The accompanying notes are an integral part to the unaudited condensed interim consolidated financial statements.

1. Nature of Operations and going concern

Reservoir Capital Corp. (“Reservoir” or the “Company” or "REO") was incorporated under the Business Corporations Act (Alberta) on March 23, 2006 and was continued into British Columbia, under the Business Corporations Act (British Columbia) on November 15, 2007. The address of the Company’s head office is 82 Richmond Street E, Toronto, Ontario, M5C 1P1.

The Company invests in the securities of clean power companies and clean power assets. In September 2018, the Company acquired 60% of the outstanding shares of Kainji Power Holding Limited (“KPHL”) resulting in an indirect minority ownership interest in Mainstream Energy Solutions Limited (“MESL”). In June 2019 and November 2019, the Company increased its ownership interest in KPHL and as a result KPHL is now a wholly-owned subsidiary of REO. The Company is subject to ligitation on the KPHL investment. (Note 18).

On December 31, 2019 the Company acquired a 60% interest in OLOCORP Nigeria Ltd ("OLO") (see note 6). During the year ended December 31, 2020 , the Company acquired the outstanding 40% interest in OLO which became a wholly-owned subsidiary of the Company. OLO holds an investment in North South Power Company Ltd ("NSP"), a Nigerian company which operates hydro power plants on the Kaduna River in Nigeria. As a result of the transaction, REO became a minority holder of NSP.

The Company’s current primary focus is to seek returns through investments in the securities of clean power companies and clean power assets, which may be located in emerging nations and, consequently, may be subject to a higher level of risk compared to more developed countries. Operations, the status of renewable energy licenses and the recoverability of investments in emerging nations can be affected by changing economic, regulatory and political situations.

Since December 31, 2020, the outbreak of the novel strain of coronavirus, specifically identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown including a reduction in hydro-electric power use. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operating subsidiaries in future periods. The Company is closely monitoring the business environment as a result to ensure minimal distribution to business operations.

These unaudited condensed interim consolidated financial statements have been prepared on the going concern basis, which assumes that the Company will be able to continue as a going concern and realize its assets and discharge its liabilities in the normal course of business. These unaudited condensed interim consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. As at March 31, 2021, the Company has a working capital of $1,566,782 and the continuing operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that additional funds need to be obtained from external financing to meet the Company’s current operations and future investment goal needs, and there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast significant doubt as to the Company’s ability to continue as a going concern and accordingly use accounting principles applicable to a going concern.

2. Significant Accounting Policies

(a) Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for investments carried at fair value, and presented in Canadian dollars.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS issued and outstanding as of December 22, 2021, the date of the Board of Directors approved the unaudited condensed interim consolidated financial statements.

(b) New policies not yet adopted

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022. There is currently a proposal in place to extend effective date for annual periods beginning on or after January 1, 2023. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

3. Restricted cash

As at March 31, 2021, the restricted cash of $545,669 (December 31, 2020 - $1,411,690) are held by the Company subsidiaries. During the three months ended March 31, 2021 and year ended December 31, 2020, dividends have been paid out by MESL in Nigerian Naira ("NGN") as opposed to US denominated funds. The NGN is subject to regulatory domestic and conversion restrictions and therefore is not available for general use.

4. Receivables

The Company’s receivables are from dividends subject to foreign exchange restrictions (see note 3) receivable and goods and services tax (“GST”) receivable from government taxation authority, as follows:

	As at March 31, 2021	As at December 31, 2020
Harmonized sales tax	**$ 1,412**	$ 11,153
Dividends receivable	**1,521,233**	1,186,185

Investment in MESL

In December 2017, KPHL acquired 8,443,333 shares of MESL, representing a 2.1% ownership interest, for US$2. MESL operates 2 hydroelectric power plants of a combined installed capacity of 922MW in Nigeria. During the year ended December 31, 2018, KPHL received 1,688,666 bonus shares of MESL, resulting in 10,131,999 of total shares held. In June 2019, the Company entered into a share exchange agreement where the Company issued 1,990,183 common shares valued at $13,931,277 to acquire 9,950,912 shares of MESL, which were then transferred to and held by KPHL. In December 2019, the Company issued 133,000 common shares valued at $864,500, to acquire the remaining 5% interest of KPHL from a Director of the Company. As a result of these transactions, KPHL became a wholly-owned subsidiary of the Company. As at March 31, 2021, the Company held 20,082,911 shares of MESL, representing a 4% ownership interest, as a result of the Company buying out the remaining 5% NCI in KPHL resulting in additional indirect minority interest in MESL.

