PAMPA METALS CORPORATION
(FORMERLY FIRESWIRL TECHNOLOGIES INC.)

CONSOLIDATED FINANCIAL STATEMENTS

Six Month Period Ended December 31, 2020 and Year Ended June 30, 2019
(Expressed in Canadian Dollars)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Pampa Metals Corporation (Formerly Fireswirl Technologies Inc.)

Opinion

We have audited the consolidated financial statements of Pampa Metals Corporation (Formerly Fireswirl Technologies Inc.) (the "Company"), which comprise the consolidated statement of financial position as at December 31, 2020 and the consolidated statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the six months ended December 31, 2020, and notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2020 and its financial performance and its cash flows for the six months ended December 31, 2020 in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 to the financial statements, which describes events or conditions that indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Matter

The financial statements of the Company for the year ended June 30, 2020, were audited by another auditor who expressed an unmodified opinion on those statements on August 25, 2020.

Other Information

Management is responsible for the other information. The other information comprises the information included in Management's Discussion and Analysis.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is David Goertz.

The notes to the consolidated financial statements are an integral part of these statements.

1. Nature of operations

Fireswirl Technologies Inc. ("Fireswirl" or "the Company") was founded in 1999 and became publicly listed in 2006. The address of Fireswirl registered office is 1200 - 750 West Pender Street, Vancouver, British Columbia.

West Pacific Ventures Corp. ("West Pacific") was incorporated on August 31, 2018 under the British Columbia Corporations Act. West Pacific's registered office is located at 1200-750 W Pender Street, Vancouver BC. V6C 2T8.

On July 31, 2020, the Company entered into a definitive property purchase agreement to acquire a 100% interest in eight copper projects in northern Chile Revelo Resources Corp. ("Revelo") (note 9). On November 27, 2020, West Pacific completed the acquisition.

On November 27, 2020, West Pacific completed a takeover transaction (the “Transaction”) by way of three-cornered amalgamation with Fireswirl, pursuant to an agreement (the “Definitive Agreement”) dated September 1, 2020 between West Pacific, 1263621 B.C. Ltd., Fireswirl and Revelo. Pursuant to the Definitive Agreement, West Pacific amalgamated with 1263621 B.C. Ltd., and Fireswirl issued 33,048,948 common shares and 5,030,625 share purchase warrants (“Warrants”) of Fireswirl to the shareholders of West Pacific on a one for one basis in exchange for all of outstanding shares and warrants of West Pacific. The Transaction was accounted for as a reverse takeover ("RTO") whereby West Pacific was identified as the acquirer for accounting purpose and the resulting consolidated financial statements are presented as a continuance of West Pacific and the comparative figures presented in the consolidated financial statements after the RTO are those of West Pacific. After the RTO, the combined entity of Fireswirl and West Pacific is referred to also as " the Company" in these consolidated financial statements. After the Transaction, Fireswirl was renamed Pampa Metals Corporation ("Pampa" or the "Company").

On November 27, 2020, in connection with the Transaction, Fireswirl voluntarily delisted its common shares from the NEX board of the TSX Venture Exchange ("TSXV") in order to list its common shares on the Canadian Securities Exchange ("CSE"). On December 14, 2020, the Company initiated trading on the CSE under the ticker symbol "PM".

Subsequent to the RTO, West Pacific changed its year end from June 30 to December 31.

These consolidated financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Accordingly, it does not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern, and, therefore be required to realized its assets and liquidate its liabilities in other than the normal course of business and at amounts that may differ from those shown in these consolidated financial statements. Such adjustments could be material.

1. Nature of operations (continued)

At December 31, 2020, the Company has a working capital of $3,104,021 and had accumulated losses of $2,575,916. The Company expects to incur further losses in the development of its business. These circumstances indicate that material uncertainties exist that may cast significant doubt about the Company's ability to continue as a going concern and, accordingly, the ultimate use of accounting principles applicable to a going concern.

A number of alternatives including, but not limited to selling an interest in one or more of its properties or completing a financing, are being evaluated with the objective of funding ongoing activities and obtaining working capital. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due; all of which are uncertain.

These consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets, liabilities and reported expenses should the Company be unable to continue as a going concern. These adjustments could be material.

The outbreak of the novel strain of coronavirus, specifically identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

2. Significant accounting policies

(a) Statement of compliance

These consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the IFRS Interpretations Committee ("IFRIC"), effective for the Company's reporting for the period ended December 31, 2020. The policies set out below are based on IFRS issued and outstanding as of May 4, 2021, the date of the Directors approved the statements.

