

## **Tabula Rasa HealthCare Partners with Empower Clinics to Provide Clinical and Technical Call Center Services for COVID-19 and Influenza A/B At-Home Testing**

**VANCOUVER BC: July 20, 2021 – EMPOWER CLINICS INC. (CBOT: CSE) (SEC: Frankfurt) (EPWCF: OTCQB) (“Empower” or the “Company”)** an integrated healthcare company - serving patients through medical centers, telemedicine platforms and a high complexity medical diagnostics laboratory processing thousands of COVID-19 specimens – is pleased to announce a partnership with **Tabula Rasa HealthCare, Inc (TRHC) (NASDAQ: TRHC)** - a leading healthcare technology company advancing the safe use of medications - to provide call center services for Kai Care’s COVID-19 and Influenza A/B At-Home Salvia Test Kit.

Staffed by pharmacists and pharmacy technicians, TRHC’s MedWise HealthCare Call Centers can effectively address customer questions about the test, including how to administer it and interpret the results, providing ready access to healthcare expertise, and helping to improve consumer confidence about the reliability of these important At-Home Test Kits.

“As flu season starts to pick up, differentiating COVID (and the potential strain variations) from flu will be immensely important, and potentially save lives,” said Steven McAuley, Chairman & CEO of Empower. “This is especially timely given the Delta variant is between 40-60% more transmissible than the previous strains of COVID. TRHC’s MedWise HealthCare Call Centers, expertly staffed with pharmacists and other healthcare professionals will bring extra healthcare expertise and sensitivity to those customers or their providers who have questions or a need to discuss their results.”

“We are delighted to help Kai Medical Laboratory meet the needs for COVID-19 testing and vaccinations, especially as we move into flu season,” said TRHC Executive Vice President, Pharmacy, Farah Madhat, PharmD, MA. “Our call center specialists will provide support for clinical services such as test type, accuracy rate, specificity, and sensitivity for the individual, in addition to assisting customers with ordering, activating, and interpreting the results of the test.”

Kai Medical Laboratory President Yoshi Tyler notes, “It is important to remember, if someone has COVID-19, it could take them longer to experience symptoms than if they had the flu. Remaining vigilant and careful in the months to come into this upcoming flu season and prioritizing testing will be vital to minimizing the spread. Running the tests that are needed will make all the difference.

Testing is the frontline in keeping these contagions at bay,” Tyler continued. “Knowing where and when these viruses are spreading gives us the power to contain and control and ultimately care for those around us. TRHC offers quality compliance for people to conveniently monitor and improve their health. Our partnership with TRHC works to meet those needs as more and more people access the Kai Care COVID-19 and Influenza A/B At-Home Salvia Test Kit. We look forward to rolling out more Kai at-home tests in the coming weeks.”

### **About Tabula Rasa HealthCare**

Tabula Rasa HealthCare (TRHC) provides medication safety solutions that empower healthcare professionals and consumers to optimize medication regimens, combatting medication overload and reducing adverse drug events – the fourth leading cause of death

in the US. TRHC's proprietary technology solutions, including MedWise®, improve patient outcomes, reduce hospitalizations, and lower healthcare costs. #### DISCLAIMER FOR FORWARD-LOOKING STATEMENTS

*This news release contains certain "forward-looking statements" or "forward-looking information" (collectively "forward looking statements") within the meaning of applicable Canadian securities laws. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as at the date of this news release. Forward-looking statements can frequently be identified by words such as "plans", "continues", "expects", "projects", "intends", "believes", "anticipates", "estimates", "may", "will", "potential", "proposed" and other similar words, or information that certain events or conditions "may" or "will" occur. Forward-looking statements in this news release include, but are not limited to, statements regarding: the expected benefits to the Company and its shareholders as a result of the acquisition of Kai Medical Laboratory; the transaction terms; the expected number of clinics and patients following the closing; the future potential success of Kai Medical Laboratory, Sun Valley's franchise model; launch of new healthcare centers and the occurrence thereof; that the Company can bring healthcare to millions of Canadians; that new healthcare services can be added and that the Company will be positioned to be a market-leading service provider for complex patient requirements in 2020 and beyond. Such statements are only projections, are based on assumptions known to management at this time, and are subject to risks and uncertainties that may cause actual results, performance or developments to differ materially from those contained in the forward-looking statements, including: that Kai Medical Laboratory will successfully win any US Government RFP; that the MedX Health pilot program will be successful; that Empower will place the MedX Health tele dermatology product in health centers in North America; that the Company's products may not work as expected; that the Company may not be able to expand COVID-19 testing; that Kai Care test kits will actually be sold in pharmacy locations; that legislative changes may have an adverse effect on the Company's business and product development; that the Company may not be able to obtain adequate financing to pursue its business plan; that the Company will be able to commence and/or complete build-outs and tenants improvements for Canadian clinics or Kai Medical Laboratory expansion in 2Q 2021; that general business, economic, competitive, political and social uncertainties; failure to obtain any necessary approvals in connection with the proposed transaction; and other factors beyond the Company's control. No assurance can be given that any of the events anticipated by the forward-looking statements will occur or, if they do occur, what benefits the Company will obtain from them. Readers are cautioned not to place undue reliance on the forward-looking statements in this release, which are qualified in their entirety by these cautionary statements. The Company is under no obligation, and expressly disclaims any intention or obligation, to update or revise any forward-looking statements in this release, whether as a result of new information, future events or otherwise, except as expressly required by applicable laws.*