(Expressed in Canadian Dollars, unless otherwise indicated)

6. Other investments (continued)

Investment in MESL (continued)

As at March 31, 2021, the carrying amount of this investment was adjusted to its fair value of $24,928,835 using the discounted cash flow ("DCF") method with the following inputs and assumptions: (a) weighted average cost of capital ("WACC") of 10.2% (December 31, 2020 - 10.2%), (b) discount for possible lack of marketability of 31% (December 31, 2020 - 31%), and (c) foreign exchange rate of C$1/US$0.80 (December 31, 2020 - C$1/US$0.78).

On January 21, 2021, the Compnay was notified of a legal claim related to the MESL shares and dividends. (See note 18)

Investment in OLO and NSP

During the year ended December 31, 2019, the Company acquired 3,000,000 shares in OLO representing a 60% controlling ownership interest. OLO owns 7,297,297 shares in NSP representing less than 2% investment. On April 17, 2020, the Company obtained the remaining 40% interest in OLO; which became a wholly-owned subsidiary of the Company. As a result of transaction, the Company no longer continues to have a non-controlling interest in any entity.

As at March 31, 2021, the carrying amount of this investment was adjusted to its fair value of $2,143,528 using the discounted cash flow ("DCF") method with the following inputs and assumptions: (a) weighted average cost of capital ("WACC") of 10.2% (December 31, 2020 - 10.2%), (b) discount for possible lack of marketability of 31% (December 31, 2020 - 31%), and (c) foreign exchange rate of C$1/US$0.80 (December 31, 2020 - C$1/US$0.78).

8. Promissory note payable

On April 17, 2020, the Company issued a promissory note for $100,000 to settle the last remaining cash payment balance of $234,000 (USD$180,000) for the initial 60% ownership interest in OLO acquired in December 31, 2019. As a result of this transaction, the Company recorded a gain on settlement of debt of $134,000. In July 2020, the Company repaid the balance of the promissory note.

In July 2020, the Company issued another promissory note for $200,000 and paid $33,333 of the promissory note, and reach a settelement to defer payment on the $166,667 balance remaining. During the three months ended March 31, 2021, the promissory note payable of $166,667 was paid out.

9. Convertible loan

On January 11, 2021, the Company entered into a convertible loan agreement with a foreign company with significant exposure to the Nigerian market and with a need for Naira currency as working capital for a total of CAD$1,000,000. The loan will not bear interest during the first 3 weeks after disbursement and will bear an interest of 1% monthly thereafter. The loan will mature and be repayable in full six months after disbursement, and no principal or interest shall remain due after December 31, 2021. During January 2021 and February 2021, the Company received $569,620 (USD$ 448,979), and paid out $717,768 through it subsidiary in Naira currency, recorded a loss in settlement of convertible loan of $148,148.

10. Government Loans Payable

The Government of Canada announced several funding relief measures to aid companies impacted by the COVID-19 pandemic. One of the measures announced by the Government of Canada is a interest free loan program. In June 2020, the Company received a $40,000 loan issued through the Company's financial institution and guaranteed by the Government of Canada. The loan must be used for financing ordinary business activities of the Company and is interest free until December 31, 2022. If the loan is repaid in full by December 31, 2022 a 25% forgiveness is automatically provided. If the Company fails to repay the full loan by December 31, 2022 the loan will automatically extend for an additional 3 years with an interest rate of 5% per annum. No amounts have been repaid to date.

11. Share Capital

(a) Authorized share capital

Authorized share capital consists of an unlimited number of common shares without par value. As at March 31, 2021, 245,600 (December 31, 2020 - 368,400) common shares were held in escrow to be released semi annually over the period to September 2021.

13. Non-controlling Interest

KPHL

In June 2019, the Company issued 709,240 common shares valued at $4,964,680 to acquire an additional 35% ownership interest in KPHL, which became a 95%-owned subsidiary of the Company and 5%-owned by minority shareholders, resulting in an allocation of $5,245,414 from the NCI to the Company's share capital and deficit. In November 2019, the Company acquired the remaining 5% ownership in KPHL from a Director of the Company resulting in KPHL becoming a wholly-owned subsidiary of the Company as of December 31, 2019.