(b) Basis of Measurement

These consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measure at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(c) Functional and Presentation Currency

The consolidated financial statements have been prepared in Canadian dollars, which is the Company’s functional and presentation currency. The functional currency of the Company and its subsidiaries is the Canadian dollar.

2. Significant accounting policies (continued)

(d) Significant Accounting and Estimates and Judgements

The preparation of these consolidated financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported revenues and expenses during the period. Actual outcomes could differ from these estimates. These consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout these consolidated financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates and judgments:
Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, relate to, but are not limited to, the following:

- Income taxes - measurement of income taxes payable and deferred income tax assets and liabilities requires management to make judgments in the interpretation and application of the relevant tax laws. The actual amount of income taxes only become final upon filing and acceptance of the tax return by the relevant authorities, which occurs subsequent to the issuance of the consolidated financial statements;
- Recognition of deferred income tax assets - In assessing the probability of realizing income tax assets, management makes estimates related to expectations of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified;
- Going concern - management must make an assessment as to the going concern basis of accounting and uncertainties associated with the Company’s ability to raise additional capital and/or obtain financing to advance the exploration properties; and
- Impairment of Exploration and Evaluation (E&E) asset - The application of the Company's accounting policy for impairment of E&E assets requires judgment in determining if the facts and circumstances suggests that the carrying amount exceeds the recoverable amount.
- Stock-based compensation - the Company uses the fair value method of valuing compensation expense associated with the Company’s share-based compensation plan. Estimating fair value requires determining the most appropriate valuation model for a grant of equity instruments, which is dependent on the terms and conditions of the grant. Option-pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Changes in the underlying assumptions can materially affect the fair value estimates and, therefore, existing models do not necessarily provide reliable measurement of the fair value of the Company’s stock options.

2. Significant accounting policies (continued)

(e) Basis of consolidation

The consolidation financial statements incorporate the financial statements of the Company and its subsidiary. The results of subsidiary acquired or disposed of during the years presented are included in these consolidated statements of loss from the effective date of control and up to the effective date of disposal or loss of control, as appropriate. An investor controls an investee if the investor has the power over the investee, has the exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns. All intercompany transactions, balances, income and expenses are eliminated upon consolidation.

The following subsidiaries have been consolidated within the consolidated financial statements:

	Registered	Principal activity
West Pacific Ventures Corp.	British Columbia, Canada	Holding company
Pampa Metals Chile SpA	Chile	Mineral exploration and evaluation

(f) Financial instruments

Recognition

The Company recognizes a financial asset or financial liability on the statement of financial position when it becomes party to the contractual provisions of the financial instrument. Financial assets are initially measured at fair value, and are derecognized either when the Company has transferred substantially all the risks and rewards of ownership of the financial asset, or when cash flows expire. Financial liabilities are initially measured at fair value and are derecognized when the obligation specified in the contract is discharged, cancelled or expired.

A write-off of a financial asset (or a portion thereof) constitutes a derecognition event. Write-off occurs when the Company has no reasonable expectations of recovering the contractual cash flows on a financial asset.

Classification and Measurement

The Company determines the classification of its financial instruments at initial recognition. Financial assets and financial liabilities are classified according to the following measurement categories:

- those to be measured subsequently at fair value, either through profit or loss (“FVTPL”) or through other comprehensive income (“FVTOCI”); and,
- those to be measured subsequently at amortized cost.

The classification and measurement of financial assets after initial recognition at fair value depends on the business model for managing the financial asset and the contractual terms of the cash flows. Financial assets that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding, are generally measured at amortized cost at each subsequent reporting date. All other financial assets are measured at their fair values at each subsequent reporting date, with any changes recorded through profit or loss or through other comprehensive income (which designation is made as an irrevocable election at the time of recognition).

2. Significant accounting policies (continued)

(f) Financial instruments (continued)

After initial recognition at fair value, financial liabilities are classified and measured at either:

- amortized cost;
- FVTPL, if the Company has made an irrevocable election at the time of recognition, or when required (for items such as instruments held for trading or derivatives); or,
- FVTOCI, when the change in fair value is attributable to changes in the Company's credit risk.

The Company reclassifies financial assets when and only when its business model for managing those assets changes. Financial liabilities are not reclassified.

