

## **RYAH Group Inc. Applies for a Management Cease-Trade Order**

**TORONTO, BC / ACCESSWIRE / April 21, 2022 / RYAH GROUP Inc. (CSE:RYAH** or the "Corporation") Board of Directors wishes to announce that the Corporation has applied for a Management Cease-Trade Order ('MCTO'). The Corporation was late in starting the audit of its yearly financial statements to December 31, 2021, because of cash flow issues. This delay will also cause delays in filing the management discussion & analysis that accompanies audited financial statements as well as the CEO and CFO certificates that are filed at the same time as the financial statements and the MD&A. The MCTO has not yet been granted. If and when it is granted a separate news release will be made on this topic. The Company thinks that it could be late in filing its audited financial statements in accordance with the statutory filing requirements.

The Issuer intends on satisfying the provisions of the alternative information guidelines described in section 9 and 10 of National Policy 12-203 so long as it remains in default of the specified requirement. RYAH is not subject to any insolvency proceedings and there is no other material information concerning the affairs of the Issuer that have not generally been disclosed.

The Corporation has now advanced money to the auditors so they can start the audit. The draft financial statements and related documents have been supplied to them and the Corporation and the auditors expect that the audited financial statements will be filed on SEDAR by the end of May 2022. The Management and the Board of Directors have endeavoured to do everything possible to assist the auditors in their work so the audit can be completed as soon as possible. When the audit is complete, and the documents have been filed on SEDAR the Corporation will issue a news release to that effect.

A Management Cease-trade Order is usually granted to give a corporation the time to remedy issues related to continuous disclosure issues (such as the timely filing of audited financial statements) while maintain the public trading in the Corporation's securities. Under a MCTO the Directors and Officers of a Corporation cannot trade the Corporation's securities for as long as the issue is not remedied. Once the situation corrected, we expect the MCTO to be lifted. While the situation lasts officers, directors and person with special relationships with the issuer cannot trade securities issued by the Company and have been advised of this black-out and have agreed to abide by it.

### **About RYAH Group Inc.**

RYAH is a big data and technology company enabling valuable AI-powered predictive analytics of the efficacy of plant-based medicines and other nutraceuticals administered through its range of innovative IoT-connected medical devices including inhalers, patches, and pens. RYAH's robust big data platform, the only one of its kind in this space, aggregates and analyzes HIPAA-compliant patient data, helping doctors and patients personalize treatments, control dosages, and better predict and monitor outcomes. The data and derived insights are also highly valuable for hospitals, clinicians, medical scientists, insurance providers, dispensaries, licensed growers, producers, and pharmaceutical companies, and to monitor and manage formulation effects on patients, based on dosages, strains, demographics, specific conditions, and a range of other factors. Exciting new directions under Dr. Richards' leadership include R&D in the realm of

blockchain, NFTs and cryptocurrency that will pave the way toward successful commercialization of RYAH's big data assets. Through the above, a relentless focus on innovation, and track record of developing win-win collaborative partnerships within relevant industries, RYAH is continuously building a unique and highly valuable IP portfolio.