To acquire the remaining 5% interest in KPHL, the Company issued 133,000 common shares valued at $864,500 of the Company with a fair value of $0.045 and a cash payment of $798,000 (USD$600,000) of which $136,000 is outstanding as of December 31, 2020 (2019 - $399,000) included in accounts payable and accrued liabilities. As of December 31, 2019, as a result of the transaction, an additional $1,496,789 was re-allocated from the Company's NCI to the Company's share capital and deficit.

As of March 31, 2021, KPHL is a wholly-owned subsidiary of the Company.

OLO

On December 31, 2019 the Company acquired a 60% majority interest in OLO resulting in a 40% interest owned by arms-length minority shareholders. On the date of acquisition, the purchase price equation (see note 5) resulted in $2,040,000 being allocated to the NCI. As the transaction occurred at the close of business on December 31, 2019, the Company had no share of net loss from OLO to allocate in the Company's comprehensive statement of income for December 31, 2019.

During the year ended December 31, 2020, the Company acquired the remaining outstanding 40% interest in OLO through issuance 380,000 common shares at a value of $1,520,000. As a result, as at December 31, 2020, OLO is a wholly-owned subsidiary of the Company. The acquisition of the 40% interest was considered to be a capital transaction resulting in a increase to share capital for the value of the share issued, a reduction to $Nil of NCI and any difference allocated to deficit.

(Expressed in Canadian Dollars, unless otherwise indicated)

14. Related Party Balances and Transactions

Key management personnel are persons responsible for planning, directing, and controlling the activities of an entity, and include executive and non-executive directors. The key management personnel of the Company are the directors and officers of the Company.

15. Segmented Information

The Company operates in a single segment, being acquisition and investment in renewable energy interests. In addition, the Company has corporate activities, which include the evaluation and acquisition of new investments, treasury and finance, regulatory reporting, and corporate administration. As at March 31, 2021, the Company's core assets, the investments and the other investment in MESL and NSP were located in Nigeria.

16. Capital Risk Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and evaluation of its properties. The capital of the Company consists of share capital, warrants, reserves and deficit. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The company is subject to externally imposed capital restrictions in Nigeria.

17. Financial Instruments

The Company's financial instruments consist of cash, restricted cash, receivables, investments, other investments, accounts payable and accrued liabilities, promissory note payable, and due to related parties.

Credit Risk
The Company's credit risk is primarily attributable to cash and receivables. The Company has no significant concentration of credit risk arising from operations. Cash consists of bank deposits which have been invested with reputable financial institutions, from which management believes the risk of loss to be remote.

Liquidity risk
Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company monitors its ability to meet its short-term exploration and administrative expenditures by raising additional funds through share issuance when required. All of the Company's financial liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. The Company is exposed to liquidity risk.

Interest rate risk
The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Management considers interest rate risk to be minimal.

Foreign exchange risk
The Company's dividends are paid in USD and NGN but earned in Nigerian Naira. Accordingly, a 10% change between the Naira and the Naira and the USD would change the dividend income by approximately $32,103, assuming no changes to dividens paid.

The exposure of the Company is its receivable which are denominated in NGN and cash are partially denominated in USD, and restricted cash which are denominated in NGN. Consequently, the Company is exposed to the risk that the exchange rates relative to the USD may change in a manner which has a material effect on the carrying amount of its receivables and cash and restricted cash. Based on the exposure, as at December 31, 2020, and assuming that all other variables remain constant, a 10% depreciation or appreciation of the USD or NGN against the Canadian dollar would result in a nominal change with respect to USD and an increase/decrease of approximately $2,206, with respect to NGN in the Company's pre-tax income or loss.

As at March 31, 2021, cash held in USD was $446,674 and restricted cash in NGN was $652,284 (December 31, 2020 - USD $54,208 and NGN $1,411,690).

Commodity price risk
The Company is exposed to price risk with respect to commodity prices. Changes in commodity prices will impact the economics of development of the Company's hydro electric energy properties' profitability.

Fair value hierarchy
Financial instruments recorded at fair value on the condensed interim consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(Expressed in Canadian Dollars, unless otherwise indicated)