Transaction costs that are directly attributable to the acquisition or issuance of a financial asset or financial liability classified as subsequently measured at amortized cost or FVTOCI are included in the fair value of the instrument on initial recognition. Transaction costs for financial assets and financial liabilities classified at FVTPL are expensed in profit or loss.

The Company's financial assets consists of cash, which is classified and subsequently measured at FVTPL and loan and subscription receivable which is classified and subsequently measured at amortized cost. The Company's financial liabilities consist of accounts payable and accrued liabilities which are classfied and measured at amortized cost using the effective interest method.

Impairment

The Company assesses all information available, including on a forward-looking basis the expected credit losses associated with any financial assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. To assess whether there is a significant increase in credit risk, the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition based on all information available, and reasonable and supportive forward-looking information.

(g) Loss Per Share

Basic loss per share is calculated by dividing the net loss available to common shareholders by the weighted average number of shares outstanding during the year. Diluted earnings per share reflect the potential dilution of securities that could share in earnings of an entity. In a loss year, potentially dilutive common shares are excluded from the loss per share calculation as the effect would be anti-dilutive. Basic and diluted loss per share are the same for the periods presented.

2. Significant accounting policies (continued)

(h) Mineral properties

Costs related to the acquisition and exploration of mineral properties ("E&E assets") are capitalized until a decision is made as to whether or not the assets contain sufficient economic reserves for mine development. These costs would also include periodic fees such as license and maintenance fees. Mineral property acquisition costs include cash consideration and the fair value of common shares issued for mineral property interests, pursuant to the terms of the relevant agreement.

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry practice for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

The Company assesses E&E assets for impairment when facts or circumstances suggest that the carrying amount of the asset may exceed its recoverable amount. When this is the case, the Company would carry out an impairment test on the asset or group of assets, which requires estimate and judgment in determining the recoverable amount with reference to the fair value of the assets or group of assets less costs to sell or the value-in-use calculation. Where the recoverable amount is determined to be less than the carrying amount, an impairment loss may arise. If a mineral property interest is abandoned, the acquisition costs will be written off to statement of loss.

(i) Share-based compensation transactions

Employees (including directors and senior executives) of the Company receive a portion of their remuneration in the form of share-based compensation transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions"). In situations where equity instruments are issued and some or all of the goods or services received by the entity as consideration cannot be specifically identified, such as share-based payments to employees, they are measured at fair value of the share-based payment. Share-based payments to employees of the subsidiaries are recognized as cash settled share-based compensation transactions.

(j) Income taxes

Income tax on these consolidated statements of loss for the years presented comprises current and deferred tax. Income tax is recognized in these consolidated statements of loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.
Deferred tax is recognized in respect of taxable temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and joint ventures to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognized for taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to taxable temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

2. Significant accounting policies (continued)

(i) Income taxes (continued)

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(j) Provisions

A provision is recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

The Company had no material provisions at December 31, 2020 and June 30, 2020.

(k) Foreign currencies

The functional currency of the parent company and its subsidiaries is the Canadian dollar. The Canadian dollar is the currency in which it presents these consolidated financial statements. The Company recognizes transactions in currencies other than the Canadian dollar or the Chilean peso for its subsidiary at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the end of reporting period exchange rates are recognized in the consolidated statements of loss and comprehensive loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(Expressed in Canadian Dollars)

3. Loan receivables

During the period ended December 31, 2020, the Company wrote off the loan receivable and as at December 31, 2020, the loan receivable outstanding was $nil (June 30, 2020 - $5,800) which are unsecured, non-interest bearing and are due on demand.

4. Subscription and other receivables

As at	December 31, 2020	June 30, 2020
Subscription receivable	$ -	$ 8,000
HST receivable	20,284	-
	$ 20,284	$ 8,000

	$ 123,358	$ -

6. Accounts payable and accrued liabilities

As at	December 31, 2020	June 30, 2020
Accounts payable	$ 57,993	$ -
Accrued liabilities	271,890	28,786
	$ 329,883	$ 28,786

7. Reverse takeover

On November 27, 2020, Fireswirl issued 33,048,948 common shares and 5,030,625 share purchase warrants to acquire 100% of the outstanding shares and warrants of West Pacific (note 1).The substance of the transaction is a reverse takeover of a non-operating company. The transaction does not constitute a business combination as the Company does not meet the definition of a business under the standard. As a result, the transaction is accounted for as a share-based payment transaction with West Pacific being identified as the acquirer and the equity consideration being measured at fair value. The resulting consolidated statement of financial position is presented as a continuance of West Pacific and comparative figures presented in the consolidated financial statements after the reverse takeover are those of West Pacific.

