This Management Discussion and Analysis ("MD&A") is intended to help the reader understand the financial statements of Nass Valley Gateway Ltd. ("NVG" or the "Company"). The information herein should be read in conjunction with the unaudited condensed interim consolidated financial statements for the six months ended June 30, 2017 and 2016. The condensed interim consolidated financial statements for the six months ended June 30, 2017 have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The following discussion may contain management estimates of anticipated future trends, activities or results. These are not a guarantee of future performance, since actual results could change based on factors and variables beyond management control. All monetary amounts are in Canadian dollars unless otherwise stated.

This MD&A is the responsibility of management. The Board of Directors carries out its responsibility for the review of this disclosure directly and through its audit committee comprised primarily of independent directors. The audit committee reviews and approves this disclosure prior to its publication, pursuant to the authority delegated to it by the Board of Directors.

The reader is encouraged to review the Company's statutory filings on **www.sedar.com** ("Sedar") and to review general information.

### **Description of Business and Overall Performance**

The Company was incorporated on October 25, 2005 under the British Columbia Business Corporation Act. The Company became a reporting issuer on February 26, 2007 and the common shares of the Company were listed on the Canadian Securities Exchange ("CSE") on March 9, 2007 under the trading symbol 'NVGL', which was changed in September 2008 to "NVG" as a consequence of the new trading symbol system adopted by the CSE. As of October 5, 2007, the Company's common shares are co-listed on the "Open Market" of the Frankfurt (Germany) Stock Exchange and are trading under the symbol "3NVN". The Company's common shares are also traded on the Third Market Segment called Freiverkehr on the Berlin-Bremen Stock Exchange.

Between 2010 and 2012, the Company acquired the rights to two green-technology systems, an emission-free energy-converting and waste disposal system and a wood drying technology, for its subsidiaries Global Environomic Systems Corp. ("GSC") and M-Wave EnviroTech Inc. ("MWE"), respectively and spun off its mining exploration subsidiary Kirkland Precious Metals Corp. into a separate reporting exploration company via a Plan of Arrangement.

As the Company's efforts to finance a production plant based on its GSC technology system were not successful and its pilot plant based on the MWE technology was completely destroyed by a disastrous fire in 2013, as reported in the Company's monthly report dated Oct. 4, 2013, management investigated several projects within the bio-tech industry.

On October 16, 2014 Nass Valley announced that it had entered into a letter agreement granting the Company the exclusive right to acquire a corporation actively involved in the medicinal cannabis industry. The letter agreement, which was subject to a "Due Diligence Period", was extended past the original date of December 04, 2014 to allow the financiers additional time to raise the agreed upon financing but was subsequently terminated on Feb 10, 2015.

On May 26, 2015 the Company announced in a news release that it had entered into a letter agreement ("LOI") granting the Company the exclusive right to acquire a private corporation ("Target-A"), to develop transdermal delivery systems through a contracted third party ("Research-Co") to develop patches suitable for the delivery of tetrahydrocannabinol ("THC") and cannabidiol ("CBD").

On July 07, 2015 Nass Valley announced that it had executed the Definitive Agreement ("Target-A-Agr"), dated June 15, 2015, with SRH ("SRH-Agr") based on the terms of the LOI.

As Nass Valley's acquisition of Target-A under the terms of the Target-A-Agr was considered a "Fundamental Change" under the rules of the CSE, the trading of the Company's stock was halted on

August 18, 2015 until the approval or discontinuance of the transaction. In June 2016 the Target-A wanted to renegotiate the already executed agreement and as the Fundamental Change did not receive regulatory approval, the Company was able to discontinue further negotiation with Target-A. As a consequence of NVG's public announcement on July 5, 2016, the Company's stock resumed trading on July 6, 2016.

Nass Valley Gateway subsequently completed due diligence on several qualifying target projects during the last year and rejected two more of them as the Board of Directors determined that an integration of those targets would also not have been in the best interest of its shareholders.

#### **Future Developments**

On February 8, 2017, the Company entered into a binding Letter of Intent and on February 15, 2017 (the "LOI-Date"), the Company further entered into a Definitive Asset Purchase Agreement (the "DAP-Agr") to acquire 100% of IXI Treasury Holdings Limited ("ITHL").

