Quarterly Financial ConditionCapital Resources

Management estimates that the current cash position and future cash flows from options will not be sufficient for the Company to carry out its anticipated operating plans through 2017. The Company will therefore rely on debt or equity financing in 2017 to continue with its operation.

Liquidity

The Company had a working capital deficiency of \$399,536 as at September 30, 2017 (December 31, 2016 – working capital deficiency of \$943,543). Cash totaled \$11,328 as at September 30, 2017, an increase of \$10,916 from \$412 as at December 31, 2016. The increase was a result of \$11,318 cash received from the sale of the subsidiaries and \$53,307 provided by operating activities including changes in working capital; and offset by \$53,709 effects of exchange rate changes.

As of the date of this MD&A, the Company has no other outstanding commitments. The Company has not pledged any of its assets as security for loans, or otherwise and is not subject to any debt covenants.