IFRS 2, Share-based Payments, applies to transactions where an entity grants equity instruments and cannot identify specifically some or all of the goods or services received in return. Because West Pacific effectively issued shares with a value in excess of the net assets received, the difference is recognised in net loss as a listing expense.

The fair value of the consideration is determined based on the percentage of ownership the legal parent's shareholders have in the combined entity after the transaction. This represents the fair value of the shares that West Pacific would have had to issue for the ratio of ownership interest in the combined entity to be the same, if the transaction had taken the legal form of West Pacific acquiring 100% of the shares in Fireswirl. The percentage of ownership Fireswirl shareholders had in the combined entity is 16% after the issue of 33,048,948 Fireswirl shares. The fair value of the consideration in the RTO is equivalent to the fair value of the 6,140,735 Fireswirl shares controlled by original Fireswirl shareholders, 370,000 warrants to Fireswirl warrant holders, and 5,025 broker warrants to Fireswirl broker warrant holders. The fair value of the shares controlled by original Fireswirl shareholders was estimated to be $1,903,628 based on the fair market value of $0.31 per share in the most recent private placement of Fireswirl on the date of October 19, 2020. The fair value of the warrants was estimated to be $61,992 using the Black-Scholes valuation model on the following assumptions: dividend yield 0%; volatility 136%; risk-free interest rates of 0.21%; and expected lives of 1.89 to 2 years. The fair value of the broker warrants was estimated to be $905 using the Black-Scholes valuation model on the following assumptions: dividend yield 0%; volatility 136%; risk-free interest rate 0.21%; and an expected life of 2 years. The Company also issued 795,000 common shares of the Company as a finder's fee to 1247979 B.C. Ltd., a third party which was valued at $246,450 based on the fair market value of $0.31 per share in the most recent private placement of Fireswirl on the date of October 19, 2020.

(Expressed in Canadian Dollars)

7. Reverse takeover (continued)

Based on the consolidated statement of financial position of Fireswirl at the time of the RTO, the net assets at estimated fair value that were acquired by West Pacific were $11,973 and the resulting transaction cost charged to the consolidated statement of loss and comprehensive loss is as follows:

Consideration	
Common shares	$ 1,903,628
Fair value of warrants	61,992
Fair value of broker warrants	905
Common shares issued to finder	246,450
Total consideration	**$ 2,212,975**
Identifiable assets acquired	
Cash	$ 61,707
Accounts receivable	26,315
Accounts payable and accrued liabilities	(76,050)
Total identifiable assets acquired	11,972
Unidentifiable assets acquired	
Transaction cost	2,201,003
Total net identifiable assets and transaction cost	**$ 2,212,975**

8. Share capital

(a) Authorized

The Company is authorized to issue an unlimited number of common shares.

(b) Issued and outstanding - Common Shares

(i) During the year ended June 30, 2020, 14,300,000 common shares were issued in private placements for gross proceeds of $535,000.

(ii) On November 27, 2020, the Company issued 7,798,747 common shares to Revelo for the purchase of 8 copper concessions in northern Chile.

(iii) On November 3, 2020, the Company completed a private placement of 10,061,250 subscription receipts of the Company at a price of $0.40 per subscription receipt for gross proceeds of $4,024,500. Each Subscription Receipt automatically converted into a unit of West Pacific and was exchanged for a unit of the Fireswirl on closing of the RTO. Each unit of the Company consists of a common share of the Company and half of a share purchase warrant, with each whole warrant being exercisable to acquire a further common share of the Company at a price of $0.60 for a period of two years from the escrow release date. The fair value of the 5,030,625 warrants was estimated at $764,072 using the Black-Scholes Option Pricing Model with the following assumptions: share price on issuance date of $0.31, risk-free rates between 0.21%, dividend rate of 0%, expected life of between 2 years, and volatility of 136%.

(Expressed in Canadian Dollars)

8. Share capital (continued)

b) Issued share capital (continued)

(iii) (continued) The Company issued 93,750 common shares to the broker for the private placement which was valued at $29,063 based on the share price on issuance date of $0.31 and was included in the share issuance costs.The Company also issued 446,381 broker warrants with each broker warrant being exercisable to acquire a further common share of the Company at a price of $0.60 for a period of two years. The fair value of the 446,381 broker warrants was estimated at $76,968 using the Black-Scholes Option Pricing Model with the following assumptions: share price on issuance date of $0.31, risk-free rates between 0.21%, dividend rate of 0%, expected life of between 2 years, and volatility of 136%.