ITHL is a private company owning 40% of a Brazilian Government Treasury Bond with a confirmed converted asset value of more than \$800 Million (the "ITHL-Asset") at the LOI-Date and with a maturity of September 2036. Because of the potentially high currency risk, the parties agreed to a discounted value of \$400 Million for the entire ITHL-Asset, including the outstanding shares of ITHL. In order to compensate for the extremely long maturity period, the Company negotiated as consideration for the ITHL-Assets the issuance of nonvoting convertible Preferred Class-A shares, of Series 1 and Series 2, with a deemed value of CAD 5.00 per Class-A share of both Series. Under the terms of the DAP-Agr, fifty percent (50%) of the committed Pref-A1 Shares will be issued by Nass Valley upon approval including the required approval of the Company's shareholders.

The balance of the total consideration will be issued as Pref-A2 Shares subsequent to ITHL's committed completion of the first stage of a financing of \$2,000,000. The Pref-A1 and Pref-A2 Shares are convertible at a ratio of 1:1 (one Pref-A Share for one NVG common share), but only if the combined conversion of all Pref-A shares issued to the shareholders of ITHL do not trigger an RTO and upon approval of the CSE.

On April 4, 2017 at a Special Shareholders' Meeting the amendment of the Company's articles to allow the issuance of 2 classes of Pref-A shares was unanimously approved by the Company's shareholders.

Upon approval of the transaction, the Company will consolidate its common shares on a 2 to 1 basis such that each shareholder will receive one (1) share for every two (2) shares currently held and change its name to "IXI Energy Inc." and the trading symbol to "IXE".

IXI Energy Inc., as Resulting Issuer of Nass Valley, intends to use the ITHL-Asset as security for issuing corporate bonds for funding investments and development of renewable and waste-to-energy projects which will provide the Company with very attractive financing alternatives, compared to further dilutive equity issues. The Resulting Issuer will focus on its objectives to remain within the "Clean Tech" segment of the industry.

At the request of the Company in line with the rules of the CSE, the trading of its stock was halted on February 8, 2017 pending news of the signing of the DAP-Agr and regulatory approval by the CSE.

The Company and ITHL's management are presently occupied with providing additional documentation and verification requested by the CSE and both teams are looking forward to satisfying the requirements for regulatory approval of its presently proposed acquisition of ITHL.

#### **Highlights and Subsequent Events**

As outlined within the previous section, the Company executed an LOI and the DAP-Agr to acquire 100% of ITHL's assets, including its outstanding shares, conditional upon regulatory approval, and the Board of Directors approved a consolidation of the Company's total share capital at a ratio of 2:1 to be initiated subsequent to regulatory approval of the proposed acquisition. The Company also held a Special

Shareholders' Meeting on April 4, 2017 (the "Meeting") to approve an amendment of its articles to be able to issue convertible preferred shares of different series in order to acquire the proposed ITHL-Assets and/or future projects to increase shareholders' value. The amendment of the articles, including the assigned rights and conditions of the convertible preferred shares, was unanimously approved at the Meeting.

Management continued with its due diligence, requested and received an updated verification of the ITHL-Assets, finalized the first draft of the to-be-submitted Listing Statement for review by the Company's securities counsel and the CSE and is following up to address some additional questions that have arisen from the first review.

The Company was pleased to announce on February 8, 2017 that James Holmes of Wimbledon, United Kingdom, agreed to join its Board of Directors. Mr. Holmes runs the very successful family business Robert Holmes Properties Ltd. and has helped grow a number of businesses in Europe including a property company with leisure, office services, property financing and development divisions and leads a team of over 30 professionals in four offices. Mr. Holmes is especially experienced in corporate bond funding, which is an objective of the Resulting Issuer subsequent to regulatory approval of its presently proposed acquisition.

Due to a tight budget, all Directors of the Board and Executive Members of the Company's management team, excluding its Corporate Secretary as an employee, continue to provide unpaid services to the Company.

#### **FINANCING**

During the year ended December 31, 2016 and as of June 30, 2017 no new equity financing was obtained and no loans to or from related parties incurred.

