**Chlormet Announces Appointment of General Manager for AAA Heidelberg Facility**

Vancouver, British Columbia (May 15, 2014) – Chlormet Technologies Inc. (“Chlormet” or the “Company”) is pleased to announce that AAA Heidelberg has hired Betty Quon, as its General Manager for its London, Ontario facility. Initially, Mrs. Quon will be responsible for all aspects of AAA Heidelberg’s ongoing permit application with Health Canada in order to streamline the permitting process.

Prior to joining AAA Heidelberg, Mrs. Quon worked for the Canadian Pacific Railway Company for 26 years reaching the level of Director, Sourcing Intermodal and Automotive. In this role she was responsible for a portfolio of Canadian and US contracts worth more than \$150 million annually. She has an MBA in Marketing from McMaster University as well as a B.Sc.L in Translation from Laurentian University. Mrs. Quon was also the recipient of an International Business Scholarship from the Institute for International Studies and Training – Fujinomia, Japan.

AAA Heidelberg and Chlormet Technologies are excited to have her join the team as her skillset will enhance our ability to both attract the talent and build a team that can execute our business strategy.

Chlormet would also like to announce that the construction of the interior of the production facility is progressing and updates on the facility will be posted on AAA Heidelberg’s Facebook page (<https://www.facebook.com/pages/AAA-Heidelberg/279299808899927>).

**Cautionary Information**

The Company confirms that it has not finalized a transaction with AAA Heidelberg and the Company is proceeding with its due diligence review of AAA Heidelberg. As such a definitive agreement has not been signed. Furthermore, completion of a transaction shall be subject to AAA Heidelberg receiving a MMPR (Marihuana for Medical Purposes Regulations) license.

As previously disclosed, the Company does not know, nor can it predict, the timeframe for AAA Heidelberg to complete the application process and receive a response from Health Canada.

Accordingly, there is no certainty that AAA Heidelberg will be granted a licence under the MMPR, or that a transaction will be completed. Investors should carefully consider the risk of investing in the shares of the Company prior to completion of the transaction.

### **About Chlormet Technologies**

Chlormet Technologies Inc. has an experienced management team with a growth strategy to develop a diversified portfolio of projects that can be taken into production. The Company's main objective is to add shareholder value through cost efficient acquisitions, joint ventures, and effective marketing while maintaining a lower risk profile through project diversification and sound financial management.

ON BEHALF OF THE BOARD OF DIRECTORS

*“Yari Nieken”*
