David Johnson, Owner of Palo Verde commented – "We're pleased to be making significant progress on the sales side and have recognition of local players like LivWell. Jim Frazier, CEO of Nutritional High - "We have reached our first milestone, and now is our opportunity to penetrate the edible market with our first of kind innovative products. As we have taken methodical steps to make sure we had our new infused gourmet products formulated for taste, texture, and overall consumer experience we are pleased to announce that our new "FLI" Brand edible line will be launched in the coming weeks, in addition to the Fli branded cartridges now being shipped."

### ***Product Roll-Out Update***

At this time Palo Verde has initiated commercial sales of FLI-branded vape pen cartridges bulk oil distillate. The cartridges utilize ceramic hardware with no cotton wick, which produce no methane off gas, may be used with a wider range of batteries that are currently on the market (including high-power adjustable models) and are more aesthetically pleasing to consumers.

The subsequent MIPs products being introduced are FLI-branded disposable vape pens and gelatin capsules, which can be manufactured using the current infrastructure at the Pueblo facility. The team has also began formulating innovative edible products that will be manufactured at the Pueblo facility once the chocolate enrobing equipment has been installed and properly calibrated. Consistent with Nutritional High's vision, the team is placing emphasis on ability to manufacture the edible products on semi-automated basis in order to meet the market demand once the products are introduced for commercial sale. The edible products are expected to be introduced in the Spring of 2017.