#### **Results of Operations**

#### The six months ended June 30, 2017 compared to six months ended June 30, 2016

Net loss and comprehensive loss for the six months ended June 30, 2017 amounted to \$68,855 (loss per share - \$0.01) compared to \$37,578 (loss per share - \$0.00) in the previous year. As the Company is inactive, no revenue was generated. The increase in loss of \$31,277 was mainly due to:

- (i) an increase of \$10,559 in accounting and legal expenses from \$15,000 in 2016 to \$25,559 in 2017 due to the Company's due diligence work for its new project;
- (ii) an increase of \$1,451 in cost in investor relations from \$320 in 2016 to \$1,771 in 2017 due to the potential acquisition of ITHL:
- (iii) an increase in share based payments of \$10,676 from \$2,471 in 2016 to \$13,147 in 2017 due to new options having been issued and vested;
- (iv) an increase of \$5,372 in marketing and promotion from \$8 in 2016 to \$5,380 in 2017 due to the creation of a new website:
- (v) an increase of \$1,628 in transfer agent and filing fees from \$7,399 in 2016 to \$9,027 in 2017 due the Company's Special Shareholders' Meeting.

# Second quarter results

During the quarter ended June 30, 2017 the Company incurred a loss of \$37,853 compared to a loss of \$25,159 for the comparative period.

Significant movements for the three month period ended in June 30, 2017 were an increase of \$1,257 in accounting and legal expenses compared to \$15,000 in 2016 to \$16,259 in 2017, an increase of \$714 in wages and salaries from \$3,752 in 2016 to \$4,466 in 2017 and an increase of \$9,333 in share based compensation from \$597 in 2016 to \$9,930 in 2017.

### **Liquidity**

The Company's working capital and deficit positions at June 30, 2017 and June 30, 2016 were as follows:

	June 30 2017	December 31 2016
Working capital (deficiency)	\$ 132,454	\$ 188,162
Deficit	\$ 3,642,415	\$ 3,573,560

The cash positions at June 30, 2017 and 2016 were \$92,002 and \$190,424 respectively.

The Company's financial condition is contingent upon being able to find a qualifying project for adding value to the Company.

While the Company will seek to maximize recoveries and reduce operating costs, estimates and assumptions influencing these parameters at the research and development stage may prove incorrect. Incorrect assumptions may result in material differences between estimated and actual results. The Company has no way to predict the future price and the ability to sell the developed products. As a result, revenue derived from future operations, if any, will be impacted.

The Company has historically relied upon equity financings and loans from related parties to satisfy its capital requirements and will continue to depend heavily upon equity capital to finance its activities. There can be no assurance the Company will be able to obtain required financing in the future on acceptable terms. The Company anticipates it will need additional capital in the future to finance ongoing operations and development, such capital to be derived from the exercise of outstanding stock options, warrants and/or the completion of other equity financings. The Company has limited financial resources, has no source of operating income and has no assurance that additional funding will be available to it for future development of its projects, although the Company has been successful in the past in financing its activities through the sale of equity securities. The ability of the Company to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions.

In recent months, the securities markets in the world and in Canada have experienced high volatility in price and volume and companies, particularly in junior technology industry, have experienced unprecedented decline in their share prices which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that continual fluctuations in the Company's share prices will not occur or that these fluctuations will not affect the ability of the Company to raise equity funding, and if at all, without causing a significant dilution to its existing shareholders. Any quoted market for the common shares may be subject to market trends generally, notwithstanding any potential success of the Company in creating revenue, cash flows or earnings.

#### Capital Resources

At June 30, 2017 the Company had a share capital of \$3,216,971 (June 30, 2016: \$3,216,971), representing 31,751,977 (June 30, 2016: 31,751,977) common shares without par value, and an accumulated deficit of \$3,642,415 (June 30, 2016: \$3,527,366). The shareholder's equity amounted to \$135,454 (June 30, 2016: equity of \$226,011).

# Additional Disclosure for Venture Issuers without Significant Revenue

Additional disclosure concerning the Company's general and administrative expenses and resource property costs is provided in the Company's Statement of Operations, Comprehensive Loss and Deficit included in its condensed interim consolidated financial statements for the six months ended June 30, 2017 and 2016 which are available on SEDAR at www.Sedar.com.

### **Related Party Transactions**

During the six months ended June 30, 2017 the Company entered into the following transactions with related parties.

### **Key Management personnel compensation**

No remuneration was paid during the six months ended June 30, 2017 and 2016 to any key management personnel except the salary to the Corporate Secretary. The amounts due from (to) related parties were as follows and relate mainly to the reimbursement of in the salary of the Corporate Secretary:

40% from Mineral Hill Industries Ltd. 20% from The Eelleet Network Corp.

