Pasinex Resources Limited

Notes to Condensed Interim Consolidated Financial Statements

1. Nature of Operations and Continuance of Operations

Pasinex Resources Limited ("Pasinex" or the "Company") is a publicly listed company incorporated in British Columbia on February 21, 2006, and on August 4, 2006, it continued out of British Columbia and into the British Virgin Islands. On July 10, 2008, in connection with the change of control, the Company continued into British Columbia as a mineral exploration company in the exploration stage, engaged in the acquisition, exploration and development of mineral properties in Turkey and invested in a joint venture in Turkey with an operating mine. The Company's shares are listed on the Canadian Securities Exchange ("CSE") under the symbol "PSE" and on the Frankfurt Stock Exchange ("FSE") under the symbol "PNX". The head office, principal address and registered and records office of the Company are located at 82 Richmond Street East, Toronto, Ontario, Canada, M5C 1P1.

2. Going Concern

These unaudited condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for at least the next twelve months and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several adverse conditions cast significant doubt on the validity of this assumption. The Company itself is in the exploration stage and, accordingly, has not yet commenced revenue-producing operations. The Company's 50% owned Joint Venture, however, has generated revenue in 2016 and 2015 and, as a result, the Company has recognized an equity gain from the Joint Venture for the three months ended March 31, 2017 and the year ended December 31, 2016 (note 6). However, the receipt of future proceeds from the Joint Venture as a result of the profitable mining operation is uncertain and indeterminable at this time. The Company had an accumulated deficit as at March 31, 2017 of \$6,175,976 (December 31, 2016 -\$7,039,006). At March 31, 2017, the Company had working capital of \$358,009 (December 31, 2016 – \$215,483). The ability of the Company to continue as a going concern depends upon its ability to develop profitable operations and to continue to raise adequate financing required to maintain its operations, and to ultimately attain future profitable operations. Management expects the Company to continue as a going concern and plans to meet any financing requirements through equity financing and seeking other business opportunities to expand the Company's operations. The outcome of these matters cannot be predicted at this time and there are no assurances that the Company will be successful in achieving its goals. The unaudited condensed interim consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The application of the going concern concept is dependent upon the Company's ability to satisfy its liabilities as they become due and to obtain the necessary financing to complete the exploration and development of its mineral property interests in Turkey, the continuance of profitable mining operations through its Joint Venture or the receipt of proceeds from the disposition of its mineral property interests. Management is actively engaged in the review and due diligence on opportunities of merit in the mining sector and is seeking to raise the necessary capital to meet its funding requirements. There is, primarily as a result of the conditions described above, significant doubt as to the appropriateness of the use of the going concern assumption.

The Company is expected to be profitable during the ensuing twelve months through its equity pick-up from the Joint Venture. However, the Company must rely on securing funding from either equity financing or loan from shareholders or directors until the Joint Venture is in a position to distribute profits. Though the Company has been successful at raising funds, there is no assurance that it will continue to generate sufficient funds for future operations. Subsequent to March 31, 2017, the Company raised approximately \$616,000 from the exercise of warrants (see note 14).

3. Basis of Presentation

(a) Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee ("IFRIC"). These unaudited consolidated interim condensed financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited consolidated interim condensed financial statements are based on IFRS issued and outstanding as of May 25, 2017, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these consolidated interim condensed financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2016. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending December 31, 2017 could result in restatement of these consolidated interim condensed financial statements.

(b) Future Accounting Pronouncements

The accounting pronouncements detailed in this note have been issued but is not yet effective. The Company has not early adopted these standards and is currently evaluating the impact, if any, that these standards might have on its consolidated financial statements.

IFRS 9 Financial Instruments ("IFRS 9")

In November 2009, the IASB issued IFRS 9 as the first step in its project to replace IAS 39, Financial Instruments: Recognition and Measurement. On July 24, 2014 the IASB issued the complete IFRS 9. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on an entity's business model and the contractual cash flows of the financial asset. Classification is made at the time the financial asset is initially recognized, namely when the entity becomes a party to the contractual provisions of the instrument.

IFRS 9 amends some of the requirements of IFRS 7, Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on the measurement of financial liabilities and de-recognition of financial instruments. The mandatory effective date of IFRS 9 is for annual periods beginning on or after January 1, 2018 with early adoption permitted, and must be applied retrospectively with some exemptions permitted. The Company does not expect the adoption of IFRS 9 to have a material effect on its consolidated financial statements.

IFRS 15 Revenue from contracts with customers ("IFRS 15")

The standards on revenue from contracts with customers was issued on May 28, 2014 and is effectively for annual reporting periods beginning on or after January 1, 2018 for public entities with early adoption permitted. Entities have the option of using either full retrospective or modified retrospective approach to adopt the guidance. The Company is currently assessing the impact of this standard on its consolidated financial statements.

3. Basis of Presentation (Continued)

(b) Future Accounting Pronouncements (continued)

IFRS 16, Leases ("IFRS 16")

On January 13, 2016, the International Accounting Standards Board published a new standard, IFRS 16, Leases, eliminating the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Under the new standard, a lease becomes an on-balance sheet liability that attracts interest, together with a new right-of-use asset. In addition, lessees will recognize a front-loaded pattern of expense for most leases, even when cash rentals are constant. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted. The Company is evaluating the impact of adopting this standard on its consolidated financial statements.

