

Empower Clinics Announces Significant Patient Growth in February 2020 with Visits Increasing by 800%

VANCOUVER, BC / ACCESSWIRE / March 4, 2020 / EMPOWER CLINICS INC. (CSE: CBDT) (OTC: EPWCF) (Frankfurt 8EC) ("**Empower**" or the "**Company**"), a vertically integrated and growth-oriented life sciences company, is pleased to announce that patient visits in corporate clinics increased by 800% in February 2020 versus the same period in 2019, with total patient visits of 1,817 in February 2020 compared to 227 in February 2019.

"Patient volumes have remained strong to start the year in all clinics, continuing on our push for a record first quarter." said Dustin Klein, SVP Business Development and Director of Empower. "Operational excellence each day, combined with exemplary care for the patient, sets us apart in the markets we serve."

The Company also has received numerous inquiries with both positive and supportive sentiment, after the recent announcement of the Company's intention to create a psilocybin and psychedelics division.

"Getting positive reinforcement from researchers, physicians, advocates and practitioners about our intention to enter this developing field of study, gives me confidence that we have made the correct decision to leverage our corporate assets for psilocybin and psychedelics research and development." said Steven McAuley, Chairman & CEO of Empower.

ABOUT EMPOWER

Empower is a vertically-integrated health & wellness brand with its first hemp-derived CBD extraction facility under development, the Company produces its proprietary line of cannabidiol (CBD) based products and distributes products through company owned and franchised clinics, with wholesale partnerships, online channels and with new retail opportunities nationwide in the U.S. The company is a leading multi-state operator of a network of physician-staffed wellness clinics, focused on helping patients improve and protect their health, through innovative physician recommended treatment options. The company has commenced activity on how to connect its significant data, to the potential of the efficacy of alternative treatment options related to hemp-derived cannabidiol (CBD) therapies.