The Company incurred a total share issuance cost of $393,710 of which $84,648 was allocated to the warrants issued.

Warrants and broker warrants

A summary of the Company's share purchase warrants and broker warrants for the period ended December 31, 2020 and year ended June 30, 2020 are as follows:

	Number of warrants outstanding	Weighted average exercise price ($)
Balance, June 30, 2019 and June 30, 2020	-	$ -
Warrants issued in private placement	5,030,625	0.60
Broker warrants issued in private placement	446,381	0.60
Warrants issued in RTO	370,000	0.60
Broker warrants issued in RTO	5,250	0.60
Balance, December 31, 2020	5,852,256	0.60

As at December 31, 2020, the following warrants and broker warrants are outstanding:

Expiry date	Options outstanding	Exercise price ($)	Weighted average remaining life (years)
Warrants			
October 19, 2022	332,500	0.60	1.80
November 27, 2022	5,068,125	0.60	1.91
	5,400,625	0.60	1.90
Broker warrants			
November 27, 2022	451,631	0.60	1.91
Total warrants and broker warrants	5,852,256	0.60	1.90

(Expressed in Canadian Dollars)

8. Share capital (continued)

Stock options

The movement in the Company's share options for the period ended December 31, 2020 and year ended June 30, 2020 are as follows:

	Number of stock options outstanding	Weighted average exercise price
Balance, June 30, 2019 and June 30, 2020	-	$ -
Granted (i)	3,000,000	0.45
Balance, December 31, 2020	3,000,000	$ 0.45

(i) On December 22, 2020, the Company granted 3,000,000 stock options to certain officers and directors of the Company. The stock options have an exercise price of $0.45 per share and are exercisable for a period of five years from the date of grant. The stock options have a three year vesting period with one-third vesting at the end of 12 months from the date of grant, one-third at 24 months from the date of grant and one-third at 36 months from the date of grant. The fair value of the stock options of $996,471 was determined using the Black-Scholes option pricing model with the following assumptions: 5 years expected life; share price at the grant date of $0.385; 136% volatility; risk free interest rate of 0.42%; and a dividend yield of 0%.

Grant date	Options outstanding	Options vested	Weighted average remaining life (years)	Exercise price ($)	Expiry date
December 22, 2020	3,000,000	-	4.98	0.45	December 22, 2025

9. Mineral property interests

West Pacific holds the right to acquire a 100% interest in eight copper projects in northern Chile from Revelo Resources Corp. pursuant to the terms of a binding letter of intent between West Pacific and Revelo.

According to the definitive property purchase agreement between West Pacific and Revelo, the Company acquired the eight copper projects in Chile by paying Revelo on closing of the acquisition US$300,000 in cash and issuing 7,798,747 common shares of the Company (note 8). In addition, Revelo may receive a contingent payment of US$2,000,000 on a project-by-project basis (up to a total of US$16,000,000) on the completion of the first bankable feasibility study on a project, and a further contingent payment of US$3,000,000 on a project-by-project basis (up to a total of US$24,000,000) upon the initiation of commercial production on a project. As at December 31, 2020, the timeline for the completion of the first bankable feasibility study and the initiation of commercial production on a project has not been determined.

(Expressed in Canadian Dollars)

9. Mineral property interests (continued)

	Six Months Ended December 31, 2020	Year Ended June 30, 2020
Balance, Opening	$ 191,909	$ -
Acquisition:		
Addition - cash	236,608	178,008
Addition - common shares	2,417,612	-
Sub-total, acquisition costs	2,654,220	178,008
Deferred exploration costs:		
Assaying	14,744	13,901
Geology	146,441	-
Professional fees	98,401	-
Property and other maitenance	17,686	-
Salaries	8,154	-
Sub-total, deferred exploration costs	285,426	13,901
Balance, Ending	$ 3,131,555	$ 191,909

10. Capital disclosure

The Company defines its capital as as shareholders' equity. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company currently has an interest are in the exploration stage. As such, the Company has historically relied on the equity markets to fund its activities. In addition, the Company is dependent upon external financings to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will need to raise additional funds. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's capital management objectives, policies and processes have remained unchanged during the period ended December 31, 2020. The Company is not subject to any capital requirements imposed by a lending institution or regulatory body.