### Other related party transactions

The amounts due from (to) related parties were as follows:

	June 30	December 31
	2017	2016
	(unaudited)	(audited)
Salary:		
Corporate Secretary	13,500	16,707

The amounts due (to) related parties were as follows and relate mainly to the reimbursement of respective shares in the salary of the Corporate Secretary.

	June 30 2017 (unaudited)	December 31 2016 (audited)
Balances	\$	\$
Due from related parties:		
The Eelleet Network Corp.	18,240	13,515
Mineral Hill Industries Ltd.	34,016	24,549
	52,256	38,064
Amounts outstanding to related parties included in ac	counts payable	
Mineral Hill Industries Ltd.	-	647
	-	647

These transactions are in the normal course of operations and, in management's opinion, are undertaken with the same terms and conditions as transactions with unrelated parties. Accordingly, these transactions are measured at exchange amounts, which are the amounts of consideration negotiated, established and agreed to by the related parties.

### Advances from related party

During the year ended December 31, 2015, Merfin advanced additional \$25,000 to the Company and the loan balance was fully repaid in August 2015. The Company recorded interest expenses in the amount of \$4,937 for the year ended December 31, 2015. No further advances were recorded in 2016 or during the six months ended June 30, 2017.

In 2015, the Company disposed of two subsidiaries, Global Environomic Systems Corp. to Mineral Hill Industries Ltd. and Nass Energy Inc., in trust, to two of the Company's directors, for no consideration. Both subsidiaries were inactive and dormant.

These transactions are measured at exchange amounts, which are the amounts of consideration negotiated, established and agreed to by the related parties.

### **Off Balance Sheet Arrangements**

The Company doesn't have any off balance sheet arrangements.

### **Directors and Officers**

Dieter Peter President, Chief Executive Officer and Director (Mineral Hill Industries Ltd)

Andrew von Kursell Director (Mineral Hill Industries Ltd),

Eric Peter-Kaiser Interim Chief Financial Officer and Director (Mineral Hill Industries Ltd)

Milo Filgas Director (Mineral Hill Industries Ltd.)
James Holmes Director, appointed February 15, 2017

Michael Kelm Corporate Secretary

#### Outstanding Share Data as at July 28, 2017

	Number outstanding	Exercise Price	Expiry Date
Common shares	31,751,977 <sup>(1)</sup>		
Common shares issuab	le on exercise:		
Stock options	372,500 <sup>(2)</sup>	\$0.10	April 28, 2018
Stock options	545,000	\$0.10	October 25, 2019
Stock options	85,000	\$0.10	February 8, 2020
Warrants	11,450,000 <sup>(1)</sup>	\$0.10	May 1, 2017
Warrants	1,363,042	\$0.10	Jul 19, 2019
Warrants	3,500,000 <sup>(3)</sup>	\$0.11	October 16, 2020

- (1) In the MD&A dated April 26, 2016 the exercise of 312,225 warrants to the Target-A group was included in the outstanding share data. Since the agreement has not become effective the exercise of the warrants was cancelled and the share data reflects that reversal.
- (2) On August 6, 2016, 30 days subsequent to the resumption of trading 214,996, 210,000 and 176,000 options respectively that had been granted to members of advisory committees were cancelled due to Management's decision that no committees excluding the audit committee were necessary at this time.
- (3) On September 19, 2016 the Board of Directors approved the amendment of these warrants to \$0.11 per share with an expiry date of October 16, 2020.

### **Risks and Uncertainties**

The Company's financial success will be dependent upon the successful acquisition of a qualifying project, its, subsequent financing and, commercialization of such projects and its possible end-products. These activities involve significant risks which may not be eliminated even with past experience and knowledge.

The following are some of the key risks and uncertainties identified; however, there may be other risks and uncertainties that have not been listed:

- Costs related to disclosure requirements are a financial burden for a company presently depending on equity funding for its working capital.
- An increase in competition to any new project the company may and is in the process of acquiring.
- No assurance about the economic viability of the project the Company is acquiring.
- Additional costs may be incurred, such as availability of experts related to the acquisition, development and marketing, especially of potentially new generation of products.
- Additional expenditures will be required to establish permits and patents.
- There can be no assurance that a developed business plan will succeed in whole or in part.
- There are various government and environmental regulations that must be followed by the Company, which are changing constantly for most production projects, and the renewal of permits from provincial, territory, First Nations may have to be required.

### **Critical Accounting Estimates**

The preparation of the Company's financial statements requires management to use estimates and assumptions that affect the reported amounts of assets and liabilities as well as expenses.

