Statements in this document which are not purely historical are forward-looking statements, including any statements regarding beliefs, plans, expectations or intentions regarding the future.

It is important to note that actual outcomes and the Company’s actual results could differ materially from those in such forward-looking statements. *Risks and uncertainties include, but are not limited to, economic, competitive, governmental, environmental and technological factors that may affect the Company’s operations, markets, products and prices.* Factors that could cause actual results to differ materially may include: misinterpretation of data; that we may not be able to get equipment or labour as needed; that we may not be able to raise sufficient funds to complete our intended exploration and development; that our applications to drill may be denied; that weather, logistical problems or hazards

may prevent us from exploration; that equipment may not work as well as expected; that analysis of data may not be possible accurately and at depth; that results which we or others have found in any particular location are not necessarily indicative of larger areas of our properties; that we may not complete environmental programs in a timely manner or at all; market prices may not justify commercial production costs; and that despite encouraging data there may be no commercially exploitable mineralization on our properties. Readers should refer to the risk disclosures outlined in the Company's Management Discussion and Analysis of its audited financial statements filed with the British Columbia Securities Commission.