11. Financial Instruments and Risk Exposures and Management

The three levels of the fair value hierarchy are:

Level 1 - unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2 - inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
Level 3 - inputs that are not based on observable market data.

The Company enters into financial instruments to finance its operations in the normal course of business. The fair values of cash and cash equivalents, loan receivable, accounts payable and accrued liabilities approximate their carrying values due to the short-term maturity of these instruments.

The fair value of the Company's financial instruments has been classified within the fair value hierarchy as at December 31, 2020 and June 30, 2020 as follows:

	Level 1	Level 2	Level 3	Total
Financial assets				
Cash - December 31, 2020	$ 3,290,262	$ -	$ -	$ 3,290,262
Cash - June 30, 2020	$ 322,136	$ -	$ -	$ 322,136

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate risk, foreign currency risk and commodity price risk). Risk management is carried out by the Company's management team, with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance on overall risk management.

Credit risk

Credit risk is the risk of loss associates with a counterparty's inability to fulfil its payment obligations. The Company's cash is largely held in large Canadian financial institutions. The Company does not have any asset-backed commercial paper. The Company maintains cash deposits with a Schedule A financial institution, which from time to time may exceed federally insured limits. The Company is further exposed to credit risk through its loan's receivable. The Company has not experienced any significant credit losses and believes it is not exposed to any significant credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. As at December 31, 2020, the Company had working capital of $3,104,021 (June 30, 2020 - $307,150).

Foreign exchange risk

The Company's functional and reporting currency is the Canadian dollar and substantially are expenditures are transacted in Canadian dollars. As a result, the Company's exposure to foreign currency risk is minimal.

(Expressed in Canadian Dollars)

12. Related party transactions

Related party transaction

Related parties include the Board of Directors, close family members, other key management individuals and enterprises that are controlled by these individuals as well as certain persons performing similar functions. The Company define keys management personnel as its CEO, CFO and Board of Directors.

The Company incurred no related party transactions during the six months ended December 31, 2020 and year ended June 30, 2020.

Compensation of key management personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly. Key management personnel include the Company's CEO, CFO and members of the Company's Board of Directors.

Compensation awarded to key management personnel is as follows:

	Six Months Ended December 31, 2020	Year Ended June 30, 2020
Management compensation	$ 9,711	$ -
Stock-based compensation	15,015	-
	$ 24,726	$ -

(Expressed in Canadian Dollars)

13. Income taxes

The reported recovery of income taxes differs from amounts computed by applying the statutory income tax rates to the reported loss before income taxes due to the following:

	Six Months Ended December 31, 2020	Year Ended June 30, 2020
Loss before recovery of income taxes	$ (2,539,875)	$ (27,640)
	27%	27%
Expected income tax (recovery) at statutory rate	673,000	7,325
Non deductible expenditures	(492,000)	-
Share-based payment reserve	105,000	-
Adjustment to prior year provision versus statutory tax returns	60,449	-
Change in unrecognized tax benefit	(346,449)	(7,325)
Actual income tax recovery	$ -	$ -

Details of deferred tax assets:

The temporary differences and unused tax losses that give rise to deferred income tax balances are presented below:

As at	December 31, 2020	June 30, 2020
Non-capital losses carry forward	$ 242,000	$ 9,551
Share issue costs and other	86,000	-
Exploration and evaluation	59,000	-
Total deferred tax assets	$ 387,000	$ 9,551
Less: valuation allowance on deferred tax assets	(387,000)	(9,551)
	$ -	$ -

The Company has approximately $900,000 of non-capital losses available, which expiry between 2039 and 2040 and may be applied against future taxable income for income tax purposes.

At December 31, 2020, the potential benefit of these losses and deductible temporary differences in excess of the deferred tax liabilities have not been recognized in these financial statements as it is not considered probable that sufficient future tax profit will allow the deferred tax assets to be recovered.

14. Subsequent event

Subsequent to December 31, 2020, the Company completed a private placement financing of 6,115,062 units ("Units") at a price of $0.45 per Unit for gross proceeds to the Company of $2,751,780. Each Unit was comprised of one common share and one-half of one common share purchase warrant of the Company. Each whole warrant (a "Warrant") is exercisable into one common share at an exercise price of $0.60 per share for 24 months. The Company may reduce the exercise period of the Warrants to 30 days from the date the Company provides notice to the holders of the warrants that the weighted average trading price of the common shares of the Company on the CSE is $0.90 or greater for a period of 10 consecutive trading days.
