and one common share purchase warrant. The conversion price of the debenture is \$0.037 (\$0.05 CDN) per Unit. Each warrant will entitle the holder to acquire one additional common share at a price of \$0.0748 (\$0.10 CDN) per share until August 11, 2020.

As security, the Company has pledged the diamond drill rig (Note 3).

If the common shares of the Company trade for ten consecutive days trading days on the Canadian Securities Exchange or any other stock exchange or quotation service upon which it happens to trade or be quoted at that time, at a price equal to or greater than \$0.150 (\$0.20 CDN) per share, this debenture will automatically be converted into units without any action on the part of either the Company or the holder.

(b) Valuation of Debenture 1

The conversion rate of the units and the warrants to be issued on conversion of the above convertible debentures are not in the Company's functional currency and as a result are presented as a derivative financial liability. The Company valued the derivative financial liabilities using the Black-Scholes option pricing model and after valuing the derivative financial liabilities assigned the remaining value to the convertible debenture.

The fair value of the units of Debenture 1 were estimated at the issuance date using the Black-Scholes pricing model with the following assumptions:

Share price	\$0.04 CDN
Expected dividend yield	Nil
Exercise price	\$0.05 - \$0.10 CDN
Risk free interest rate	0.72%
Expected life	5.0 - 5.5 years
Expected volatility (based on historical prices)	210 - 223%

The Company determined the amount relating to the units in the convertible debenture to be \$76,886.

**7. CONVERTIBLE DEBENTURE (Cont'd)**

The fair value of the units of Debenture 1 were revalued at March 31, 2019 using the Black-Scholes option pricing model using the following assumptions:

Share price	\$0.10 CDN
Expected dividend yield	Nil
Exercise price	\$0.05 - \$0.10 CDN
Risk free interest rate	1.71% - 1.89%
Expected life	1.37 - 1.87 years
Expected volatility (based on historical prices)	87% - 89%

The units were revalued at \$168,755 resulting in a gain on revaluation of derivative liability of \$11,681.

**9. STOCK OPTIONS AND WARRANTS**

**(a) Stock Options**

The Company has a Stock Option Plan (the "Plan") to provide options for the benefit of employees, directors and third parties. The maximum number of shares allocated to and made available to be issued under the Plan shall not exceed 10% of the common shares issued and outstanding (on a non-diluted basis) at any time. The exercise price of options granted under the Stock Option Plan will be determined by the directors, but will be at least equal to the closing trading price for the common shares for the last trading day prior to the grant and otherwise the fair market price as determined by the Board of Directors. The term of any option granted shall not exceed five years. Except as otherwise provided elsewhere in the Stock Option Plan, the options shall be cumulatively exercisable in installments over the option period at a rate to be fixed by the Board of Directors. The Company will not provide financial assistance to any optionee in connection with the exercise of options.

**11. RELATED PARTY TRANSACTIONS**

Related parties include the Board of Directors, close family members and enterprises which are controlled by these individuals as well as certain persons performing similar functions.

Related party transactions conducted in the normal course of operations are measured at fair value.

Remuneration of Directors and key management of the Company was as follows:

	<b>March 31, 2019</b>	March 31, 2018
Management and director fees <sup>(i)</sup>	<b>63,980</b>	<b>66,314</b>

(i) Included in office and administrative costs in the consolidated statements of income (loss) and comprehensive income (loss).

Other related party balances are listed below:

(a) Included in accounts payable and accrued liabilities is \$434,093 (December 31, 2018 - \$398,060) of amounts owing to directors and management of the Company for management and director fees.

**12. CAPITAL RISK MANAGEMENT**

The Company's objective when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company includes capital stock, contributed surplus, deficit and foreign currency warrants in the definition of capital.

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to conduct further exploration on its properties. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity and warrants, debt or by securing strategic partners.

The Company is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the period ended March 31, 2019.

**13. FINANCIAL RISK MANAGEMENT**

The Company is exposed to a variety of financial risks by virtue of its activities. In particular market risk (composed of currency risk), liquidity risk, fair value risk, interest risk and credit risk. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by management under policies approved by the Board of Directors. Management is charged with the responsibility of establishing controls and procedures to ensure that financial risks are mitigated in accordance with the approved policies.

**(a) Market Risk**

(i) Currency risk

The Company operates internationally and is exposed to foreign exchange risk from the Canadian Dollar. Foreign exchange risk arises from purchase transactions as well as recognized financial assets and liabilities denominated in foreign currencies.

As at March 31, 2019, the Company is exposed to currency risk through the following financial assets and liabilities denominated in Canadian dollars:

	<b>March 31, 2019</b>	December 31, 2018
Cash	<b>\$ 100,636</b>	\$ 148,933
Accounts payable and accrued liabilities	<b>\$ 626,225</b>	\$ 621,125

The above balances were translated into US dollars at the period-end rate of \$0.7483 (December 31, 2018 - \$0.7330) Canadian dollars to every US dollar.

Based on the above net exposures as at March 31, 2019, assuming that all other variables remain constant, a +/- 5% change in the Canadian dollar against the United States dollar would result in an increase/decrease in net income of approximately \$20,000.

**(b) Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. Senior management is also actively involved in the review and approval of planned expenditures.

As at March 31, 2019, the Company has current liabilities of \$476,193 (December 31, 2018 - \$472,674) due within 12 months and has cash of \$76,161 (December 31, 2018 - \$110,170) to meet its current obligations. As a result, the Company has liquidity risk and is dependent on raising additional capital to fund operations.

The convertible debenture has a contractual maturity of August 11, 2020.

**13. FINANCIAL RISK MANAGEMENT (Cont'd)**

**(c) Fair Value Risk**

The carrying values of reclamation bonds, accounts payable and accrued liabilities approximate fair values due to the relatively short-term maturities of these instruments. The estimated fair values of convertible debt also approximate carrying values due to the fact that effective interest rates are not significantly different from market rates. The estimated fair values of warrants are subject to fluctuations based on the inputs and assumptions used to value them.

**(d) Interest Rate Risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's interest rate risk is primarily related to the Company's interest-bearing debt on its consolidated statement of financial position. The Company does not have any debt with variable interest rates, thereby minimizing the Company's exposure to cash flow interest rate risk.

**(e) Credit Risk**

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk with respect to its cash. The Company reduces its credit risk by maintaining its primary bank accounts at large financial institutions.

**14. COMMITMENTS**

The Company is committed under lease agreements to the payment of amounts totaling \$990 until October 2019.

The Company is also required to make payments to the Bureau of Land Management to keep mining claims in good standing as noted in Note 4.

**15. SUBSEQUENT EVENTS**

- (a) On May 24, 2019, the Company modified the expiry date of 1,200,000 outstanding warrants exercisable at a price of \$0.10 CDN from June 10, 2019 to June 10, 2021.
- (b) On April 5, 2019 the Company modified the expiry time of 1,450,000 outstanding warrants of the Company held by previous private placement investors. The warrants were exercisable at a price of \$0.10 CDN until 5:00 pm on April 22, 2019 and are now exercisable until 5:00 pm on April 22, 2021.
- (c) On April 26, 2019, African Metals Corporation ("AFR") announced that it had entered into an agreement with Frederick PEC whereby it may acquire initially a 51% interest in the Silver Bell St. Lawrence Project from Frederick PEC. As part of that transaction, AFR has agreed to expend a minimum of US\$200,000 in exploration expenditures in the first year.