# (i) Stock Based Compensation

The Company uses Black-Scholes option pricing model to determine the fair value of awards for stock options granted to employees, officer, directors and consultants. These estimated are based on historical information and accordingly cannot be relied upon to predict the future behavior. These estimates are set out in Note 7(c) to the financial statements.

#### (ii) Financial Instruments

The carrying values of the financial instruments have been estimated to approximate their respective fair values.

#### (iii) Income Taxes

The provision of income taxes is based on judgements in applying income tax law and estimates about timing, likelihood and reversal of temporary differences between accounting and tax basis of the assets and liabilities

#### (iv) Going concern

Management makes an assessment about the Company's ability to continue as a going concern by taking into the account the consideration of the various factors. Judgement is applied by management in determining whether or not the elements giving rise to factors that cause doubt about the ability of the Company to continue as a going concern are present.

# **Financial Instruments**

The Company's financial instruments consist of cash, loans mostly from related parties, amounts receivable from related parties, amounts payable, amounts payable to related parties and loans payable to related party. Unless otherwise noted, it is management's opinion that the Company is presently not exposed to significant interest, currency or credit risks arising from these financial instruments.

### Credit risk

The Company is not exposed to significant credit risk, being in the development stage. Amounts receivable from related parties and amounts due to related parties are described in Note 6 to the financial statements.

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities. The Company has historically relied upon equity financings to satisfy its capital requirements and will continue to depend heavily upon equity capital to finance its activities. There can be no assurance the Company will be able to obtain required financing in the future on acceptable terms. The Company anticipates it will need additional capital in the future to finance ongoing development of its technology, such capital to be derived from the exercise of outstanding stock options, warrants and/or the completion of other equity financings. The Company has limited financial resources, has presently no source of operating income and has no assurance that additional funding will be available to it for future development of its projects, although the Company has been successful in the past in financing its activities through the sale of equity securities. The ability of the Company to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions its exploration results. In recent years, the securities markets in Canada have experienced wide fluctuations in prices which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that continual fluctuations in price will not occur. Any quoted market for the common shares may be subject to market trends generally, notwithstanding any potential success of the Company in creating revenue, cash flows or earnings.

# **Changes in Accounting Policies**

The Company did not adopt any new or amended accounting standards during the six months ended June 30, 2017 which had a significant impact on the Financial Statements.

The following standard will be effective for annual periods beginning on or after January 1, 2018:

**IFRS 9 Financial Instruments** - In November 2009, as part of the IASB project to replace IIAS 39 Financial Instruments: Recognition and Measurement, the IASB issued the first phase of IFRS 9 Financial Instruments that introduces new requirements for the classification and measurement of financial assets. The standard was revised in October 2010 to include requirements regarding classification and measurement of financial liabilities. In November 2013, new general hedging requirements were added to the standard. In July 2014, the final version of IFRS 9 was issued and adds a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics.

The extent of the impact of adoption of these standards and interpretations on the consolidated financial statements of the Company has not been determined.

### **Forward-Looking Statements**

The statements made in this MD&A that are not historical facts contain forward-looking information that involves risk and uncertainties. All statements, other than statements of historical facts, which address the Company's expectations, should be considered forward-looking statements. Certain forward looking information should also be considered future-oriented financial information ("FOFI") as that term is defined in NI 51-102. The purpose of disclosing FOFI is to provide a general overview of management's expectations regarding the anticipated results of operations and capital expenditures. Such statements are based on management's exercise of business judgment as well as assumptions made by and information currently available to management. When used in this document, the words "may", "will", "anticipate", "believe", "estimate", "expect", "intend" and words of similar import, are intended to identify any forward-looking statements. Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Company and its subsidiaries may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors.

The Company's forward-looking statements are based on the beliefs, expectations and opinions of management on the date the statements are made, and the Company does not assume any obligation to update forward-looking statements if circumstances or management's beliefs, expectations or opinions should change except as required by law. You should not place undue reliance on these forward-looking statements. These statements reflect our current view of future events and are subject to certain risks and uncertainties as contained in the Company's filings with Canadian securities regulatory authorities. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, our actual results could differ materially from those anticipated in these forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of any unanticipated events. Although we believe that our expectations are based on reasonable assumptions, we can give no assurance that our expectations will materialize. The forward-looking statements made in this MD&A describe our expectations as at July 28, 2017.

"Dieter Peter"