6. Joint Venture with Akmetal

On June 28, 2012, the Company, through its wholly-owned Turkish subsidiary, Pasinex Arama, signed a non-binding Letter of Intent (“LOI”) with an arm’s length Turkey based miner, Akmetal to form a 50 / 50 joint venture to explore for zinc and other associated commodities in the region between and around Horzum and Tufanbeyli, Adana Province, Turkey. Under the terms of the LOI it was proposed that a joint venture company would be formed and held 50 / 50 by the two parties and would be controlled by a board consisting of equal representatives of both Pasinex and Akmetal. Both partners would equally fund exploration and other general costs associated to the joint venture’s course of business.

On October 29, 2012, the new joint venture company, Horzum Arama ve Isletme AS (“Joint Venture”), was formed while a Joint Venture Agreement had not been substantiated. On January 17, 2013, Pasinex Arama and Akmetal signed a Joint Venture Agreement effective the same day. During the year ended December 31, 2013, the Joint Venture acquired, through staking, one property in Turkey: Pinargozu. The property is located within the Turkish Provinces of Adana, and was acquired for the potential to host base and precious metals.

The initial capital of the Joint Venture company was determined to be a total of TRY 500,000 and Pasinex Arama was obligated for 50% of the total, being TRY 250,000. As at December 31, 2016, Pasinex Arama has paid TRY 250,000 in cash toward the total required capital. The investment in the joint venture is accounted for using the equity method.

Properties Held in Turkey

Horzum JV Properties

The Company, through Pasinex Arama had originally acquired six properties in the vicinity of Horzum, Adana province, Turkey as part of the initial exploration there. These properties were acquired to be included in the 50 / 50 joint venture with Akmetal. During the three months ended March 31, 2017, \$239 in exploration costs and \$31,297 in license costs have been spent on the Horzum JV. As at March 31, 2017, the Company had only the Akkaya Property with its exploration license in good standing. The process to transfer the license of the Akkaya Property to the Joint Venture is still ongoing, therefore the Company is capitalizing all costs spent on the property until the transfer takes place. 7. Exploration and Evaluation Assets (Continued)

Golcuk Property

On July 19, 2012, the Company signed an option agreement (the "Agreement") with Eurasian Minerals Inc. ("Eurasian") and its wholly owned Turkish subsidiary, Eurasia Madencilik Ltd. STI, whereby Pasinex, through its wholly owned Turkish subsidiary, Pasinex Arama, can acquire a 100% interest in the Golcuk Property ("Golcuk") located in northeast Turkey. Under the Agreement, Golcuk will be forthwith transferred to Pasinex Arama.

As consideration, upon granting of the mining obligation extension, Pasinex issued common shares to Eurasian as follows:

- 500,000 common shares within five (5) days after the granting of the extension (issued);
- 500,000 common shares on the one year anniversary of the Initial Issuance Date (issued);
- 1,000,000 common shares on the two year anniversary of the Initial Issuance Date (issued); and
- 1,000,000 common shares on the three year anniversary of the Initial Issuance Date (issued)(note 9).

Eurasian will retain a 2.9% Net Smelter Royalty on Golcuk which Pasinex has the option of buying down to 2% within six years of the Agreement date for consideration of \$1,000,000.

Additionally, Pasinex will be required to complete minimum annual work commitments on the project as follows:

- \$200,000 before the one year anniversary of the date of the transfer of Golcuk to Pasinex Arama (the "Completion Date");
- \$250,000 before the two year anniversary of the Completion Date; and
- \$250,000 before the end of the four year anniversary of the Completion Date.

Golcuk is classified as an operational license under the Turkish government mining regulations. As such, the property requires, at a minimum, a small-scale mining operation to be carried out each year in order to satisfy its operational license, and each year, the project must process approximately 900 tonnes of ore. On the completion and acceptance of the Agreement, Pasinex was to file a request for a one-year extension in regard to the Company's small-scale mining obligation to the Turkish government. However, Pasinex applied for and obtained an Open Pit Application and management has determined that the granting of the Open Pit Application would replace the one-year extension requirement of the original option Agreement. The Company entered into an Amended Agreement with Eurasian to waive certain government requirements and the right to terminate the agreement. The Golcuk property was transferred to Pasinex Arama in September 2012.

On November 30, 2016, the Company entered into a Second Amendment to the Agreement with Eurasian for the Golcuk Property. This amendment included:

- (a) Advance Royalty Payment of 50 troy ounces of gold or its equivalent in shares of the Company (664,483 common shares issued);
- (b) Definition of the Completion Date in the Agreement to be changed to September 18, 2012; and
- (c) Work Program Provisions of the Agreement are in part amended so that the third portion of Expenditures (as this term is defined in the Agreement) to be undertaken by Pasinex Arama, being the additional \$250,000 shall be completed on or before June 30, 2017, instead of June 16, 2016, provided that Pasinex Arama agrees to commence a program of exploration drilling on the properties prior to June 30, 2017 and also provided that the failure to commence drilling by that date shall constitute a material breach giving Eurasian the right to terminate the Agreement, should Pasinex Arama fail to cure such default within 30 days of being delivered a default notice.

During the three months ended March 31, 2017, \$4,025 in exploration costs and \$25,533 in acquisition costs have been incurred on the Golcuk Property.
