Chlormet Initiates 2014 Work Program at Chuchi

Vancouver, British Columbia (March 11th, 2014) – Chlormet Technologies Inc. (“Chlormet” or the “Company”) is pleased to announce that it has initiated its planned 2014 work program on its wholly owned Chuchi Property located in northern B.C., approximately 35 km northwest of the Mount Milligan copper-gold mine.

The Company has commissioned an aster satellite survey of the property in anticipation of its 2014 field work program that will be designed to follow up on the successful soil sampling survey conducted in 2012 (see news release dated March 14, 2012).

In addition to expanding the soil grid, the Company plans to prospect/geological map certain areas within the property as well as locate and survey all of the +50 known drill holes within the property.

The start of the 2014 field season has not been set and will be dependent on weather and snow melt.

About Chlormet Technologies

Chlormet Technologies Inc. has an experienced management team with a growth strategy to develop a diversified portfolio of projects. The Company's main objective is to add shareholder value through cost efficient acquisitions, joint ventures, and marketing while maintaining a lower risk profile through project diversification and sound financial management.

ON BEHALF OF THE BOARD OF DIRECTORS

“Ian Foreman, P.Geo.”

Director
