WESTSTAR CONFIRMS NEGOTIATIONS IN THE ELECTRONIC-CIGARETTE/VAPOR MARKET

Vancouver, BC – June 11, 2014: Weststar Resources Corp. (TSX-V: WER) (the “**Company**” or “**Weststar**”) announced today that it is conducting due-diligence/negotiations with a 2nd BC Private Company (“PrivCo2”), focused on the Electronic-Cigarette (“E-Cig”)/Vapor/E-Juice Market.

In its continuing efforts to enhance shareholder value, Weststar confirms negotiations with a Canadian company that is establishing itself as a world-wide player in this multibillion-dollar emerging E-Cigarette/Vapor/E-Juice Market. “Having a near-term revenue opportunity in a high-growth business sector is a very compelling option for Weststar,” said Will Rascan, CEO/President of Weststar. “Coupled with the potential of entering the medicinal marijuana space, this is a combination that could be synergistically beneficial.”

The E-Cig market is revolutionizing the tobacco industry, growing from \$20 million in 2008 to \$3 billion in 2013, according to Canaccord Genuity Corp. Wells Fargo Securities predicts E-Cig consumption could surpass combustible cigarettes in 10 years and for vapor product sales to rise from 400 million pack equivalents in 2013 to 5 billion in 2022. Electronic cigarettes and their variants are battery-powered products that enable users to inhale vapor without smoke, tar, ash and carbon monoxide. E-Cigs allow the user to simulate smoking, with most containing nicotine in order to satisfy the tobacco smoker.

Although the Company has been in discussions, no agreement in principle has been entered into with any parties and there is no assurance that the Company will acquire any E-Cig/Vapor related assets. Weststar cautions investors to carefully consider the risk of investing in the shares of the Company prior to the announcement of such a transaction.
