Chlormet provides update on AAA Heidelberg

Vancouver, British Columbia (September 24, 2014) (CSE: PUF) – Chlormet is pleased to provide an update on recent developments by AAA Heidelberg on its medical marijuana facility.

Completion of the build-out of the facility continues. The facility will feature automated systems for temperature, light, humidity, carbon dioxide, and special ventilation for bacteria control. The entire facility has been planned and is being built-out to meet the highest level of pharmaceutical standards. The last major remaining interrelated components of the build-out - the HVAC and Surna Water Chilled Climate Control equipment – are currently being installed. The final components consisting of grow lights, computer systems, and security hardware will follow shortly after.

Photos taken during a recent visit to site will be posted on Chlormet's soon to be completed revised website.

AAA Heidelberg has been notified by Health Canada that it has passed the Enhanced Screening stage and is currently in the Security Stage. In this stage the principals of AAA Heidelberg are being subjected to detailed background checks. Upon passing the Security stage AAA Heidelberg anticipates a review and then a pre-license inspection.

"I am very impressed with the high calibre of the work being completed. After having been on site I can see that the finished product will be a state of the art, pharmaceutical grade facility" stated Yari Nieken, interim President and CEO of Chlormet.

About Chlormet Technologies

Chlormet Technologies Inc. is moving into the Medical Marijuana sector by purchasing a 100% interest in AAA Heidelberg, a private Ontario company that is in the process of applying for a MMPR license. Although the Company cannot guarantee nor estimate the timing for the issuance of a license to AAA Heidelberg, it is Chlormet's goal is to become the next publicly traded Canadian company to be granted a new medical marijuana production license.

With the signing of an LOI with Babcock Bench Farms (see news release dated June 19, 2014) Chlormet intends to become involved in the legal marijuana industry in Washington State by providing building, equipment and expertise to licensed growers.

ON BEHALF OF THE BOARD OF DIRECTORS

"Yari Nieken"

Interim President and CEO
